Dancho Danchev's 2010 Disappearance - An Elaboration - Part Two (2019-04-03 19:51)

[1]

UPDATE: I can be reached at dancho.danchev@hush.com or at +359 87 68 93 890 in case of an emergency.

UPDATE: It appears that recently a car belonging to local police department (**hxxp://troyan-police.com**; **police _troyan@abv.bg)** was stopped somewhere around my place with the lights turned on with the idea to provoke a possible local police visit.

UPDATE: It appears that my place was visited for a second time by local police officers (**hxxp://troyan-police.com**; **police _troyan@abv.bg)** with third-party doctors (**http://mbal-troyan.com**; **mbal _troyan@abv.bg**) for the purpose of apparently injecting me and a document for the injection was signed by someone that I know.

UPDATE: It appears that someone managed to twist my arm and therefore pressed a pressure on my eye without my knowledge with random people attempting to communicate with me behind a wall.

UPDATE: It appears that prior to my presentation at InfoSec 2012 someone managed to place a plaque on the wall in Earl's Court and therefore I experienced a pressure on my head while making a presentation.

UPDATE: It appears that prior to my presentation visit in Lyon in 2010 someone managed to wound my mouth with something that can be described as wall interference.

UPDATE: It appears that someone managed to open my eye and therefore I’m currently experiencing a pressure behind a wall with random people attempting to communicate with me.

UPDATE: It appears that I’m currently persistently experiencing a pressure on my mouth including something in the lines of a toxic chemical on my nose.

UPDATE: It appears that someone managed to map my place including my head and body using rubber and is persistently trying to communicate with me.

UPDATE: In case you’re interested in contacting me in terms of my law enforcement issues and potential kidnapping and harassment attempts including possible interview requests - feel free to approach me at dancho.danchev@hush.com as I’m currently busy looking for a full time cybercrime researcher security blogger and threat intelligence analyst type of position.

I would be also definitely looking forward to sharing some of my sensitive projects including related work in various other sensitive areas with the idea to end the ongoing IP (Intellectual Property) robbery courtesy of a variety of industry-leading companies and individuals. **[2] Has the time come to work hard and set them straight?** It appears so. Feel free to approach me at dancho.danchev@hush.com

Cyber Jihad vs Cyberterrorism – Separating Hype from Reality

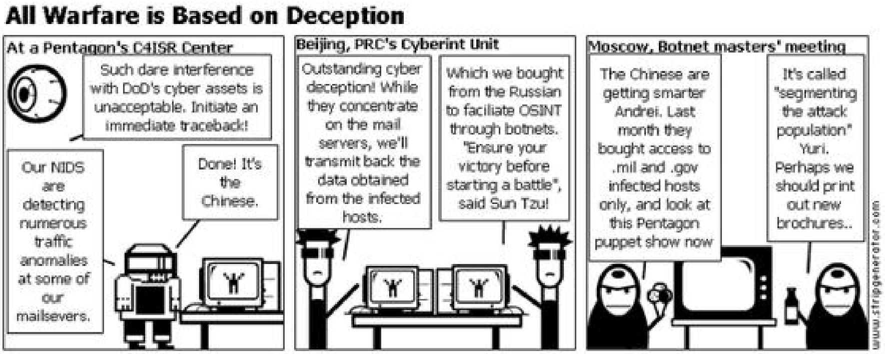
Dancho Danchev

Cybercrime Researcher, Security Blogger at ZDNet, Security Blogger at Webroot Inc.

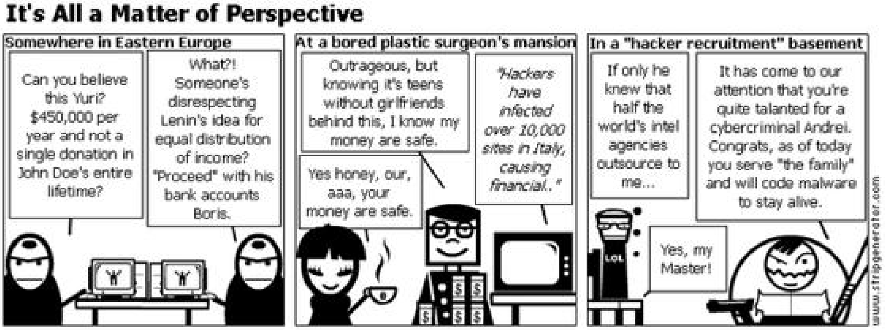
RSACONFERENCE EUROPE 2012

You can use the following PGP key to approach me regarding possible **[3] career opportunities**

6



All Warfare is Based on Deception
At a Pentagon's C4ISR Center
Such dare interference with DoD's cyber assets is unacceptable. Initiate an immediate traceback!
Our NIDS are detecting numerous traffic anomalies at some of our mailsevers.
Done! It's the Chinese.
Beijing, PRC's Cyberint Unit
Outstanding cyber deception! While they concentrate on the mail servers, we'll transmit back the data obtained from the infected hosts.
Which we bought from the Russian to faciliate OSINT through botnets. "Ensure your victory before starting a battle", said Sun Tzu!
Moscow, Botnet masters' meeting
The Chinese are getting smarter Andrei. Last month they bought access to .mil and .gov infected hosts only, and look at this Pentagon puppet show now
It's called "segmenting the attack population" Yuri. Perhaps we should print out new brochures..
www.stripgenerator.com



It's All a Matter of Perspective
Somewhere in Eastern Europe
Can you believe this Yuri? $450,000 per year and not a single donation in John Doe's entire lifetime?
What?! Someone's disrespecting Lenin's idea for equal distribution of income? "Proceed" with his bank accounts Boris.
At a bored plastic surgeon's mansion
Outrageous, but knowing it's teens without girlfriends behind this, I know my money are safe.
"Hackers have infected over 10,000 sites in Italy, causing financial.."
Yes honey, our, aaa, your money are safe.
In a "hacker recruitment" basement
If only he knew that half the world's intel agencies outsource to me...
It has come to our attention that you're quite talanted for a cybercriminal Andrei. Congrats, as of today you serve "the family" and will code malware to stay alive.
Yes, my Master!
LOL
www.stripgenerator.com

regarding possible involvement in related sensitive projects at dancho.danchev@hush.com or

just to say hi request **[4] Threat Data** access including a sample or a possible trial or make a

comment regarding my current and **[5] historical OSINT** research including possible references

to my 2010 disappearance including various cybercrime underground chatter referencing me

and my research including disappearance and possible kidnapping including possible GCHQ

Lovely Horse references and related resources and comments.

Sample Information Security and Information Warfare cartoon circa 2008:

Second Sample Information Security and Information Warfare cartoon circa 2008:

UPDATE: It appears that someone managed to somehow place a basketball ball on my head

chin and eye and therefore I'm currently experiencing a pressure on my eye and my face with

people attempting to communicate with me.

UPDATE: It appears that someone is attempting to communicate with me using pressure

pressed on my stomach.

UPDATE: It appears that someone is pressing a doll on a wall and is attempting to communicate with me including an increased pressure in my place.

UPDATE: It appears that different people are attempting to communicate with me behind a wall using a basketball ball interfering with the pressure in my place.

UPDATE: It appears that the robot has been persistently sprayed with homo-sexual spray including a possible female spray leading to a persistent harassment and torture currently affecting my life-being work-relationships and intellectual property.

UPDATE: It appears that someone managed to placed a box on the top of the robot for a period of several years successfully blinding me and restraining me from remote work activity.

In a related news story regarding my experience and expertise in the field it appears that

the GCHQ has been actively monitoring me on Twitter including active traffic monitoring in a

2012 Intelligence Community program labeled - **[6] Lovely Horse** that’s basically a Palantir im-

plementation of **[7] OSINT practices** regarding a certain Twitter account. The purpose? Active

traffic and **[8] content monitoring** for the purpose of robbing me out of sensitive research and

related research data which leads me to believe that I’ve been successfully contributing to a

massive treasure trove IP (Intellectual Property) theft and robbery courtesy of the GCHQ and

the NSA for a significant period of time.

Disruptive Individuals

While it’s an honor to receive a competing proposition it should be noted that the majority

of my research is public excluding several community-driven sensitive projects that I spend

my time working on.

It appears that the time has come for me to take my research to

a whole new level which led me to pursue my own career patch within the Intelligence

Community by successfully launching **[18] Disruptive Individuals** including the **[19] Obmonix -**

Cybercrime and Cyber Jihad Fighting Platform including the eventual launch of the invite-only

[20] Threat Data - The World’s Most Comprehensive Threat Database including a possible

[21] career opportunity with the industry-leading Webroot including a short-term venture with

[22] GroupSense including a possible **[23] SCMagazine 2011 nomination for my Twitter activity**

including the **[24] upcoming launch of Astalavista Security Group 2.0** - my primary working

location throughout the 90’s with a currently active crowdfunding campaign.

While I continue to be a firm believer that sharing and communicating actionable Threat

Intelligence to a variety of source is the appropriate way to proceed and process a variety

of cybercrime-related campaigns and malicious activity I believe that the time has come for

me to take my research to a whole new level prompting me to seek a new career opportunity

as the **[25] World’s leading cybercrime researcher security blogger and threat intelligence**

analyst.

The majority of sources referenced in the original research basically represent the majority of

[26] my RSS feeds circa 2006 and it’s becoming increasingly interesting perhaps even funny

to figure out that the majority of my **[27] OSINT techniques** including active WHOIS monitoring

and research are widely accepted and discussed within the Intelligence Community.

11

What prompted the GCHQ to issue an active traffic and Twitter account monitoring campaign?

Keep reading - back in the day throughout the period of 2008-2013 I used to actively monitor

and profile various high-profile nation-state malicious and fraudulent campaigns including the

[28] infamous Koobface botnet – listed to the **[29] original MP3 interview –** which I extensively

[30] profiled and managed to practically take down including the **[31] active exposing** of its

core **[32] botnet master** including the active exposure of client-side exploits being served

through the **[33] Koobface botnet** through what appears to be **[34] a**

partnership between the

Koobface botnet master and a well known cybercriminal - Exmanoize a well known author of

a well known Web malware exploitation kit including the receiving of malware-infected host

embedded messages in response to my " **[35] 10 things you didn’t know about the Koobface**

gang" including **[36] what appears to be** a **[37] direct redirection of Facebook** to my personal

blog including yet **[38] another message** left by the **[39] Koobface gang**, including a variety

of **[40] typosquatted C &C server** domains registered to my name **[41] including extensive**

[42] Russian Business Network coverage at the time.

UPDATE: It appears that someone placed a remote robot at local police department capable

of recording my life including my life-being leading to a ruined career work relationships and

intellectual property.

UPDATE: It appears that an unknown group of people is attempting to communicate with me

using a transmitter on my mouth using plastic paper in their mouth.

UPDATE: It appears that someone is permanently trying to hide my eyes using plastic

paper apparently using a transmitter that’s been apparently placed on my mouth. It also

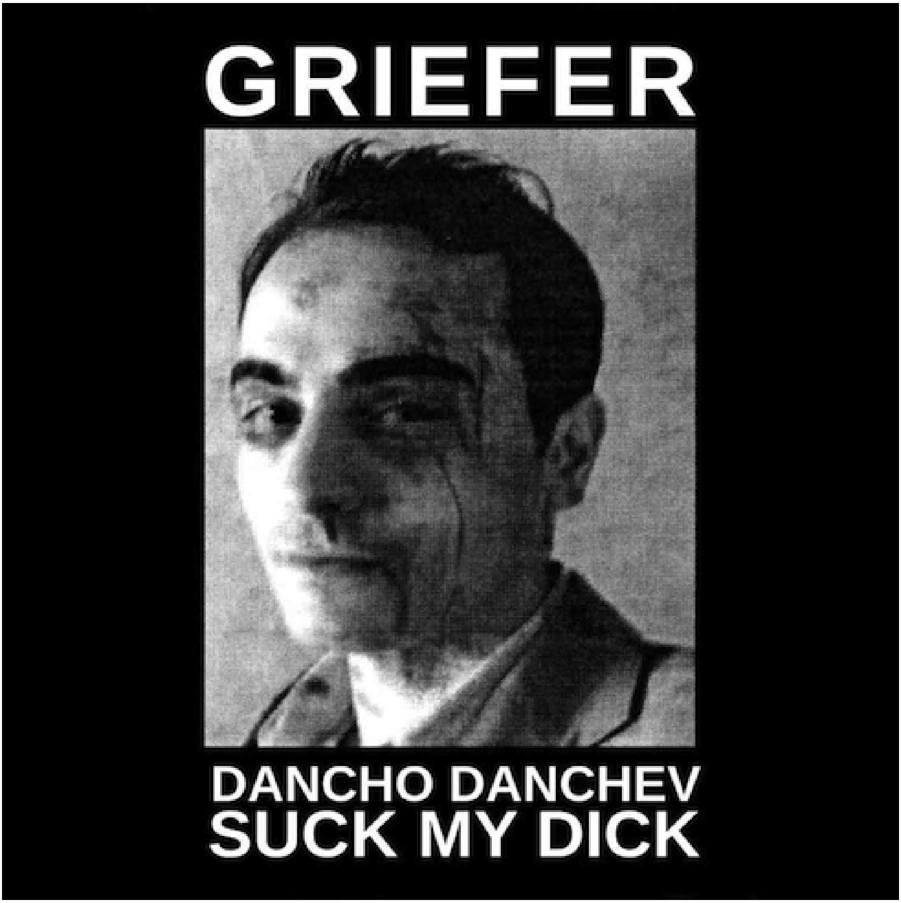
appears that the person behind the transperant is attempting to move closely thereby ruining

my equipment and life-being.

UPDATE: It appears that the transperant is operated by someone relying on lenses including

bottles to map and touch-point related activities of an individual in place following persistent

harassment and life-being manipulation.



In a related news article - " **[134] ZDNet Security Blogger Goes Missing in Bulgaria**" covering

my disappearance I came across to a juicy comment referencing the work of a well-known

artist which leads me to research a little bit further leading me to the following CD/Vinyl label -

"Blue Sabbath Black Cheer / Griefer – We Hate You / Dancho Danchev Suck My Dick" courtesy

of the the following individual.

Take into consideration the following brief post regarding the associated individual:

" *It's 2010 and I'm stumbling upon a defaced image of my head shot (circa 2006).*

I never actually bothered about what others say, even when they insist that I’m maliciously enjoying the fact that I profile, expose, and disrupt cybercrime campaigns when there’s no time for enjoyment, as the stakes are too high.

*The defaced headshot is part of the released back in 2010 album "We Hate You/Dancho Danchev S*ck my D*ck" by the Blue Sabbath Griefer group.*

NOISE!

NOISE
NOISER #1

So who’s behind this "black PR" campaign?

Who’s the mysterious Photoshop-er?

It’s a [135]Canadian music artist called [136]Ron Brogden, who spends his spare time coding for hire, when he’s not photoshoping my headshots.

Hatred-friendly domain name reconnaissance:

deterrent.net - 95.142.172.70 - Email: slave@codegrunt.com

Domain owner: Ron Brogden, Secondary emai: moron@industrial.org

Music Label Address: P.O. Box 8021; Victoria, BC, Canada; V8W 3R7

Home address: 647 Speed Avenue, Victoria, British Columbia, V8Z 1A5

Phone: +1.250-360-0372; +1.250-381-0088

Responding to the same IP are also the following domains operated by Ron:

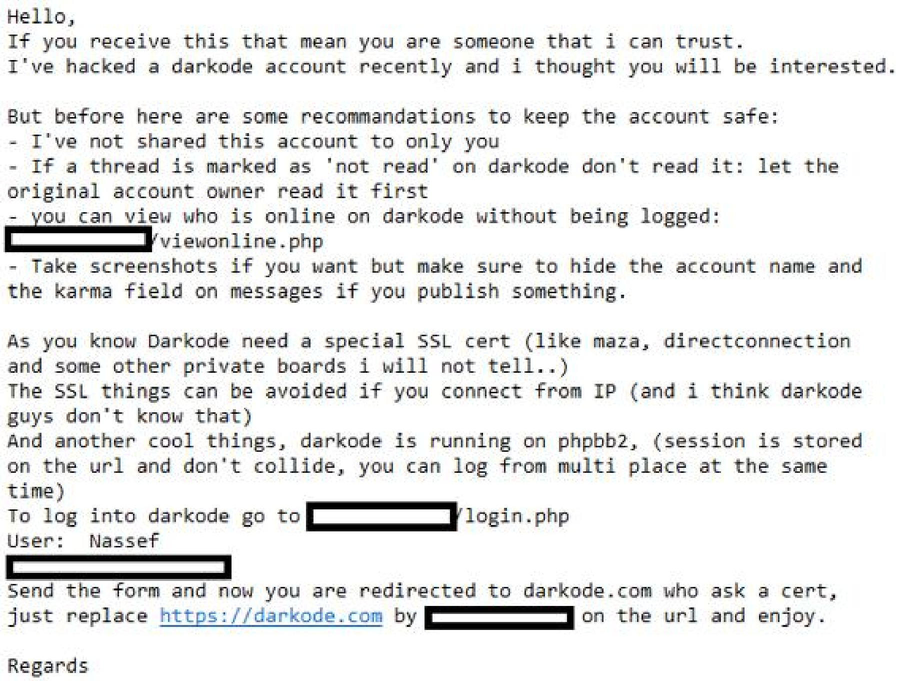
codegrunt.com

deterrent.net

industrial.org

nuckflix.com"

19



Hello,
If you receive this that mean you are someone that i can trust.
I've hacked a darkode account recently and i thought you will be interested.

But before here are some recommandations to keep the account safe:
- I've not shared this account to only you
- If a thread is marked as 'not read' on darkode don't read it: let the original account owner read it first
- you can view who is online on darkode without being logged: [redacted]/viewonline.php
- Take screenshots if you want but make sure to hide the account name and the karma field on messages if you publish something.

As you know Darkode need a special SSL cert (like maza, directconnection and some other private boards i will not tell..)
The SSL things can be avoided if you connect from IP (and i think darkode guys don't know that)
And another cool things, darkode is running on phpbb2, (session is stored on the url and don't collide, you can log from multi place at the same time)
To log into darkode go to [redacted]/login.php
User: Nassef
[redacted]
Send the form and now you are redirected to darkode.com who ask a cert, just replace https://darkode.com by [redacted] on the url and enjoy.

Regards

In terms of my 2010 disappearance I also recently came across to the following **[137] screen-**

shots courtesy of the cybercrime-friendly forum Darkode courtesy of an individual known as

Xylitol discussing my disappearance including a possible Hitman Request charging at $10,000.

Unfortunately, the screenshots were taken using the name of Nassef with whom Xylitol shared

his accounting details with me including the taking of the screenshots.

Dancho Danchev is still missing

darkode.com Forum Index » General

Author	Message
mafi	Dancho Danchev is still missing ...but is alive, apparently. source: http://www.zdnet.com/blog/security/we-need-help-with-the-strange-disappearance-of-dancho-danchev/7897
Fri Jan 14, 2011 7:57 pm	
	I feel bad for the dude, sounds like he bit off more than he could chew.
Fri Jan 14, 2011 8:40 pm	
	https://www.infosecisland.com/blogview/11047-Bulgarian-News-Reports-Dancho-Danchev-Institutionalized.html Rumor is that he might be in the crazy house....
Wed Jan 19, 2011 2:20 pm	
	http://www.lockergnome.com/theoracle/2011/01/13/dancho-danchevis-he-really-a-victim-of-foul-play/ http://translate.google.de/translate? FBI? Dancho missing? Shoenet? thing about it Fuck the System!!!
Wed Jan 19, 2011 3:49 pm	
mafi	rumours are that he got paranoid/schizophrenic and is now on a mental hospital what else could it be when u mix up a light equipment for a bugging device
Wed Jan 19, 2011 4:42 pm	
	Krebs next?
Wed Jan 19, 2011 10:10 pm	
	What's his nickname by the way? Update: Powered by Linux - SEO Company
Wed Jan 19, 2011 10:22 pm	
	someone should send him emails saying that the fbi is onto him, and will soon catch him. Make his schizophrenia even worst, and hopefully disappear again.
Wed Jan 19, 2011 11:08 pm

R.I.P Dancho Danchev?

so it's been over 2 months since anyone heard from him, i saw some tweets by Mikko Hypponen where he asked danchos buttbuddy Ryan Naraine if he heard from him, and the reply was:

"ryanaraine: @mikkohypponen we've been trying to reach him for several weeks. no answer anywhere. very strange and worrying."

so what you guys think have happend? my theory:

he pissed someone off with his blogposts, and made the revenue from someones rogue av schemes go down so some russian assassin came to him wherever he lives, ripped his heart out with a fucking hadouken punch and buried him somewhere in siberia

does anyone have some other theories?

i would never wish someone to be death and i hope he isnt tho, but he probably pissed of the wrong guys too much (koobface, money mule websites and so).

i wonder when roman from zeus/spyeyetracker will be "gone" tho...hes also costing the wrong guys alot of money.

white hat info

fellow members of dk i call upon thee to feed thy brother with useful information.

i need:
list of "white hat" type certificates, and their abbreviations (ex: cisco, CEH <<lol)

a list of "white hat" forums, like, virustotal, malware domain list, offensivecomputing etc.

and some "white hat" conventions

that is all.

Just give a big shoutout to Mikko Hyppunen & Dancho and everyone will think you are legit.

-

Hello

My name is ___________, I'm a whitehat

To start off I'll give a shoutout to Mikko Hyppunen & Dancho Danchev for keeping it real

I have cerificates in Botnet Takedown 101 & OllyDBG for Dummies, I'd love to discuss the evilness of blackhats with some decent whitehats and also receive samples of the latest threats, thanks, bye

UPDATE: It appears that my 2010's disappearance is slowly turning into a modest **[138] kidnapping attempt** on behalf of Bulgarian law enforcement in constitution with DANS (State Agency for National Security) who appear to have been operating a long-turn operation to ruin my reputation intellectual property and work relationships successfully holding me a hostage for a period of seven years following a long-run kidnapping and harassment attempts leading to a ruined career intellectual property violation and work relationships.

Operating a remotely-operated gas pomp with azbest targeted at my place Bulgarian

law enforcement in constitution with DANS (State Agency for National Security) appear to

have successfully tracked down and manipulated my life-being following a successful set

of long-run kidnapping and harassment attempts leading to a successfully ruined career

intellectual property violation and work relationships.

It appears that Bulgarian law enforcement in constitution with DANS (State Agency for

National Security) have placed remote stickers on my place and have managed to successfully

map my place leading to a successful illegal entry courtesy of an unknown person followed

by another unknown person supposedly a colleague followed by an illegal entry courtesy of

unknown police officers who took my ID an escorted me to a local institution without explaining

the reason for holding me hostage there.

It appears that the group is operating a transperant using feelings to map and touch

point related activities of the individuals in place following a successful kidnapping and

harassment attempt leading to illegal entry and possible kidnapping attempt. It appears that

Bulgarian law enforcement in constitution with DANS (State Agency for National Security) have managed to place a plastic sticker in my mouth leading to a successful monitoring and

tracking including the use of a transperant leading to a successful kidnapping and harassment

attempt leading to a ruined career intellectual property violation and work relationships.

UPDATE: Prior, to, my, stay, in, another, town, I, was, contacted, by, Riva Richmond,

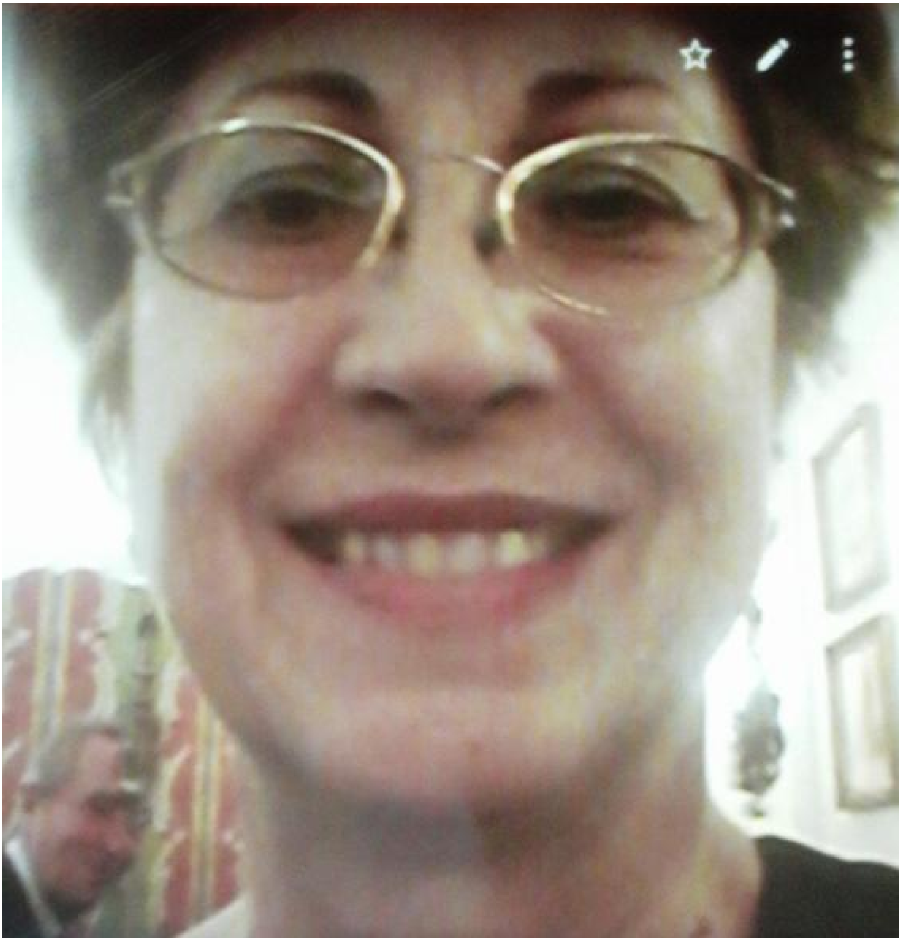
(**riva@rivarichmond.com**), and, set, up, a, meeting, to, discuss, a, potential, New York Times,

article.

UPDATE: Prior, to, my, stay, at, this, particular, apartment, I, contacted, Nart Villeneuve,

(**n.villeneuve@secdev.ca**), seeking, assistance, signaling, potential, trouble.

UPDATE: Prior, to, my, stay, at, a, local, institution (**dpblovech@abv.bg**), for, a, period, of, three, months, the, same, person, Kamen Kovachev (Kamen Tzura) (**tsyrov@abv.bg**),



was,

released,

by,

another,

person,

known,

as,

Nesho Sheygunov

(**https://www.facebook.com/nesho.sheyguno v**).

UPDATE: While, my, stay, at, a, local, institution (**dpblovech@abv.bg**), for, a, period, of, three,

months, another, person, that, I, know, Kamen Kovachev (Kamen Tzura) (**tsyrov@abv.bg**),

was, taken, to, the, room, where, I, was, confined, and, I, spent, a, night, in, the, corridor.

UPDATE: While, I, was, taken, to, a, local, institution (**dpblovech@abv.bg**), for, a, period,

of, three, months, I, had, my, phone, taken, and, I, was, confined.

UPDATE: While, I, was, taken, out, of, my, place, to, an, unknown, car, the, fuel, was,

charged, to, someone, that, I, know.

UPDATE: Prior, to, my, stay, at, a, local, institution (**dpblovech@abv.bg**), I, was, offered,

to, take, vitamins.

UPDATE: My, place, was, recently, visited, by, unknown, men, taking, me, to, local, police, department (**hxxp://troyan-police.com**; **police_troyan@abv.bg**), and, asking, me, to,

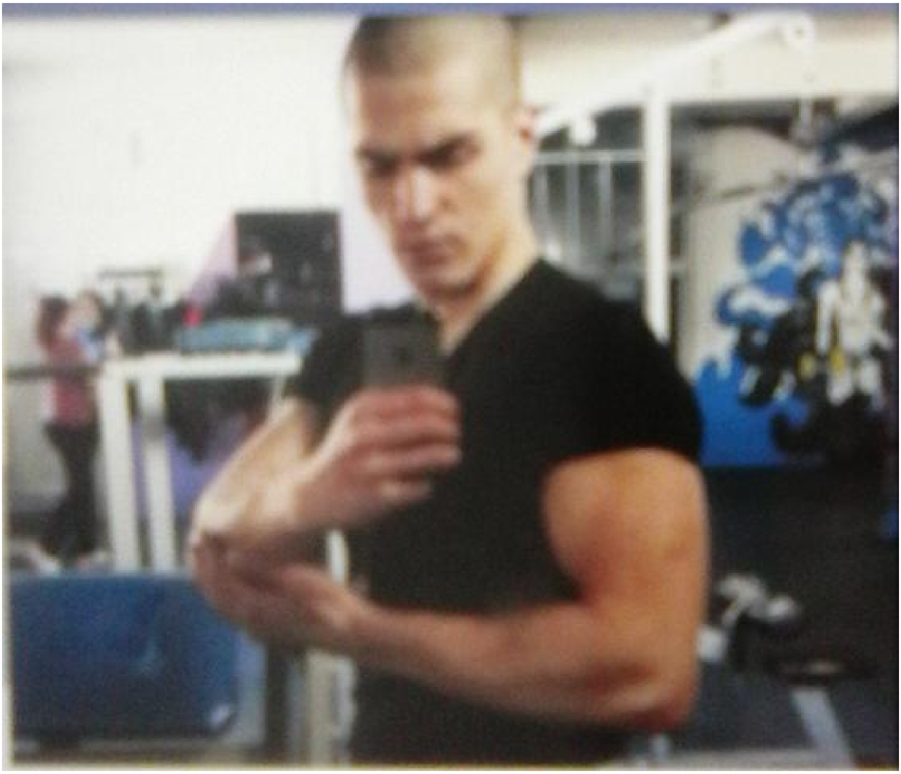
write, that, my, equipment, was, interfering, with, that, of, local, police, department.

UPDATE: It, appears, that, someone, has, taken, the, time, and, effort, to, take, a, t-shirt, of,

mine.

UPDATE: Prior, to, my, visit, at, a, local, hotel, (**hxxp://central-hotel.com/en**; **central@central-**

hotel.com), some, of, my, clothes, were, missing.



UPDATE:

It,

appears,

that,

my,

place,

was,

recently,

supposedly,

visited,

by,

Plamen,

Dakov

(**hxxp://universalstroi.com**),

Hristo,

Radionov

(**hxxp://universalstroi.com**; **hxxp://www.facebook.com/hristo.radionov**), and, Ivailo, Dochkov

(**hxxp://www.facebook.com/ivodivo**), who, left, money, for, me.

UPDATE: Prior, to, my, attendance, in, a, local, institution (**dpblovech@abv.bg**), Ivailo, Dochkov (**hxxp://www.facebook.com/ivodivo**), tried, to, meet, me.

UPDATE: Prior, to, my, attendance, at, this, particular, apartment, I, was, invited, by, Briana

Papa (**Briana@crenshawcomm.com**), to, visit, Prague, on, behalf, of, Avast! Software, where, I,

met, with, Vince Steckler (**steckler@avast.com**), and, Miloslav, Korenko **(korenko@avast.com**),

where, I, met, with, Lucian Constantin (**hxxp://twitter.com/lconstantin**).

Prior, to, my, attendance, at, this, apartment, I, was, also, invited, to, another, event, held, at,

INTERPOL, by, Steve Santorelli

(**steve.santorelli@gmail.com**), which, I, successfully, attended, and, presented, at, where, I,

also, met, with, Krassimir Tzvetanov (**krassi@krassi.biz**).

Something, else, worth, pointing, out, is, that, my, place, is, visited, by, an, unknown,

woman, known, as, Boriana Mihovska, an, unknown, man, known, as, Leonid, an, unknown, person, known, as, Tzvetan Georgiev (**hxxp://www.youtube.com/user/laron640;**

tzvetan.leonid@gmail.com);

(**hxxp://plus.google.com/107108766077365473231**), and, an,

unknown, person, known, as, Dobrin Danchev (**hxxp://www.facebook.com/dobrin.danchev**);

(**hxxp://www.sibir.bg/parachut**), and, another, unknown, person, known, as, Ina, Dancheva

(**http://otkrovenia.com/bg/profile/innadancheva**).

The, most, recent, visit, to, my, place, was, by, a, person, known, as, Vasil, Stanev, from DANS

(**dans@dans.bg**), who, was, supposedly, asking, me, to, take, a, job, and, consequently, asked,

me, to, attend, a, doctor, session.

Dear, blog, readers, I, feel, it's, about, time, I, post, an, honest, response, regarding, my,

[152]disappearance, in, [153]2010, with, the, [154]purpose, of, [155]information, my,

[156]readers, on, my, [157]current, situation, and, [158]to, continue, [159]posting, and,

contributing, valuable, threat, intelligence, to, the, security, community.

In, 2010, I, moved, to, an, apartment, located, in, another, town, and, apparently, my,

apartment, have, been, vandalized, including, persistent, harassment, by, my, neighbors,

including, a, possible, illegal, entry, courtesy, of, the, person, responsible, for, hiring, the,

apartment (Kalin Petrov; **kalin _petrov@hotmail.com**).

After, a, persistent, chase, down, and, harassment, courtesy, of, the, person, responsible, for,

hiring, the, apartment, I, received, a, notice, to, leave, and, had, my, apartment, visited, by,

the, person, responsible, for, hiring, including, another, man, including, another, man, that,

was, supposedly, supposed, to, take, care, of, my, belongings.

Prior,

to,

my,

accommodation,

I,

was,

contacted,

by,

Pauline,

Roberts

(**pauline.roberts@ic.fbi.gov**),

who,

recommended,

me,

to,

Yavor,

Kolev

(javor.kolev@gmail.com), and, Albena, Spasova (**albaadvisors@gmail.com**), from, Bulgarian,

local, authorities, followed, by, a, series, of, communication.

Prior, to, returning, to, my, place, in, 2011, my, house, was, vandalized, by, three, police, officers (**hxxp://troyan-police.com**; **police _troyan@abv.bg**), from, the, local, police, department,

who, entered, my, house, in, particular, my, bedroom, and, unpolitely, asked, my, to, dress,

while, showing, me, a, copy, of, my, personal, ID, that, I, haven't, presented, and, taking, me,

to, an, unknown, car, without, explaining, the, reason, for, taking, me.

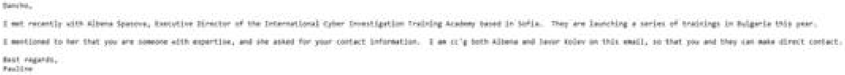
Hi. I'm currently serving as the FBI's Deputy Attache in Sofia. We are in the process of providing a malware analytical tool to Bulgarian computer forensic examiners, providing a speaker at an upcoming security conference in Sofia, and other projects. We work closely with Javor Kolev at the Interior Ministry, who you may already know. With an eye toward exploring possibilities for establishing expert links for addressing cybercrime/security issues in the Balkans, I'm writing to ask whether you are you are based in Bulgaria or you are elsewhere in the world?

Best regards,
Pauline Roberts
Direct: +359 2 937 5241
Mobile: +359 885 161 387



Dancho,

I met recently with Albena Spasova, Executive Director of the International Cyber Investigation Training Academy based in Sofia. They are launching a series of trainings in Bulgaria this year.

I mentioned to her that you are someone with expertise, and she asked for your contact information. I am cc'g both Albena and Javor Kolev on this email, so that you and they can make direct contact.

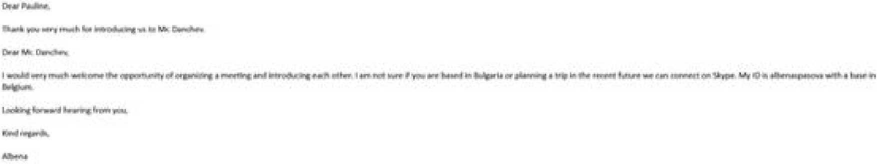
Best regards,
Pauline

Sample Email communication between me, Pauline Roberts, Javor Kolev and Albena Spasova

circa 2010:

Original message sent by Pauline Roberts - 2010

Second email received from Pauline Roberts - 2010



Dear Pauline,

Thank you very much for introducing us to Mr. Danchev.

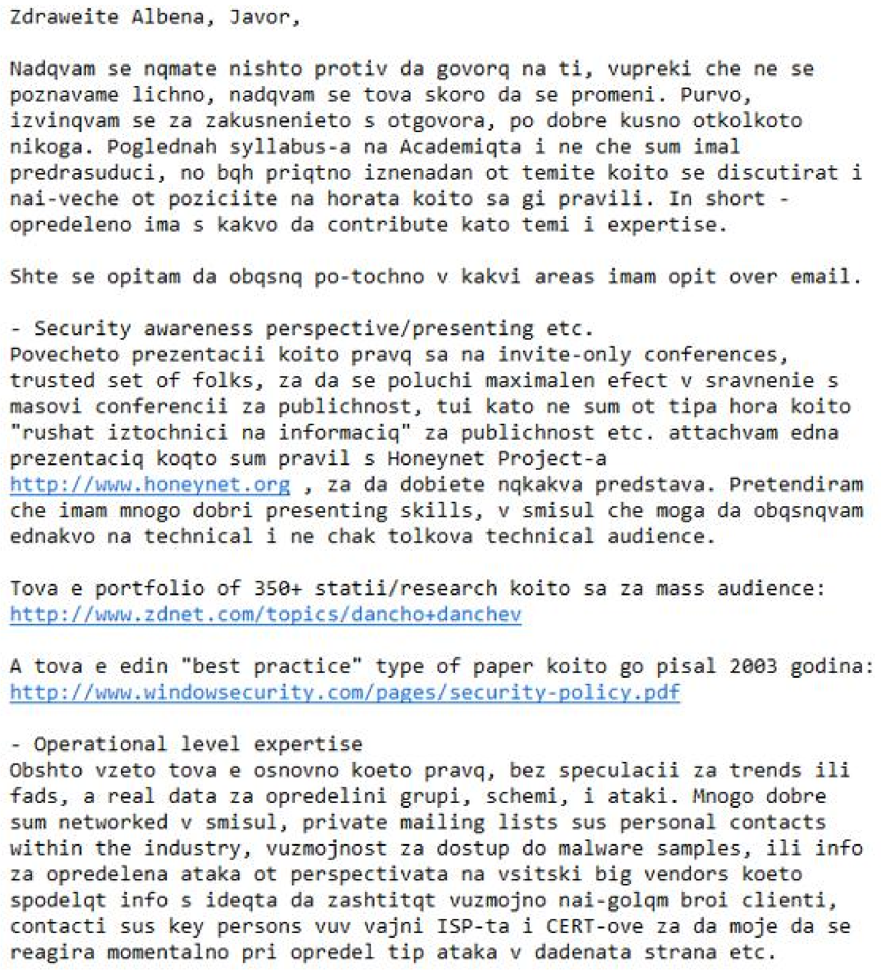
Dear Mr. Danchev,

I would very much welcome the opportunity of organizing a meeting and introducing each other. I am not sure if you are based in Bulgaria or planning a trip in the recent future we can connect on Skype. My ID is albenaspasova with a base in Belgium.

Looking forward hearing from you,

Kind regards,

Albena



Zdraweite Albena, Javor,

Nadqvam se nqmate nishto protiv da govorq na ti, vupreki che ne se poznavame lichno, nadqvam se tova skoro da se promeni. Purvo, izvinqvam se za zakusnenieto s otgovora, po dobre kusno otkolkoto nikoga. Poglednah syllabus-a na Academiqta i ne che sum imal predrasuduci, no bqh priqtno iznenadan ot temite koito se discutirat i nai-veche ot poziciite na horata koito sa gi pravili. In short - opredeleno ima s kakvo da contribute kato temi i expertise.

Shte se opitam da obqsnq po-tochno v kakvi areas imam opit over email.

- Security awareness perspective/presenting etc.

Povecheto prezentacii koito pravq sa na invite-only conferences, trusted set of folks, za da se poluchi maximalen efect v sravnenie s masovi conferencii za publichnost, tui kato ne sum ot tipa hora koito "rushat iztochnici na informaciq" za publichnost etc. attachvam edna prezentaciq koqto sum pravil s Honeynet Project-a http://www.honeynet.org , za da dobiete nqkakva predstava. Pretendiram che imam mnogo dobri presenting skills, v smisul che moga da obqsnqvam ednakvo na technical i ne chak tolkova technical audience.

Tova e portfolio of 350+ statii/research koito sa za mass audience: http://www.zdnet.com/topics/dancho+danchev

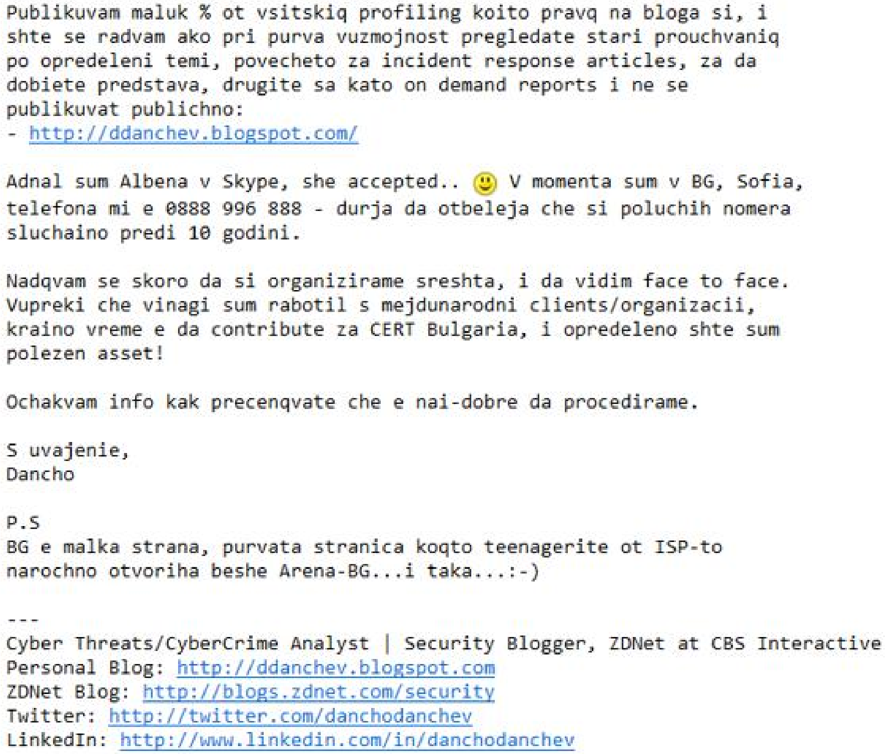
A tova e edin "best practice" type of paper koito go pisal 2003 godina: http://www.windowsecurity.com/pages/security-policy.pdf

- Operational level expertise

Obshto vzeto tova e osnovno koeto pravq, bez speculacii za trends ili fads, a real data za opredelini grupi, schemi, i ataki. Mnogo dobre sum networked v smisul, private mailing lists sus personal contacts within the industry, vuzmojnost za dostup do malware samples, ili info za opredelena ataka ot perspectivata na vsitski big vendors koeto spodelqt info s ideqta da zashtitqt vuzmojno nai-golqm broi clienti, contacti sus key persons vuv vajni ISP-ta i CERT-ove za da moje da se reagira momentalno pri opredel tip ataka v dadenata strana etc.

Original message received by Albena Spasova - 2010

Original response issued to Pauline Roberts, Javor Kolev, and Albena Spasova - 2010



Publikuvam maluk % ot vsitskiq profiling koito pravq na bloga si, i shte se radvam ako pri purva vuzmojnost pregledate stari prouchvaniq po opredeleni temi, povecheto za incident response articles, za da dobiete predstava, drugite sa kato on demand reports i ne se publikuvat publichno:
- http://ddanchev.blogspot.com/

Adnal sum Albena v Skype, she accepted.. 🙂 V momenta sum v BG, Sofia, telefona mi e 0888 996 888 - durja da otbeleja che si poluchih nomera sluchaino predi 10 godini.

Nadqvam se skoro da si organizirame sreshta, i da vidim face to face. Vupreki che vinagi sum rabotil s mejdunarodni clients/organizacii, kraino vreme e da contribute za CERT Bulgaria, i opredeleno shte sum polezen asset!

Ochakvam info kak precenqvate che e nai-dobre da procedirame.

S uvajenie,
Dancho

P.S
BG e malka strana, purvata stranica koqto teenagerite ot ISP-to narochno otvoriha beshe Arena-BG...i taka...:-)

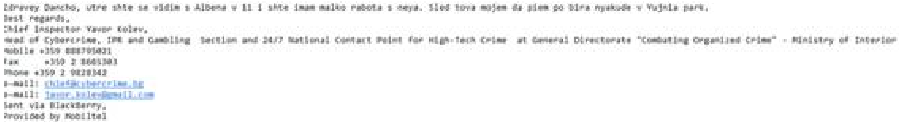
Zdrasti Yavore,

Attachvam ti PPT-to koeto napravih naskoro na mqsto koeto sus sigurno znaesh i si hodil tam poveche puti ot men. Mladi hora => borqt se i si otstoqvat poziicite 🙂 Shte se radvam da komentirash, ideqta e da vidish nivoto na znaniqta i research-a koito pravq.

Vupreki che ytre e weekend, se interesuvah imash li jelanie/vuzmojnost da se vidim da piem po neshto, neoficialno i kakto se kazva vednuj zavinagi da se zapoznaem, i eventualno namerim nachin da rabotim zaedno? Ako ne, on Monday mislq che stava sushto.

Let me know.

Best



Zdravey Dancho, utre shte se vidim s Albena v 11 i shte imam malko rabota s neya. Sled tova mojem da piem po bira nyakude v Yujnia park.

Zdrasti Yavore,

Jalko che ne uspehme da se vidim dnes, tui kato vupreki che mi se iskashe da govorim za dosta po profesionalni temi, kato che li az ti uvajavam rabotata poveche otkolkoto ti moqta, i nqma kak da ti namekna za nqkoi points koito me bezpokoqt i vuprosi koito iskah da te pitam. Az go davam profesionalno i straight to the point, nadqvam se i ti i vednuj zavinagi da si produljim po profesionalniq si put i eventualno nqkoi den, ako se naloji da se poluchi neshto productivno ot facta che se imame kato kontakti.

Vuprosi:
- Koga shte moga da si vzema dush na spokoistvie, i kak shte stane tova? 🙂
- Centralna Cooperativna Banka tvurdi (do rabotodatelq mi) che ne "moje da svurje imeto mi sus smetkata" za poluchavane na plashtane ot rabotodatelq mi CBS Interactive, chast ot CBS Corporation, za PRUV put za poslednite 2 godini i polovina. Shte probvam sus trite si imena - DANCHO [redacted] DANCHEV, shte se poluchi li tozi put?

Points:
- Az neznam dali vuobshte poglejdash research-a koito ti prashtam (2 presentations so far, sus permission), no sled tezi "projectori" imam problemi sus sigurnostta si, v smisul takuv poslednoto neshto ot koeto imam nujda e NEDOVERIE za socialno-orientiranata mi rabota na mejdunarodno nivo, koqto nqma nishto obshto sus neshtata koito se sluchvat v rodinata mi - BULGARIA, a ako eventualno nqkoga ima TI si the point of contact for anything BG related!

Priqten weekend, i shte se radvam na otgovorite ti, ili v nai-dobriq sluchai nqkakvo razvitie v pravilnata (pone spored men) posoka.

S uvajenie,
--

A, few, hours, later, I, find, myself, located, in, an, institution (**dpblovech@abv.bg**), for, a,

period, of, three, months, without, anyone, explaining, the, reason, for, holding, me, there.

Upon, entering, I, had, my, phone, taken, without, having, received, any, sort, of, explanation, for, taking, me, and, holding, me, there.

UPDATE: My most recent visit to local police department was to announce a possible food-poisoning and I was told not to live in my place.

Given, this, circumstances, I, feel, that, it, has, become, highly, unproductive, to, continue, my, work, and, therefore, I'm, currently, seeking, a, permanent, relocation, including, a, possible, full, time, career, opportunity, in, the, field, of, cybercrime, research, security, blogger, or, threat, intelligence, analyst.

In case you're aware of someone looking to hire full-time threat intelligence analyst cybercrime researcher or a security blogger feel free to approach me at dancho.danchev@hush.com

Unit-123

THE WORLD'S LEADING CYBER THREAT INTELLIGENCE PORTAL

Oops, White House National Cyberspace Strategy Acknowledges Information Warfare Operations

UAE – Where Money Pays – Do You Want to be a Cyber Warrior?

France to Wage Offensive Cyber Warfare – Brace Yourselves!

Introducing Unit-123.org - Cyber Threat Intelligence Portal (2019-04-12 11:41)

Dear blog readers, I wanted to take the time and effort and introduce you to my latest project

called [1]Unit-123.org where you can find quality research articles in a variety of topics that I

will be publishing on a daily basis with the idea to bring back the spirit of my editorial years

and to continue spreading quality data information and knowledge to a loyal base of users

and readers.

Feel free to reach me at dancho.danchev@hush.com

Stay tuned!

Flashpoint Intel Official Web Site Serving Malware - An Analysis (2019-04-21 22:32)

UPDATE: Flashpoint Intel issued a [1]**response** to my research.

UPDATE: [2]**SCMagazine** picked up the story.

UPDATE: [3] Anti-Malware.name picked up the story.

UPDATE: [4]**EnterpriseTimes** picked up the story

UPDATE: [5] Rambler News picked up the story.

It appears that [6]**Flashpoint's official Web site** is currently embedded with malware-serving

malicious script potentially exposing its visitors to a multi-tude of malicious software.

(2019-05-03 18:43)

Exposing Yet Another Currently Active Fraudulent and Malicious Pro-Hamas Online

Infrastructure (2019-05-04 09:45)

Love them or hate them - the ubiquitous beautiful girl utilizing fake bogus and rogue Facebook

accounts scam campaign courtesy of Hamas targeting Israeli soldiers has to come to an end.

In this post I'll provide actionable intelligence on a currently active Pro-Hamas malicious

and fraudulent infrastructure and will discuss in-depth the tactics techniques and procedures

of the cybercriminals behind it and will offer in-depth perspective on a currently active

Pro-Hamas hosting provider - " *[1]Nepras for Media & IT*" which is basically a legitimate

front-end company currently involved in a variety of Pro-Hamas malicious and fraudulent

malware-serving and propaganda spreading online infrastructure provider directly related to

yet another Pro-Hamas franchise - " *Modern Tech Corp*".

Sample Facebook Profile Names involved in the campaign:

Elianna Amer

Aitai Yosef

Karen Cohen

Amit Cohen

Loren Ailan

Verena Sonner

Lina Kramer

Sample profile photos of Pro-Hamas fake and rogue Facebook accounts:

60

*הדמויות הן זהויות שנגנבו מאנשים אמיתיים

61

*הדמויות הן זהויות שנגנבו מאנשים [illegible]

*הדמויות להן זהויות שנגנבו מאנשים אמיתיים

יהדמויות הן זהויות שנגנבו מאנשים אמיתיים

*הדמויות הן זהויות שנגנבו מאנשים אמיתיים

*התמונות הינן זהויות שנגנבו מאנשים אמיתיים

OH YOU'RE

Historical OSINT - Profiling the Loads.cc Enterprise (2019-05-04 12:27)

Remember **[1] loads.cc**? In this post I'll provide actionable intelligence on the popular DDoS

for hire service circa 2008 and offer in-depth perspective on the tactics utilized by the gang

behind the service for the purpose of earning fraudulent revenue in the process of monetizing

access to malware-infected hosts.

Sample malicious and fraudulent infrastructure known to have participated in the cam-

paign:

hxxp://loads.cc - hxxp://ns1.udnska.cn (72.21.52.99), interestingly, hxxp://sateliting.cn is the

C &C for hxxp://loads.cc service.

Related malicious and fraudulent URLs known to have participated in the campaign:

Historical OSINT - Massive Scareware Serving Campaign Spotted in the Wild

(2019-05-04 12:41)

With scareware continuing to proliferate I've recently intercepted a currently active malicious and fraudulent blackhat SEO campaign successfully enticing thousands of users into interacting with the rogue and malicious software with the scareware behind the campaign successfully modifying the HOSTS on the affected host potentially exposing the user to a variety of fake search engines type of rogue and fraudulent and malicious activity.

In this post I'll provide actionable intelligence on the infrastructure behind the campaign.

Sample malicious URL known to have participated in the campaign:

hxxp://guardsys-zone.com/?p=WKmimHVmaWyHjsbIo22EeXZe0KCf-

ZlbVoKDb2YmHWJjOxaCbk

X1

%2Bal6orKWekJXIZWhimmVummWIo6THodjXoGJdpq-

mikpVuZ21uaHFtb1 %2FEkKE %3D

Sample malicious MD5 known to have participated in the campaign:

MD5: 665480a64d4f72a33120251c968e9c28

Once executed the sample modifies the HOSTS and redirects them to the following domains:

hxxp://google-reseach.com/gfeed/click.php?q= &p=1 - 66.36.243.201

hxxp://google-reseach.com/search.php? &aff=32210 &saff=0 &q=

Related malicious rogue and fraudulent URL known to have participated in the campaign:

hxxp://88.85.73.139/landing/

Sample rogue and fraudulent payment processed used in the campaign:

hxxp://safetyself.com/safereports/ - 88.85.73.139

Astalavista Security Group 2.0 - The Underground - Official Launch Announcement

(2019-05-05 03:21)

Dear blog readers, I wanted to let you know that I’ve recently launched a currently **[1] active Indiegogo crowd-funding campaign** regarding my favorite working place throughout the 90’s - Astalavista Security Group and I wanted to find out whether you might be interested in spreading the word regarding the campaign including a possible donation.

Consider going through the following already published Updates and making a donation:

01. [2] New Update - Official Campaign Announcement

02. [3] New Update - Official Astalavista 2.0 - Press Release Launch

03. [4] New Update - Official Astalavista 2.0 - Statement of Work

04. [5] New Update - Official Astalavista 2.0 - The Big Idea

05. [6] New Update - Official Astalavista 2.0 - The Fanciful Story

Feel free to reach me at dancho.danchev@hush.com

Stay tuned!

Historical OSINT - Yet Another Massive Scareware Serving Campaign Courtesy of the Koobface Gang (2019-05-05 06:47)

It’s 2010 and I’ve recently intercepted a currently circulating malicious and fraudulent scareware-serving campaign courtesy of the Koobface Gang this time successfully typosquatting my name within its command and control infrastructure.

In this post I’ll provide actionable intelligence behind the campaign and will discuss in-

depth the infrastructure behind it.

Sample malicious and fraudulent domains known to have participated in the campaign:

hxxp://qjcleaner.eu/hitin.php?affid=02979

Sample malicious MD5 known to have participated in the campaign:

MD5: 8df3e9c50bb4756f4434a9b7d6c23c8c

Once executed a sample malware phones back to:

hxxp://212.117.160.18/install.php?id=02979

which is basical ly our dear friends at AS44042 ROOT-AS root eSolutions

Parked at the same IP where **[1] Crusade Affiliates** continue serving a diverse set of fake

security software are also **[2] more scareware domains**.

It’s also worth pointing out that the Koobface gang has recently started typosquatting various

domains using my name. Koobface gang is **[3] typosquatting my name for registering domains**

(**[4] for instance** Rancho Ranchev; Pancho Panchev etc.) including hxxp://mayernews.com -

which is registered to Danchev Danch (1andruh.a1@gmail.com).

1. https://ddanchev.blogspot.com/2009/09/koobface-botnets-scareware-business.html

2. https://ddanchev.blogspot.com/2010/05/koobface-gang-responds-to-10-things-you.html

3. https://ddanchev.blogspot.com/2009/08/movement-on-koobface-front-part-two.html

4. https://ddanchev.blogspot.com/2009/11/koobface-botnets-scareware-business.html

Historical OSINT - Yet Another Massive Scareware-Serving Campaign Courtesy of the

Koobface Gang (2019-05-05 07:19)

It’s 2010 and I’ve recently came across to yet another currently active scareware-serving cam-

paign courtesy of the Koobface gang this time successfully introducing a CAPTCHA-breaking

module potentially improving the propagation and distribution scale within major social

networks.

In this post I’ll discuss the campaign and provide actionable intelligence on the infras-

tructure behind it.

Related malicious domains known to have participated in the campaign:

hxxp://goscandir.com/?uid=13301 - 91.212.107.103 - hosting courtesy of **[1] AS29550** -

EUROCONNEX-AS Blueconnex Networks Ltd Formally Euroconnex Networks

hxxp://ebeoxuw.cn/?uid=13301

hxxp://ebiezoj.cn/22/?uid=13301

hxxp://goscanhand.com/?uid=13301

hxxp://byxzeq.cn/22/?uid=13301

Sample malicious MD5 known to have participated in the campaign:

MD5: 16575a1d40f745c2e39348c1727b8552

Once executed a sample malware phones back to:

hxxp://in5it.com/download/Ipack.jpg - the actual executable

Related malicious MD5 known to have participated in the campaign:

MD5: 1d5e3d78dd7efd8878075e5dbaa5c4fd

Related malicious MD5 known to have participated in the campaign:

MD5: 6262c0cb1459adc8f278136f3cff2777

It's worth pointing out that prior to analyzing the campaign it appears that the Koobface

gang has recently introduced a CAPTCHA-breaking module which basically relies on the active

outsourcing of the CAPTCHA-breaking process potentially improving the Koobface spreading

and propagation effectiveness.

Sample malicious URL known to have participated in the campaign:

http://peacockalleyantiques.com/.sys/?getexe=v2googlecheck.exe

Sample malicious MD5 known to have participated in the campaign:

MD5: cf9729bf3969df702767f3b9a131ec2c

Sample malicious URL known to have participated in the campaign:

http://peacockalleyantiques.com/.sys/?getexe=v2captcha.exe

Sample malicious MD5 known to have participated in the campaign:

MD5: f2d0dbf1b11c5c2ff7e5f4c655d5e43e

Once executed a sample phones back to the following C &C server IPs:

hxxp://capthcabreak.com/captcha/?a=get &i=0 &v=14 - 67.212.69.230

hxxp://captchastop.com/captcha/?a=get &i=1 &v=14 - 67.212.69.230

Offensive Warfare 2.0 - The Future of Cyber Warfare - Hacking

and Cyber Security

Community - Public Registration Now Open! (2019-05-15 00:33)

Dear blog readers,

I wanted to let you know of my newly launched hacking and security community - **[1] Offensive Warfare 2.0 - The Future of Cyber Warfare - Hacking and Cyber Security Community -**

with public registration now open.

How you can help?

- Register today!

- Share this post with friends and colleagues.

- Approach me at dancho.danchev@hush.com with your comments feedback and general

suggestions

Stay tuned!

1. https://offensive-warfare.com/

Are You On Silent Circle? (2019-05-23 06:43)

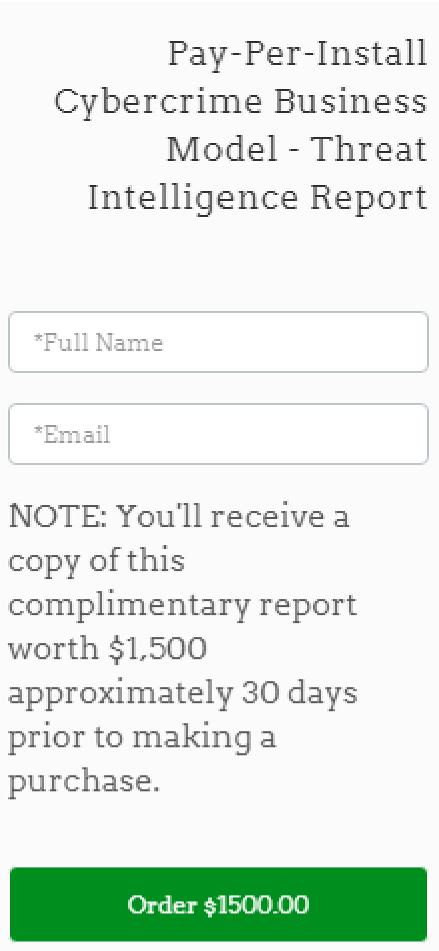
Dear blog readers,

I wanted to find out whether any of my blog readers might be using **[1] Silent Circle -**

and whether you might be interested in approaching me with your Silent Circle ID to get the

conversation going?

Feel free to approach me at dancho.danchev@hush.com



Pay-Per-Install Cybercrime Business Model - Threat Intelligence Report

NOTE: You'll receive a copy of this complimentary report worth $1,500 approximately 30 days prior to making a purchase.

Stay tuned!

1. https://www.silentcircle.com/

Proprietary Threat Intelligence Reports Available On Demand - Request a Copy Today!

(2019-05-28 10:46)

Dear blog readers - I wanted to let everyone know of two – currently in the works – proprietary

Threat Intelligence type of reports - that you and your organization can easily acquire on

demand. The first report details in-depth including tactics techniques and procedures including hundreds of IOCs (Indicators of Compromise) in terms of the Pay-Per-Install Business Model

circa 2008 - worth $1,500 and the second report which is also available on demand details the

inner workings of the CAPTCHA-Solving Underground Market Business Model - which is also

worth $1,500.

Similar my most recently – now publicly available – report on " **[1] Assessing The Computer**

Network Operation (CNO) Capabilities of the Islamic Republic of Iran - Report" capabilities

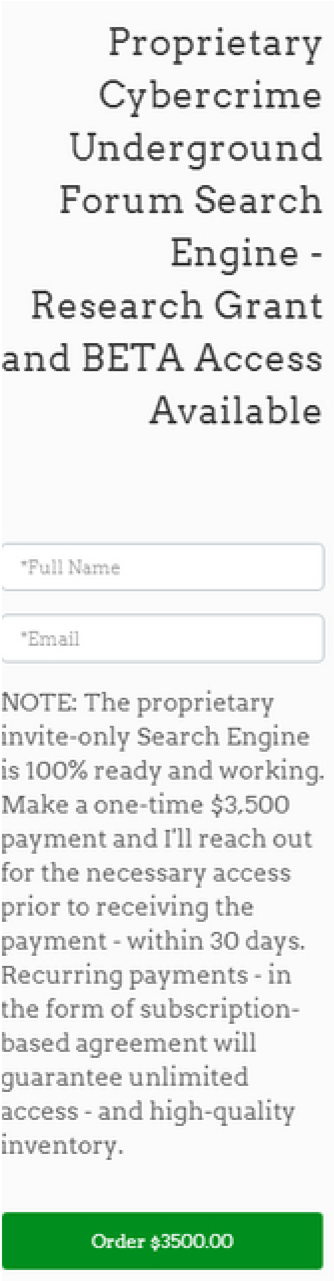
including a complimentary social network graph - the proprietary Threat Intelligence reports

can be requested online - and the user including the organization will receive a complimentary

copy of the report - including a possible attribution vector - within 30 days prior to making a

purchase.

How you can order a copy of the report?



Proprietary Cybercrime Underground Forum Search Engine - Research Grant and BETA Access Available

NOTE: The proprietary invite-only Search Engine is 100% ready and working. Make a one-time $3,500 payment and I'll reach out for the necessary access prior to receiving the payment - within 30 days. Recurring payments - in the form of subscription-based agreement will guarantee unlimited access - and high-quality inventory.

Feel free to approach me at dancho.danchev@hush.com to inquire about making a purchase.

Stay tuned!

1. https://ddanchev.blogspot.com/2015/07/assessing-computer-network-operation_29.html

Proprietary Cybercrime and Dark Web Forum Search Engine - BETA Access Available!

(2019-05-28 10:48)

Dear blog readers - I wanted to let everyone know of a currently active BETA project - namely -

the general invite-only proprietary access to a Cybercrime and Dark Web Underground Forum

Search Engine - exclusively targeting Security Vendors the U.S Intelligence Community and

85

Law Enforcement including independent-vetted invite-only subscription-based access to the

World’s largest and near-real-time repository of Cybercrime Research Data - worth $3,500

in the form of one-time payment - for the purpose of fueling growth into the project - and

to request the necessary access - including possible subscription-based agreement - further

fueling growth into the project and the quality of the inventory of data.

How to request access?

Feel free to approach me at dancho.danchev@hush.com with your inquiry in terms of this project.

Stay tuned!

Dancho Danchev's Blog - Public Comments Now Open! (2019-05-28 22:38)

Dear blog readers,

Ever since 2005 where I originally launched this blog - I decided to turn off public comments so that I can present a decent portion of my Information Security knowledge to a diverse set of audiences. Back in the glorious Web 2.0 years when I was busy doing business development and PR outreach for a variety of Security Projects I've recently decided that the time has come to open public comments on one of the Security Industry's most popular personal blogs on Information Security Cybercrime Research and Threat Intelligence with the idea to reach out to everyone reading this blog potentially building a high-quality comment and research feedback network of Security Industry members U.S Intelligence Community members and the general public.

Looking forward to receiving your comments - and as always feel free to go through the archives to catch up with what I've been up to.

Stay tuned!

WebsiteVoice

Dancho Danchev’s Blog - Public Search Now Open! (2019-05-28 22:39)

Dancho Danchev’s Blog - Audio Version Available - Listen to Every Post!

(2019-05-30 06:15)

Dear blog readers,

I wanted to let everyone know that I’ve recently introduced an audio-listening functionality to every blog post basically allowing you to listen to every blog post on this blog. What do you think?

Basically it allows you to easily plug and play your head-set and listen on current historical and upcoming posts. Stay tuned for an updated set of features to be implemented anytime soon.

Consider going through the following high-profile Security Interviews which I managed to produce throughout 2003-2006 while working for **[1] Astalavista Security Group**.

- **[2] Security Interviews 2004/2005 - Part 1**

- **[3] Security Interviews 2004/2005 - Part 2**

- **[4] Security Interviews 2004/2005 - Part 3**

including the following commentary and Open Letter to the U.S Intelligence Community:

- **[5] The Threat Intelligence Market Segment - A Complete Mockery and IP Theft Compromise - An Open Letter to the U.S Intelligence Community**

Enjoy and stay tuned!

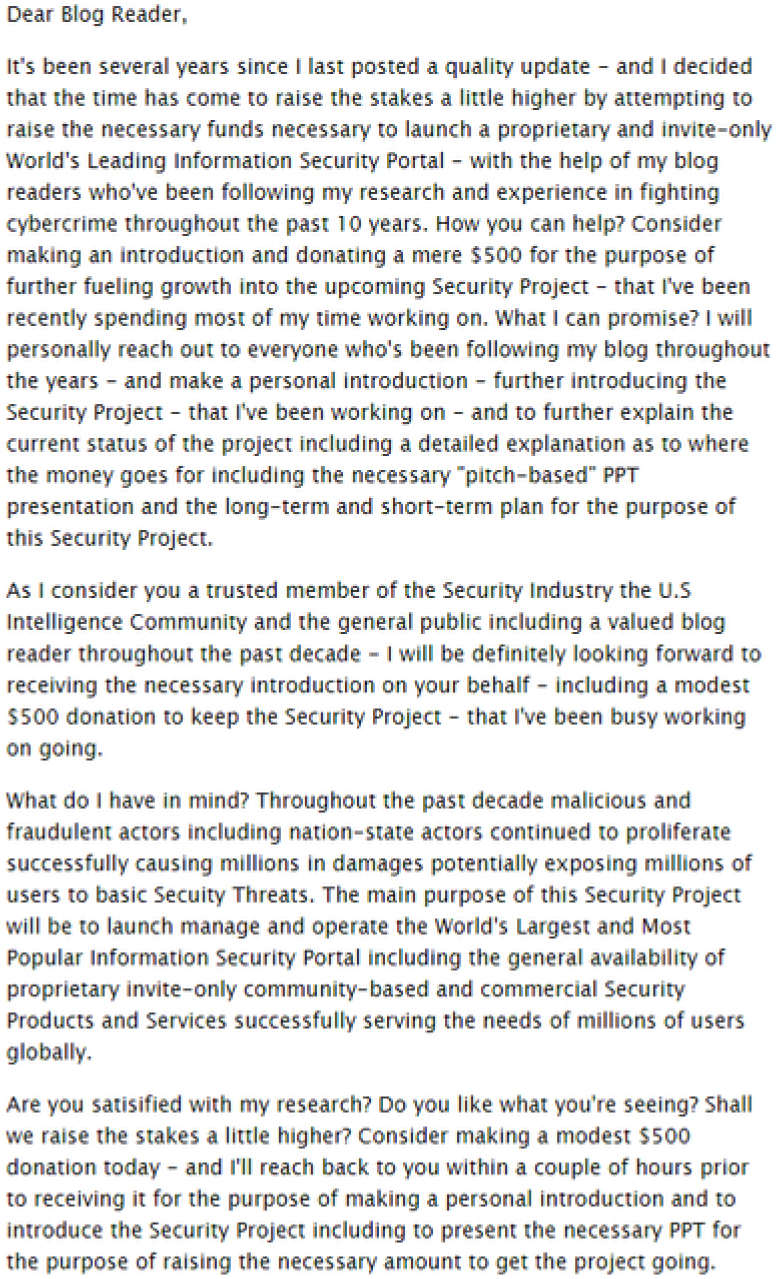
2. https://ddanchev.blogspot.com/2006/01/security-interviews-20042005-part-1.html

3. https://ddanchev.blogspot.com/2006/01/security-interviews-20042005-part-2.html

4. https://ddanchev.blogspot.com/2006/01/security-interviews-20042005-part-3.html

5. https://ddanchev.blogspot.com/2019/01/the-threat-intelligence-market-segment.html



Dear Blog Reader,

It's been several years since I last posted a quality update - and I decided that the time has come to raise the stakes a little higher by attempting to raise the necessary funds necessary to launch a proprietary and invite-only World's Leading Information Security Portal - with the help of my blog readers who've been following my research and experience in fighting cybercrime throughout the past 10 years. How you can help? Consider making an introduction and donating a mere $500 for the purpose of further fueling growth into the upcoming Security Project - that I've been recently spending most of my time working on. What I can promise? I will personally reach out to everyone who's been following my blog throughout the years - and make a personal introduction - further introducing the Security Project - that I've been working on - and to further explain the current status of the project including a detailed explanation as to where the money goes for including the necessary "pitch-based" PPT presentation and the long-term and short-term plan for the purpose of this Security Project.

As I consider you a trusted member of the Security Industry the U.S Intelligence Community and the general public including a valued blog reader throughout the past decade - I will be definitely looking forward to receiving the necessary introduction on your behalf - including a modest $500 donation to keep the Security Project - that I've been busy working on going.

What do I have in mind? Throughout the past decade malicious and fraudulent actors including nation-state actors continued to proliferate successfully causing millions in damages potentially exposing millions of users to basic Secuity Threats. The main purpose of this Security Project will be to launch manage and operate the World's Largest and Most Popular Information Security Portal including the general availability of proprietary invite-only community-based and commercial Security Products and Services successfully serving the needs of millions of users globally.

Are you satisified with my research? Do you like what you're seeing? Shall we raise the stakes a little higher? Consider making a modest $500 donation today - and I'll reach back to you within a couple of hours prior to receiving it for the purpose of making a personal introduction and to introduce the Security Project including to present the necessary PPT for the purpose of raising the necessary amount to get the project going.

Upcoming Security Project - Accepting Donations and Feedback! (2019-05-30 07:11)

Dear blog readers I wanted to let everyone know that I've recently added a "Donate Today!"

button including a Pop-Up banner within my blog with the idea to

[1] seek you donations and

feedback to raise the necessary capital for an upcoming Security Project.

How you can contribute in case you're a long-time reader of this blog - and want to pos-

sibly see more high-quality Security and Cybercrime research? Consider making a modest

$500 donation - which will better help me to scale the project and eventually launch it.

Feel free to approach me at dancho.danchev@hush.com

Stay tuned!

I’ve recently came across to a news article detailing the recently leaked Bulgaria NAP records database and I decided to take a closer look.

What does this leak basically constitute?

Basically the attacker managed to compromise the security of the Web Site basically leading to a successful extraction of a decent-portion of data which could basically constitute a leak.

NOTE: The data in this analysis has been obtained using public sources.

In this post I’ll profile a novice Bulgaria-based cybercriminal that basically managed to obtain access to the database and shared it within several cybercrime-friendly forum communities making it publicly accessible including an in-depth overview of TAD Group which is basically a Bulgaria-based penetration testing company.

Hello and thank you for making awareness of the happening. I will send this email only for BTV, NovaTV and Capital because I saw real journalism only from your media.

Yesterday one journalist from NovaTV replied to the minfin_leak@yandex.ru email and asked 3 questions... I will be happy to give you more information regarding the breach so that your corrupted government won't lie to your readers.

1. The data leak is happening for 11 years. If you corrupted government disclose the vulnerable system you can see this information from the Web Archive (Internet Wayback Machine). This has been hacked before in 2012 but back then no one even understood that we managed to infiltrate over 30GB of information.

2. I'm a russian citizen with a bulgarian wife. Her parents are currently living in Bulgaria and I saw with my eyes how fucked up your country is.

3. The data is currently being investigated as far as I understood, but the real questions are not being asked? That's why I gave you the original dump of the databases, sent to 56 media websites in your country but as far as I see only Capital is doing some real digging into the information? Why?

4. Your stupid law enforcement won't find shit... They will just cover the real truth. :)

5. If they don't tell the truth I will personally upload the 21GB dump in russian and bulgarian torrent trackers so that everyone will be able to download the information freely.

6. If any of the contacted media happen to give false information about what's happening I will publicly disclose 2 different dumps from your government which are once again from Ministry of Finances. I also have access to 3GB database dump from BTV Media Group and from 2 more media companies which were from the list of contacted media.

Let the corrupted games begin. :)

Sample Screenshot of the Original Letter Send to Journalists:

Let's take a closer look at the Bulgaria-based TAD-Group is basically a well-known penetration

testing company currently running Bulgaria's largest and most popular hacking forum commu-

nity - **hxxp://www.xakep.bg** which was recently blamed for

Bulgaria’s largest database leak in

particular its founders and several employees in the context of performing an OSINT analysis

basically highlighting some of the key functions of the company and its involvement in the

incident.

We’ll be keeping an eye on the campaign and we’ll post updates as soon as new developments

take place.

Who’s Behind the Syrian Electronic Army? - An OSINT Analysis (2019-07-28 08:19)

Continuing the " **[1] FBI Most Wanted Cybercriminals**" series I’ve decided to continue providing

actionable threat intelligence on some of the most prolific and wanted cybercriminals in the

World through the distribution and dissemination of actionable intelligence regarding some of

the most prolific and wanted cybercriminals.

Following a series of high-profile Web site defacement and social media attack campaigns

largely relying on the utilization of good-old-fashioned social engineering attack campaigns

- it appears that the individuals behind the Syrian Electronic Army are now part of **[2] FBI’s**

Most Wanted Cyber Watch List which means that I’ve decided to conduct an **[3] OSINT**

analysis further sharing actionable intelligence behind the group operators with the idea to

assist law enforcement and the U.S Intelligence Community with the necessary data which

could lead to a successful tracking down and prosecution of the team behind these campaigns.

In this post I'll provide actionable intelligence on the group behind the Syrian Electronic

Army including actionable intelligence on the infrastructure on some of their most prolific

social engineering driven campaigns.

Profiling a Currently Active Portfolio of High-Profile Cybercriminal Jabber and XMPP Accounts (2019-07-29 07:05)

In a world dominated by **[1] fraudulent propositions** it should be noted that Jabber and XMPP

remain the primary secure communication channel for a large portion of cybercrime-friendly

propositions that I come across to on a daily basis largely relying on **[2] Off-The-Record** type of functionality.

I've recently came across to a public list of harvested and data-mined high-profile cyber-criminal's Jabber accounts and I've decided to share it with my blog readers for the purpose of establishing the foundations for a successful " **[3] lawful surveillance**" and " **[4] lawful interception**" type of operational activity.

Exposing Evgeniy Mikhaylovich Bogachev and the "Jabber ZeuS" Gang - An OSINT

Analysis (2019-07-29 07:18)

Continuing the " **[1] FBI Most Wanted Cybercriminals**" series I've decided to take a closer look

at the "Jabber ZeuS" including **[2] Evgeniy Mikhaylovich Bogachev** for the purpose of providing

actionable intelligence on the fraudulent and malicious infrastructure that was utilized in the

campaign including personally identifiable information of the individuals behind it with the

idea to assist law enforcement and the U.S Intelligence community with the necessary data to

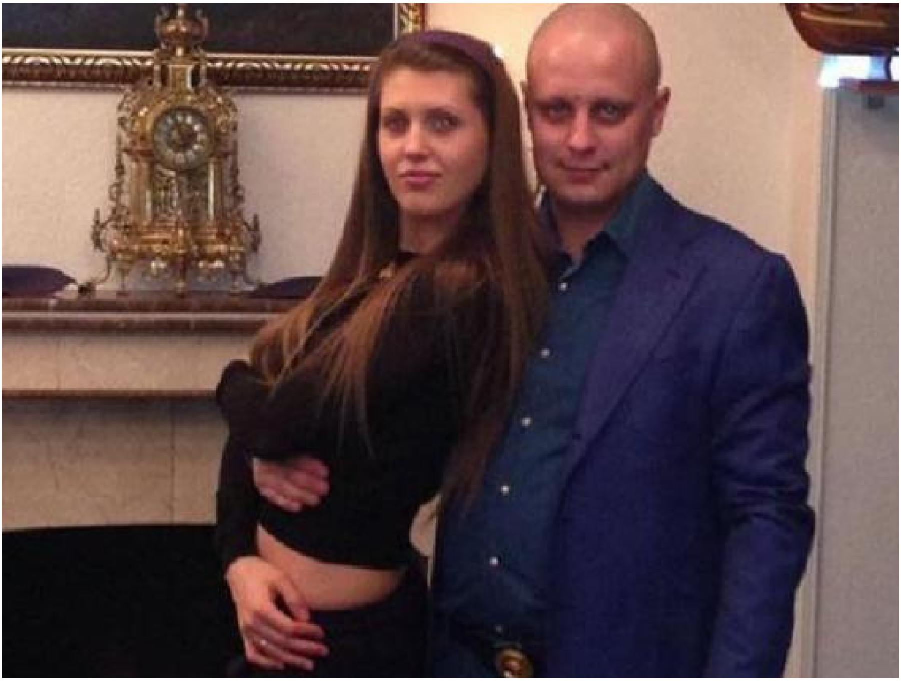
track down and prosecute the individuals behind the campaign.

In this post I’ll provide actionable intelligence on the infrastructure used by the "Jabber

ZeuS" gang including personally identifiable information for Evgeniy Mikhaylovich Bogachev

and some of his known associates.

Sample Personal Photos of Evgeniy Mikhaylovich Bogachev:



Slavik's IM and personal email including responding IP:

bashorg@talking.cc - 112.175.50.220

Personal Address:

Lermontova Str. Anapa, Russian Federation

Instant Messaging account:

Happy 20th birthday, internet worm!

Posted by Adam O'Donnell @ 11:27 pm

5 TalkBacks

This weekend marks the 20th anniversary of the Internet Worm, the first major worm that propagated on the Internet. Even though many years have passed and underlying media has changed, worms are still able to wreak havoc and keep system administrators up at night. Today the damage done by worms is far less visible and far less newsworthy but far more difficult to repair than in the past.

Summarizing 4 Years of ZDNet Zero Day Posts Research (2019-07-29 08:28)

It's been quite some time since I last posted a quality blog post regarding my ex-employer

CBS Interactive’s ZDNet where I used to work as a Security Blogger for ZDNet’s Zero Day

throughout 2008-2013 and I wanted to take the time and effort to say thanks to my Editor-

in-Chief including Editorial Director - Larry Dignan and David Grober who provided editorial

guidance including the publishing of the **[1] original post** regarding my **[2] disappearance circa**

2010 including the search for me.

In this post I’ll summarize my blogging activity at ZDNet’s Zero Day blog throughout

2008-2013 providing my readers with the necessary data information and knowledge to stay

ahead of current and emerging threats.

ZDNet Zero Day Blog Posts - May, 2008

Assessing the Recently Leaked FSB Contractor Data - A Peek Inside Russia's Understanding of Social Network Analysis and Tailored Access Operations (2019-08-02 05:20)

I've recently managed to obtain a copy of the recently leaked FSB contractor data courtesy of

0v1ru $ and "Digital Revolution" and I've decided to take a closer look including an in-depth

overview and discussion of the leaked data in the context of today's modern-driven AI-powered

automated OSINT technologies in the broader context of the U.S Intelligence Community in

particular the utilization of rogue TOR exit nodes for the purpose of intercepting and harvesting TOR exit node data within the Russian Federation including social-network analysis

data-mining and possible "lawful surveillance" and "lawful interception" including possible data collection type of Tailored Access Operation campaigns launched by " **0day Technologies**"

and " **SyTech**".

Historical OSINT - The Russian Business Network Says "Hi" (2019-09-09 05:27)

You know you’re popular when "they" say "hi".

It’s 2009 and I’ve received a surprising personal email courtesy of guess who - The Russian

Business Network showing off the actual ownership of the hxxp://rbnnetwork.com domain

and basically saying "hi". It’s worth pointing out that throughout 2008-2013 I’ve extensively

profiled the activities including the customer activities of some of the most prolific customers

and members of the infamous Russian Business Network also known as the RBN in the context

of **[1] blackhat SEO** **[2] iFrame** and **[3] input validation** abuse across major **[4] Web properties**

including **[5] malvertising** and various other **[6] malware-serving** and **[7] client-side exploits**

serving campaigns including [8] **money mule recruitment** and [9] **phishing campaigns** the ubiquitous at the time [10] **fake security software also known as scareware** in a variety of post series.

- Related post - [11] **Dissecting a Sample Russian Business Network (RBN) Contract/Agreement Through the Prism of RBN's AbdAllah Franchise**

It's been a decade since I last profiled the most prolific and sophisticated market-leading bullet-proof hosting cybercrime enterprise - the Russian Business network which at the time was dominating the majority of campaigns that I was busy profiling with the help of fellow researchers to whom I owe a big deal of thanks for approaching me circa 2008-2013 namely [12] **Jart Armin** and [13] **James McQuaid** with whom I've been directly or indirectly keeping in touch throughout 2008-2013 for the purpose of offering quality research on the activities of the Russian Business Network including their customers and fraudulent and malicious campaigns.

- Related post - [14] **Historical OSINT - Inside the 2007-2009 Series of Cyber Attacks Against Multiple International Embassies**

Stay tuned and thanks for reaching out!

Join Me on Patreon Community! (2019-09-09 08:07)

Dear blog readers,

I decided to let everyone know that I’ve recently launched my own **[1] Patreon Commu-**

nity Page with the idea to let everyone know that I’m currently busy crowd-funding a

high-profile upcoming Cyber Security Investment Project - and I would love to hear from you

more details about your thoughts regarding new Tier Features and whether or not you could

make a possible long-term type of financial donation or sponsorship regarding my research and my security expertise.

The current status of the project:

- I'm currently busy soliciting additional input from colleagues regarding upcoming Tier Features

- I'm currently busy reaching out to colleagues to possibly convert them to Patreon Sponsors

- I'm currently busy working on a high-profile Security Podcast

- I'm currently busy working on a high-profile Security Newsletter

Has my research helped you or your organization in the past? Have you been a long-time blog reader? Have you learned something new? Did my active cybercrime and nation-state actor profiling helped you excel in your career path? Are you happy with what you're seeing?

Dare to take a moment and refer a colleague or an organization my personal blog including my **[2] Patreon Community Page** including a possible Patreon Sponsor request confirmation?

Looking forward to hearing from you at - dancho.danchev@hush.com

Enjoy!

Who's th3j35t3r? - An OSINT Analysis (2019-09-10 07:07)

Fake NordVPN Web Site Drops Banking Malware Spotted in the Wild (2019-09-11 06:53)

I've recently came across to a rogue NordVPN web site distributing malicious software potentially

exposing NordVPN users to a multi-tude of malicious software further compromising

the confidentiality availability and integrity of the targeted host to a multi-tude of malicious

software.

In this post, I'll provide actionable intelligence on the infrastructure behind the campaign and

discuss in-depth the tactics techniques and procedures of the cybercriminals behind it.

Sample malicious URL known to have participated in the campaign:

#DANCHO DANCHEV Does anyone know ..Is there a way I can determine the exact date that Dancho Danchev began to "unfollow" me?

Historical OSINT - Georgian Justice Department and Georgia Ministry of Defense Compromised Serving Malware Courtesy of the Kneber Botnet (2019-09-11 09:07)

It's 2010 and I've recently came across to a compromised Georgian Government Ministry of Defense and Ministry of Justice official Web site spreading potentially participating in a wide-spread phishing and malware-serving campaign enticing users into interacting with the

rogue U.S Intelligence and U.S Law Enforcement themed emails for the purpose of spreading

and dropping malicious software on the targeted host's PC.

Sample malicious URL known to have participated in the campaign abusing common Web Site

redirection application vulnerability flaw:

Weight loss gimmicks

April 7th, 2008 – Comments Off

With obesity affecting an increasing percentage of the world population, more and more weight loss products and programs are venturing into the market. While this appears to be a good possibility initially, it has its flip side as well. Some of these products are

I’m Back! (2019-09-16 23:56)

Dear blog readers - it’s been a while since I’ve last posted a quality update following my

[1]**disappearance and possible kidnapping attempt circa 2010** but as many of you have

noticed I’ve recently published a variety of research and CYBERINT type of articles in a variety of areas which means that I'll be shortly returning to the usual blogging rhythm

successfully publishing a quality set of research articles anytime soon. I've also wanted to let

you know that I've recently launched an extremely popular News Portal called [2]**Unit-123**

offering practical advice to the U.S Intelligence Community including Cyber Warriors and

Cyber Warfare experts including a Cyber Security and Hacking Community called

[3]**Offensive Warfare** including a Bitcoin soliciting bid on the Dark Web for the upcoming

launch of a proprietary custom-based Virtual Reality Social Network for Hackers and Security

Experts called **[4] Cybertronics (dzxvmqrl3rjxbzuer6vv5ejahniz2nefqxfmwspfmvzjo4x**

xzm7n4xad.onion) including the usual interview spree in an attempt to land a permanent job

position as I've been working on a variety of personal and proprietary Security and OSINT

projects.

- Are you interested in having me speak at your event? Are you interested in inviting me

to join a classified and potentially sensitive event or research group? Are you interested

in becoming a writer at this blog? Are you interested in advertising at this blog? Feel free

to approach me - disruptive.individuals@gmail.com

Consider going through some of my most recently published research:

In this post I’ll walk you though the story of my disappearance including a brief introduction

and explanation of my "hacker enthusiast" years circa the 90’s where I’ve been busy doing

"lawful surveillance" and "lawful interception" throughout my teenage years while I was not

busy working full-time with several H/C/P/A (Hacking/Cracking/Phreaking/Anarchy) groups as

a full-time member practically setting up the foundations of the Threat Intelligence market

segment a few years later including the basics of Technical Collection type of position

including Independent Contractor working under NDA in a post 9/11 World including a

personal greeting to everyone who’s been approaching me and reaching out offering support and technical and operational "know-how" including general "say hi" advice.

I want to express a personal gratitude to a good old research friend - **[21] Internet**

Anthropologist - who actually **[22] initiated a track-down action and managed to indirectly**

find me circa 2010 with the help of international and Bulgarian law-enforcement including

fellow colleagues and friends from the Security Industry and U.S Intelligence Community circa

2008-2013 who attempted to track me down and find out more about my disappearance.

In this post I'll discuss my visit to the GCHQ circa 2008 with the Honeynet Project including an

in-depth discussion on my "lawful interception" and "lawful surveillance" experience circa the

90's throughout my teenage hacker years including an in-depth discussion on the hacking

Scene that I was proud to be a member of throughout the 90's having successfully

participated in a variety of community and commercial projects including a personal thanks

to the following friends and colleagues for offering support and keeping track of my research:

- **[23] Jamie Riden** for making a personal contribution to my PayPal account for research

purposes

- **[24] Steve Santorelli** from Team Cymru for expressing interest in a proprietary Threats

Database

- **[25] Michal Salat** for participating in a brief trial of my Threat Data service

- **[26] Ian Cook** for making a personal introduction to my current part-time employer **[27] KCS Group Europe**
- **[28] Jeffrey Bardin** from Treadstone71 who reached out and offered employment opportunity
- **[29] Harrison Cook** who's been persistently donating and reaching out to support the Offensive Warfare 2.0 community
- **[30] John Young** from Cryptome.org who helped spread the word about the Offensive Warfare 2.0 Community
- **[31] Liran Sorani** from Webhose for the opportunity to participate in a part-time project

[HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\RunServices]

DESCRIPTION

The functions of this trojan are:

Spawn a text based application on a tcp port.
Stops an application from listening for connections.
Lists the applications currently listening for connections.
Creates a directory.
Lists files and directory. You must specify a wildcard if you want more than one file to be listed.
Removes a directory.
Creates an export on the server.
Deletes an export.
Lists current shared resourses (name, drive, access, password).

In a World where we've successfully set the foundation of offensive clandestine and

psychological operations including the foundations of Technical Collection and the

foundations of the [32]**Threat Intelligence market segment** including the persistent emphasis

on cyber threats facing U.S Government and U.S National Infrastructure in the context of

enriching and disseminating actionable Threat Intelligence on a variety of U.S Intelligence

Community including academic partners throughout the past decade successfully leading me

to participate in a Top Secret GCHQ Surveillance and Monitoring Program basically keeping

track of hackers and security researchers on Twitter for proactive Cyber Defense and OSINT purposes called " **[33] Lovely Horse**" including a possible "4th Party Collection" trend-setting

initiative circa 2008-2013 labeling some of my research as a possible "4th Party Collection"

partner of U.S Intelligence Community including the [34] **tracking and take down of the**

Koobface botnet including my experience as a Managing Director of "The Underground" also

known as **[35] Astalavista Security Group's** Astalavista.com (**[36] Security Interviews - Part**

01; **[37] Security Interviews - Part 02**; **[38] Security Interviews - Part 03**) throughout

2003-2006 with my ex-girlfriend now partner in life - Yordanka Ilieva - when we used to rock

the boat - and are prone to do so. Takes you back doesn't it? Keep reading.

Personal Photo of bedroom hacker - today's leading expert in the field of cybercrime

research security blogging and threat intelligence gathering - Dancho Danchev also known

as the tHe mAnIaC circa the 90's with his hacker girlfriend - Yordanka Ilieva - including

various personal projects circa the 90’s

It's me again.This is our second issue.I've changed the
design and I've added several new things in the newsletter.
I've also received a lot of e-mails about our magazine.
People like it and they want more information here.
The first issue was short one but of course every new
issue has many new things added in it.
I'm happy people like it and we have MANY new subcribers every day.
Also we have much more visitors than before.

This guide is for educational purposes only I do not take any responsibility about anything
happen after reading the guide. I'm only telling you how to do this not to do it. It's your decision.
If you want to put this text on your Site/FTP/Newsgroup or anything else you can do it but don't
change anything without the permission of the author.I'll be happy to see this text on other pages too.

All copyrights reserved.You may destribute this text as long as it's not changed.

<--=--=--=--=--=--=--=--=>
Author Notes:

I hope you like my texts and find them useful.
If you have any problem or some suggestion feel free to e-mail me but please don't send mails like
"I want to hack the US government please help me" or "Tell me how to blind a trojan into a .jpg"
"WHere can I get a portscanner" etc......
Be sure if I can help you with something I will do it.
I've started writing security related tutorials and I hope you like that.I'll try to cover
much more topics in my future texts and I want to thank to all of the people that like my
texts.

Support Me And Vote For That Site If You Found What You Were Looking For Or Find It Interesting

• **I happen to have directly established a connection with one of the primary Sub7 Trojan**

Horse authors HeLLfiReZ which makes me pretty close to **[39] Steve Gibson** in one way or

another - throughout the 90’s where we exchanged Trojan Horse samples while I was busy

working for Trojan Defense Suite and the infamous Lockdown2000 anti-trojan software

suite where I was busy working on signatures and help-guides compilation while I was also

busy being a member of several hacking groups primarily found on the Cyberarmy.com

Top 50 Hacking List including Progenic.com Top 100 hacking sites list.

• **Mail-bombing was a trend** - in particular my personal experience of making jokes with

friends who were unable to take care of 100+ email messages in their Inbox

• **Mass-Mailing List subscription -** in particular the fact that my friends were not capable of

finding a productive way to get rid of the messages and unsubscribe themselves

• **Telephony Denial of Service attack circa the 90’s** exploiting a popular for Eastern Europe

Mail2SMS mobile provider feature - in particular the fact that it’s not necessarily a pleasant

experience to get rid of 100+ SMS messages received in a short-period of time

• **"Lawful Interception" of friends** - something else that I’m not particularly proud of is my

"lawful surveillance" and "lawful interception" experience and capabilities of people that

I knew and that I used to know largely driven by the need to explore and learn more

513

- **Corporate Experience in the field of anti-trojan detection technologies and categorization -** in particular my experience in creating trojan horse signatures and writing actual

technical descriptions for the purpose of improving my employer's overall detection rate

for a variety of trojan horse vendors circa the 90's.

Do you remember my work from the 90's? Are you familiar with the Scene circa the 90's?

Feel free to approach me - disruptive.individuals@gmail.com or make a PayPal donation using

my PayPal ID: dancho.danchev@hush.com for the purpose of fueling growth into my research.

Massive Portfolio of APT (Advanced Persistent Threat) and RAT (Remote Access Tools) Domains Spotted in the Wild - An Analysis (2019-09-20 07:17)

In a world dominated by thousands of currently active APT (Advanced Persistent Threat) campaigns also known as Remote Access Tools (RATs) including trojan horses it’s worth pointing out that novice cybercriminals continue relying and actively utilizing a variety of commercial and publicly obtainable DIY (do-it-yourself) Remote Access Tools (RATs) for the purpose of committing cyber espionage and launching malicious and fraudulent cyber espionage themed campaigns targeting thousands of users including companies and nation-state actors.

In this post I’ll provide actionable intelligence on some of the most popular RAT (Remote Access Tools) currently utilized for APT (Advanced Persistent Threat) type of nation-state

sponsored and tolerated cyber espionage themed campaigns including an in-depth discussion

on a massive domain portfolio of currently active C &C server IPs known to have participated in

a variety of APT (Advanced Persistent Threat) type of cyber espionage campaigns throughout

2015-2019.

Among the most popular APT (Advanced Persistent Threat) and Remote Access Tools

(RATs) releases based on my public and proprietary sensor network remain the following

currently obtainable commercial and publicly obtainable tools:

- Casa RAT

- Bandook RAT
- Dark Comet Rat
- Cerberus
- Cybergate
- Blackshades
- Poison Ivy
- Schwarze Sonne RAT
- Syndrome RAT
- Team Viewer
- Y3k RAT
- Snoopy
- 5p00f3r.N $ RAT

- SpyNet
- P. Storrie RAT
- Turkojan Gold
- Bifrost
- Beast
- Shark
- Pain RAT
- xHacker Pro RAT
- Seed RAT
- Optix Pro RAT

Historical OSINT - Dancho Danchev’s Media and News Coverage - 2008-2013

(2019-09-20 07:25)

Dear blog readers I wanted to take the time and effort and summarize all the currently related

news media articles referencing me and my research throughout the period - 2008-2013 and wanted to express my gratitude to everyone who approached me seeking my assistance in an

upcoming news article including those who participated in the search for me circa 2010 and I

wanted to let everyone know that users interested in approaching me regarding potential news

stories including conference presentations and possible threat intell requests can approach

me at disruptive.individuals@gmail.com

Stay tuned!

Research and News Articles covering my research and referencing me throughout - 2008:

- [1]Russian hacker ’militia’ mobilizes to attack Georgia

- [2]Fraudsters Target Facebook With Phishing Scam

- [3]Fake Microsoft e-mail contains Trojan virus

- [4]Hackers expand massive IFRAME attack to prime sites

- [5]Hackers infiltrate Google searches

- [6]Hackers expand massive IFrame attack to prime sites

- [7]Hackers knocked Comcast.net offline

- [8]Adobe investigates Flash Player attacks

- [9]High-tech bank robbers phone it in

- [10]Attackers booby-trap searches at top Web sites

- [11]Carpet bombing networks in cyberspace

- [12]Storm worm e-mail says U.S. attacked Iran

- [13]India’s underground CAPTCHA-breaking economy

- [14]Domain Name Record Altered to Hack Comcast.net

- [15]Google searchers could end up with a new type of bug

- [16]Ongoing IFrame attack proving difficult to kill

- [17]Hackers expand massive IFRAME attack to prime sites

- [18]Danchev: The small pack Web malware exploitation kit

- [19]Danchev: Massive SQL injection the Chinese way

- [20]CAPTCHAs are dead - new research from Dancho Danchev confirms it

- [21]Hackers infiltrate Google searches

- [22]Massive faux-CNN spam blitz uses legit sites to deliver fake Flash

- [23]Faked CNN spam blitz pushes fake Flash

- [24]Danchev: Anti-fraud site DDOS attack

- [25]Sony PlayStation site victim of SQL-injection attack

- [26]Fake CNN Alert Still Spreading Malware

- [27]Look Ma, I’m on CIA.gov

Research and News Articles covering my research and referencing me throughout - 2009:

- [28]Green Dam exploit in the wild

- [29]“In gaz we trust”: a fake Russian energy company facilitating cybercrime

- [30]Don’t pay your ransom via SMS

- [31]NYT scareware scam linked to click fraud botnet

- [32]Danchev: A crimeware developer’s to-do list

- [33]Danchev rained on my scareware campaign

- [34]Is “aggregate-and-forget” the future of cyber-extortion?

- [35]NYT scareware scam linked to click fraud botnet

- [36]Microsoft declares war on ’scareware’
- [37]Don’t pay your ransom via SMS
- [38]Twitter warms up malware filter
- [39]What’s really the safest Web Browser?
- [40]With Unrest in Iran, Cyber-attacks Begin
- [41]Zeus bot found using Amazon’s EC2 as C &C server

Research and News Articles covering my research and referencing me throughout - 2010:

- [42]Firefox add-on encrypts sessions with Facebook, Twitter
- [43]Watch out for malware with those pretty Mac screensavers
- [44]Months-old Skype vulnerability exploited in the wild
- [45]Danchev: Money mule recruiters
- [46]Cybercrime’s bulletproof hosting exposed
- [47]Malware Threatens to Sue BitTorrent Downloaders
- [48]Firefox add-on encrypts sessions with Facebook, Twitter
- [49]Chuck Norris Botnet Karate-chops Routers Hard

Research and News Articles covering my research and referencing me throughout - 2011:

- [50]Kaspersky disputes McAfee’s Shady Rat report
- [51]Has EV-SSL Growth Been Slow?
- [52]Report: Vishing Attack Targets Skype Users

Research and News Articles covering my research and referencing me throughout - 2012:

- [53]Fake UPS notices deliver malware
- [54]ZeuS/Zbot Trojan Spread Through Rogue US Airways Email
- [55]New Skype malware threat reported: Poison Ivy

- [56]Five Koobface botnet suspects named by New York Times
- [57]Virtual jihad: How real is the threat?

- [58]Is the death knell sounding for traditional antivirus?
- [59]Can the Nuclear exploit kit dethrone Blackhole?
- [60]Experts split over regulation for bounty-hunting bug sniffers
- [61]Spammers Using Fake YouTube Notifications to Peddle Drugs
- [62]Adele Bests Adderall As Affiliate Spammers Offer Music Downloads
- [63]Bulgarian sleuth unveils botnet operators
- [64]Fake PayPal Emails Distributing Malware
- [65]Web Gang Operating in the Open
- [66]ZeuS/Zbot Trojan Spread Through Rogue US Airways Email
- [67]Buy 500 hacked Twitter accounts for less than a pint
- [68]NBC.com Hacked, Infected With Citadel Trojan

Research and News Articles covering my research and referencing me throughout - 2013:

- [69]How Much Does A Botnet Cost?
- [70]Automated YouTube account generator offered to cyber crooks
- [71]Upgraded Modular Malware Platform Released in Black Market
- [72]Deconstructing the Al-Qassam Cyber Fighters Assault on US Banks
- [73]NBC hack infects visitors in ’drive by’ cyberattack
- [74]Bitcoins are being traded for hack tools
- [75]New DIY Google Dorks Based Hacking Tool Released
- [76]Hacking The TDoS Attack

- [77]Mass website hacking tool alerts to dangers of Google dorks

- [78]Cybercrime service automates creation of fake scanned IDs

- [79]Spammers unleash DIY phone number slurping web tool

- [80]Spam email contains malware, not Apple gift card

- [81]APT1, that scary cyber-Cold War gang: Not even China's best

- [82]Mass website hacking tool alerts to dangers of Google dorks

- [83]C &C PHP script for staging DDoS attacks sold on underground forums

- [84]Russian Malware-as-a-Service Offers Up Server Rentals for $240 a Pop

- [85]Java exploit kit sells for $40 per day

- [86]Buggy DIY botnet tool leaks in black market

- [87]New DIY Google Dorks Based Hacking Tool Released

- [88]Botnets for rent, criminal services sold in the underground market

- [89]Spam email contains malware, not Apple gift card

Announcing Law Enforcement and OSINT Intelligence Operation "Uncle George" - Join

Me Today! (2019-10-16 10:16)

564

Dear blog readers,

Surprise, surprise!

I wanted to let everyone know that I’ve spend a decent portion of

my time crawling and actually harvesting and data mining 78 high-profile public Cybercrime

Forum Communities basically consisting of 1M raw OSINT data Web site pages harvested and

ready for processing and enrichment. Dare to join the campaign? Keep reading and drop me

a line at ddanchev@cryptogroup.net to coordinate and discuss including details on how to

obtain free access to the 2019 Cybercrime Forum Community Data Set which is basically 18GB comprising of 1M crawled and harvested Web sites from the most popular Public Cybercrime

Forum Communities.

Timeline of the Project including What You Need to Participate with the Ultimate Goal

to Track Down the Individuals Behind These Communities and Actually Take Them Down:

- Drop me a line at ddanchev@cryptogroup.net and let me know that you've downloaded

it and that you're currently interested in participating in the project

- Please coordinate with me what you plan to do with the archive in terms of possible raw OS-

INT enrichment and automated Social Network Analysis including sharing it with your Law

Enforcement contacts or colleagues in your organization at dancho.danchev@hush.com

- Grab a copy of Open Desktop Semantic Search - https://www.opensemanticsearch.org and

process the archive

- Grab a copy of Solr-Powered Local Yacy Search Engine - https://yacy.net and process the

archive

- Grab

a

copy

of

Carrot2

–

Open

Source

Search

Results

Clustering

Engine

-

https://project.carrot2.org/ and connect it with Solr-Powered Local Yacy Search Engine and

start processing the results and share the results with me at dancho.danchev@hush.com

- Grab a copy of the following Statistical graphs generating tool - https://github.com/ko-ichi-

h/khcoder and begin working on the archive

The Objectives List:

- Gather as much evidence for participation in fraudulent activity and shut down the community

- Collect as much personal information as possible including IoCs (Indicators of Compromises) Web site URLs including personal IM accounts and personal email addresses

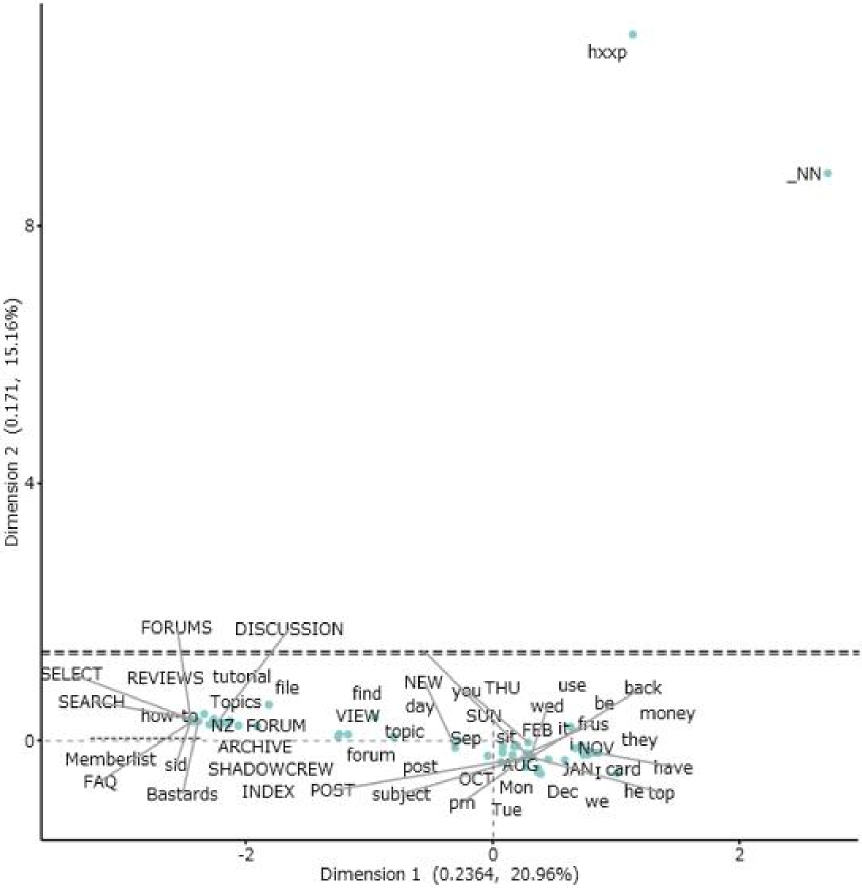
- Publicly publish the results of the crowd-sourced raw OSINT enrichment project campaign

and ask everyone to reach out to their contacts in U.S Intelligence Community and international Law Enforcement to share the data and actively participate in the actual prosecution of the individuals behind these Cybercrime Forum Communities and the actual take-down

process

- Share the data-set with as many academic Security Industry U.S Intelligence and interna-

tional Law Enforcement contacts as possible



Drop me a line at ddanchev@cryptogroup.net and let’s get the campaign going!

The results? Check out the following enriched raw OSINT graph which I managed to cre-

ate for research purposes and to motivate you to participate.

New Commercial Security Research OSINT Cybercrime Research and Threat Intelligence Gathering Services Portfolio Available On Demand! (2019-11-02 08:14)

Dear blog readers,

I wanted to let everyone know of a currently active commercial portfolio of services that

I’m publicly offering for the purpose of reaching out to colleagues and friends including

companies vendors and organizations who might be interested in working with me for the

purpose of obtaining access to never-published before Security Research analysis reports

briefs podcasts and various other commercially obtainable virtual and cyber assets that you

and your organization can take advantage of.

Approach me at - dancho.danchev@hush.com today to discuss!

Key Commercial Services that I’m currently offering include:

- [1]**Security Services**
- [2]**OSINT Services**
- [3]**Hacking Services**
- [4]**Intelligence Services**
- [5]**Geopolitical Services**

Including the following commercial services available on [6] Patreon Community:

- Real-Time Security Consultation
- Security Newsletter
- Cybercrime Blog Post
- Security Podcast
- Malware Analysis
- Threat Intelligence Analysis
- Security Workshop

- OSINT Analysis
- Geopolitical Analysis
- Threat Actor Profiling
- National Security Analysis
- Cyber Jihad Analysis
- Dark Web Intelligence and OSINT Analysis
- Security Presentation
- Cyber Security Business Development
- Red Team Penetration Testing Assessment

- Blue Team Penetration Testing Assessment
- Target of Opportunity Targeting
- Cybercrime Forum Monitoring
- Underground Chatter Monitoring
- Network Deception Consultation
- Military Scenario Building
- Cyber Warfare Scenario Building
- OSINT Enrichment and Data Mining
- Cyber Warfare Program Estimation
- Weapons System Analysis
- Cyber SIGINT and Cyber Assets Discovery

Stay tuned!

New Cybertronics - VR for Hackers and Security Experts Dark Web Onion Address

(2019-12-02 00:15)

[1]

610

Dear blog readers,

I wanted to let everyone know that I've recently changed the official

Dark Web Onion

address for my Cybertronics - VR for Hackers and Security Experts Project including the actual

Bitcoin donation address.

G0t

Bitcoin?

Consider

going

through

the

project

proposal

today

-

http://lkzihepprlhxtvbutjedoazbsqd4avmifhpjms3zuq7itceiu4qajwad.onion/

including

to

make

a

possible

Bitcoin

donation

using

the

following

Bitcoin

Address:

3J8Jt7XCBGtCL6XRLTWhKfRQBmhhqGs4aP

I wanted to say a big thanks to everyone who approached me in terms of the project including to actually make a donation. The official schedule release is scheduled for January,

2020 and I'll make sure to keep everyone posted on current and future project updates.

Stay tuned!

World Hacker Global Domination Group
-Est. 2019-

Official World Hacker Global Domination Group (WHGDG) Dark Web Onion Launch!

(2019-12-02 00:16)

Dear blog readers,

I’ve been spending more time on the Dark Web these days including the active launch-

ing of a second Dark Web Onion and the official launch of the World Hacker Global Domination

Group (WHGDG) which is basically a Call for Papers Call for Participation and Call for Innovation

request on behalf of me for the purpose of reaching out to the U.S Intelligence Community as

an independent contractor for the purpose of presenting and eventually getting funding for a

variety of commercial cyber security and hacking including Threat Intelligence and Offensive

Cyber Warfare Projects including the active recruitment of new members.

Check out the Official Dark Web Onion:

http://nexvibpe4xszfx4cp2jldkdyhnjnah5qnckoagoiry3vpyv5eheh55id.onion/

and

don’t

forget to visit Cybertronics - Virtual Reality Social Network for Hackers and Cyber Security Experts Bitcoin-accepting Project - **http://ca7brwpxmnbssdoh4dfoijyr7zwetob74x3berlvmeekhmkt7zcjdjqd.onion/** and donate today!

How you can participate?

Dancho Danchev

@danchodanchev

Founder and Chief Executive Officer at Stealth Startup, Cybercrime Researcher, Security Blogger at Webroot Inc.

en.wikipedia.org/wiki/Dancho_Da...

- Visit the Dark Web Onion and go through the Call for Participation Call for Papers and Call

for Innovation and approach me at ddanchev@cryptogroup.net in case you believe that

you can contribute with knowledge data and expertise including the technical "know-how"

to participate in any of the Key Points mentioned in the Dark Web Onion

Stay tuned for a major Web Site update by the end of the week including the production of an extremely popular Security Podcast Security Vlog and an additional set of never-published before possibly classified and sensitive Technical Data and Cyber Security and Hacking resources.

Enjoy!

Dancho Danchev's Twitter Account - 2010 - Direct Download Link - Historical OSINT

(2019-12-02 00:19)

Dear blog readers,

Takes you back doesn't it?

I've decided to share with you a [1] **direct download link** of my old [2] **Twitter account** for you to download and go through and to say big thanks to everyone who's been keeping in touch with me throughout 2008-2013 including actual research work and related research inquiries.

Consider going through the archive and catching up with some of my research circa 2010-2014 and approach me - ddanchev@cryptogroup.net with your feedback or just to say hi in case you remember some of the research which I used to publish back then.

Stay tuned!

Security is Futile

Announcing New Hacking Security and Hacktivism-Themed Online Forum Community!

Join me Today! (2019-12-12 09:00)

Dear blog readers,

I’ve recently launched an extremely popular and comprehensive Hacking and Security

possibly Hacktivism-Themed Online Forum Community called "[1]**Security is Futile**" using the

extremely popular [2]**PlushForums** Platform consisting of over 193 Hacking and Security

Topic Categories.

The initial idea behind launching the community is to spread data information and knowledge

and to provoke discussion into various hot Hacking and Security topics including to solicit

high-profile VIP Hacker and Security Experts to actually join the community and contribute

with content.

Official "Security is Futile!" Hacking and Security Forum Community URL:

Announcing Law Enforcement and OSINT Intelligence Operation "Uncle George" - Join Me Today! - Part Two (2019-12-12 09:12)

Dear blog readers,

I wanted to let you know that I’ve been spending more time doing active Security Industry outreach in terms of the [1]**2019 Cybercrime Forum Data Set** and that I’ve already started working with several vendors in terms of possible OSINT enrichment and actual processing of the data.

Perfect timing to say thanks to **Ilya Timchenko** and **McAfee** for actually reaching out and managing to process the following artifacts from the actual Data Set which I've decided to

publicly share with everyone who reaches out and expresses interest in working with me on

the Data Set with the idea to possibly assist the Security Community and Law Enforcement

in terms of tracking down the individuals behind these campaigns and actually shutting them

down.

Possible Personally Identifiable Artifacts Found in the Actual Data Set Include:

- [2]**Cybercriminal Cryptocurrency Addressess**

- [3]**Cybercriminal Emails**

- [4]**Cybercriminal ICQ Numbers**

- [5]**Cybercriminal Phone Numbers**

- [6]**Cybercriminal QQ IDs**

- **[7] Cybercriminal Telegram IDs/ [8] Telegram IDs**

- [9]**Cybercriminal Dark Web Onion Addresses**

- [10]**Cybercriminal Viber Accounts**

- [11]**Cybercriminal VK Accounts**

- [12]**Cybercriminal XMPP Accounts**

Including the following massive update courtesy of me including all the publicly obtainable

[13]**Email Addresses** obtained from the 2019 Cybercrime Forum Data Set including all the

publicly obtainable [14]**IP Addresses** obtained from the 2019 Cybercrime Forum Data Set which appear to be mostly Socks4/Socks5 and publicly accessible compromised hosts used

for "island-hopping" tactics.

I'll be posting an updated set of analysis and data regarding the currently ongoing [15]**Law**

Enforcement and OSINT Intelligence Operation "Uncle George" anytime soon.

Approach me at ddanchev@cryptogroup.net in case you're interested in working with

me on this project or want to obtain access to the actual Data Set for possible OSINT enrichment and research purposes.

Stay tuned!

Happy Holidays! (2019-12-23 10:08)

Dear blog readers,

It’s been a pleasure and an honor to serve your needs since December, 2005 when I’ve

officially opened this blog while working as a Managing Director for Astalavista.com - The

Underground and I sincerely hope that you’ll continue to find my research informative and

quality enough to further recommend my personal blog to friends and colleagues including to

possibly approach me in terms of seeking additional information regarding a particular blog

post or to actually "say hi" and "keep up the good fight" type of message.

My 2020 primary contact points include:

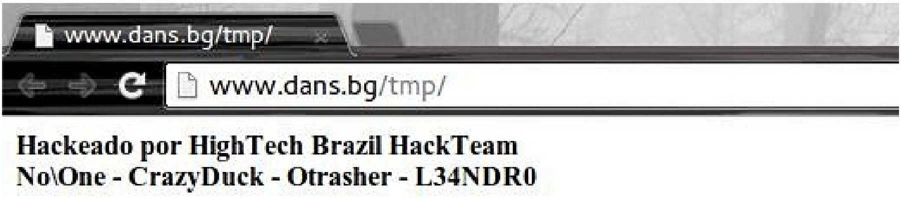
Personal Email - ddanchev@cryptogroup.net

Social Media Accounts - [1]Twitter, [2]LinkedIn, [3]Facebook, [4]Angellist, [5]YouTube,

[6]Medium

IM and Skype ID: [7]dancho _danchev _

620



Hackeado por HighTech Brazil HackTeam
No\One - CrazyDuck - Otrasher - L34NDR0

Web properties that I'm currently running include - [8]Offensive Warfare 2.0 and [9]Unit-

123.org

XMPP/OMEMO ID for Real-Time Conversation: 90184@armadillophone.com which is basically

compatible with [10]ChatSecure [11]Conversations and [12]Dino - feel free to install any of these applications in case you're not using them already and feel free to "say hi".

Happy holidays and thanks a lot for everyone who's been keeping in touch and keeping

up the good fight!

Exposing High Tech Brazil Hack Team Mass Web Site Defacement Group - An OSINT

Analysis (2019-12-27 05:38)

It's been a while since I've last posted on quality update further detailing the inner workings

of a high-profile and prominent Web Site Defacement group that has managed to successfully

compromise thousands of Web sites internationally that also includes Bulgaria's National

Security Agency (DANS) - hxxp://dans.org Web site.

In this post I’ll provide actionable intelligence including personally identifiable information on the people and the gang behind the campaign including an in-depth analysis of their tactics techniques and procedures including personal photos and social media accounts of the infamous High Tech Brazil Hack Team whose responsible for having successfully defaced over 5,000 legitimate Web Sites internationally.

Team Members Include:

- crazyduck - Real Name: Fabian de Souza Peralazzo

- otrasher - Email: Otrasher@live.com - Social Media Account - https://twitter.com/b1tchx _

- l34NDR0

- wicked

- live

Pois é queridos "amigos", acharam que não nos veriam mais..
que este "fogo de palha" se apagaria rápido, haha é, mas nós estamos aqui...
outra vez, para mostrar que a indignação popular ainda não passou
e que aqui fora, do outro lado do muro da impunidade existe um pequeno aglomerado
de milhões de pessoas pedindo para que o senhores...
tomem "vergonha na cara" e trabalhem de acordo com a CONSTITUIÇÃO, com SERIEDADE e COMPROMISSO

O que esperar de uma pátria que trata seu povo proletario apenas como "nicho de extração"
lhe negando educação, saúde, renda, justiça, entre outros direitos BÁSICOS?
não queremos governo assistencialista, não gritamos por migalhas ou 20 centavos...
NOSSOS IMPOSTOS valem mais que isso, queremos o famoso "ordem" e o famoso "progresso",
que nunca vimos neste país, queremos o desenvolvimento das classes, queremos investimentos REAIS
que façam o país avançar...

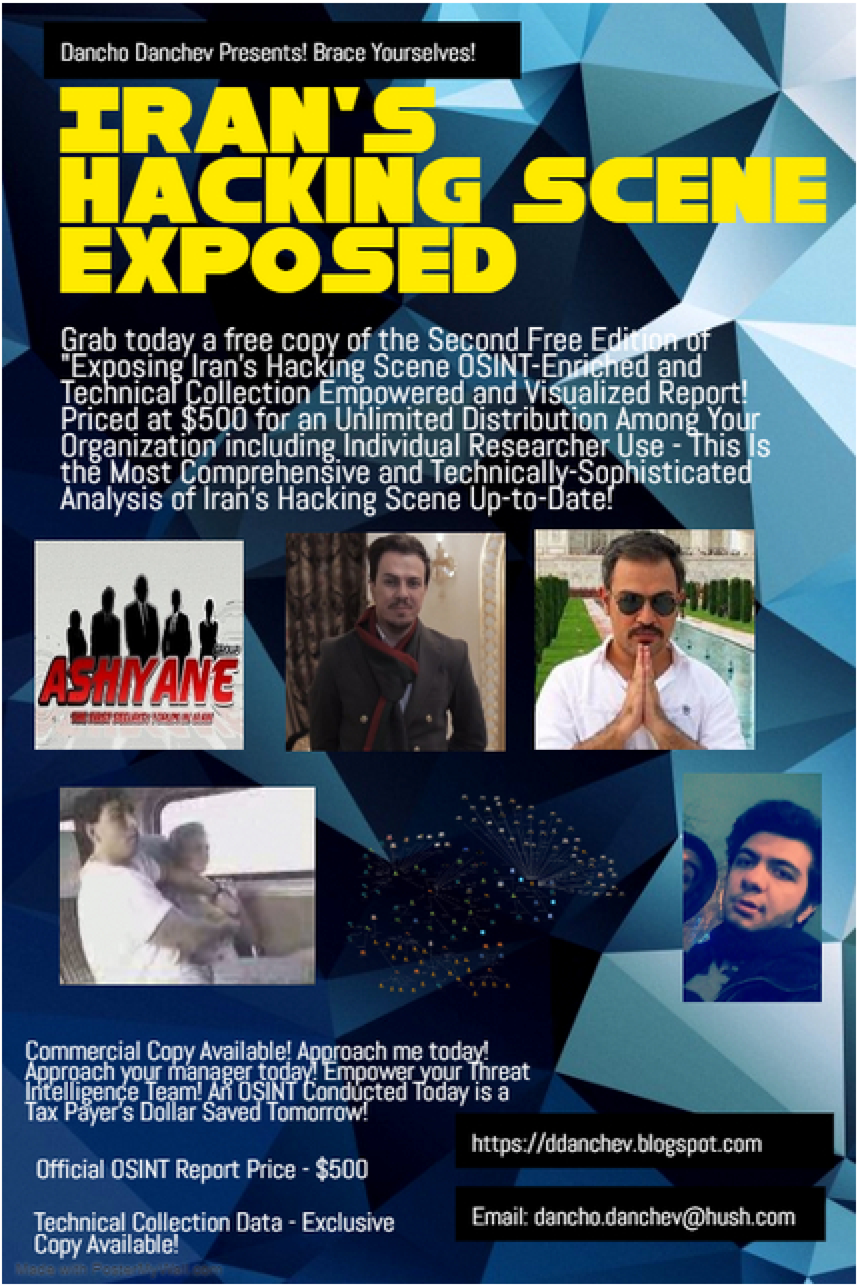
New Report - "A Qualitative and Technical Collection OSINT-Enriched Analysis of the Iranian Hacking Scene Through the Prism of the Infamous Ashiyane Digital Security Team" - Grab a Copy Today! (2020-01-27 06:18)



Dancho Danchev Presents! Brace Yourselves!

IRAN'S HACKING SCENE EXPOSED

Grab today a free copy of the Second Free Edition of "Exposing Iran's Hacking Scene OSINT-Enriched and Technical Collection Empowered and Visualized Report! Priced at $500 for an Unlimited Distribution Among Your Organization including Individual Researcher Use - This Is the Most Comprehensive and Technically-Sophisticated Analysis of Iran's Hacking Scene Up-to-Date!

Commercial Copy Available! Approach me today! Approach your manager today! Empower your Threat Intelligence Team! An OSINT Conducted Today is a Tax Payer's Dollar Saved Tomorrow!

https://ddanchev.blogspot.com

Official OSINT Report Price - $500

Email: dancho.danchev@hush.com

Technical Collection Data - Exclusive Copy Available!

Made with PosterMyWall.com

Dear blog readers,

It’s a pleasure and an honor to let you know of a recently released commercially available

report on Iran’s Hacking Scene entitled - "A Qualitative and Technical Collection OSINT-Enriched

Analysis of the Iranian Hacking Scene Through the Prism of the Infamous Ashiyane Digital

Security Team" which is priced at $500 for unlimited distribution copies within your Team and

Organization and can obtained from **[1] here**.

An excerpt:

" *In a cybercrime ecosystem dominated by fraudulent releases and nation-state actors*

including possible high-profile "sock-puppets" and cyber proxies type of rogue and potentially

superficially engineered cyber warfare tensions it should be clearly noted that a modern

OSINT and virtual HUMINT actionable threat intelligence analysis of major and prominent

cyber actors should take place for the purpose of setting up the foundations for a successful

cyber actor monitoring including possible offensive and couter-offensive tactics techniques

and procedures for the purpose of profiling and acting upon the gathered and monitored

intelligence should take place through the automated and systematic Technical Collection

and OSINT enrichment of the gathered data for the purpose of empowering the necessary

decision-makers and third-parties with the necessary data information and knowledge includ-

ing hands-on tactical and strategic intelligence to work with and act upon. "

Another excerpt:

" *In this report I'll provide in-depth analysis of the Iranian Hacking Scene* *and potentially*

its use of offensive and defensive cyber warfare practices including possible capability

measurement and estimation in terms of technical capabilities and offer in-depth technical

and qualitative analysis of some of the key factors that actually drive the Iranian Hacking

Scene including in-depth Technical Collection material and OSINT gathered artifacts to assist

in the process of acting upon the growing threat posed by Iranian Hackers and the Ashiyane

Digital Security Team internationally with the idea to empower decision-makers and the

Industry including third-party stakeholders with the necessary analysis to act upon and take

measures against in terms of offensive and defensive cyber warfare operations and actual Law

Enforcement tracking down and prosecution including never-published and released before

personally identifiable information on the Ashiyane Digital Security Team including its key

members including a never-published before Social Network Analysis Graph of Iran's Hacking

Scene and Iran's Hacking Underground. "

Interested in obtaining a copy?

Approach me at dancho.danchev@hush.com today and

inquire about purchasing it and I'll shortly get back to you with additional details on how to

obtain copy of the report.

Stay tuned!

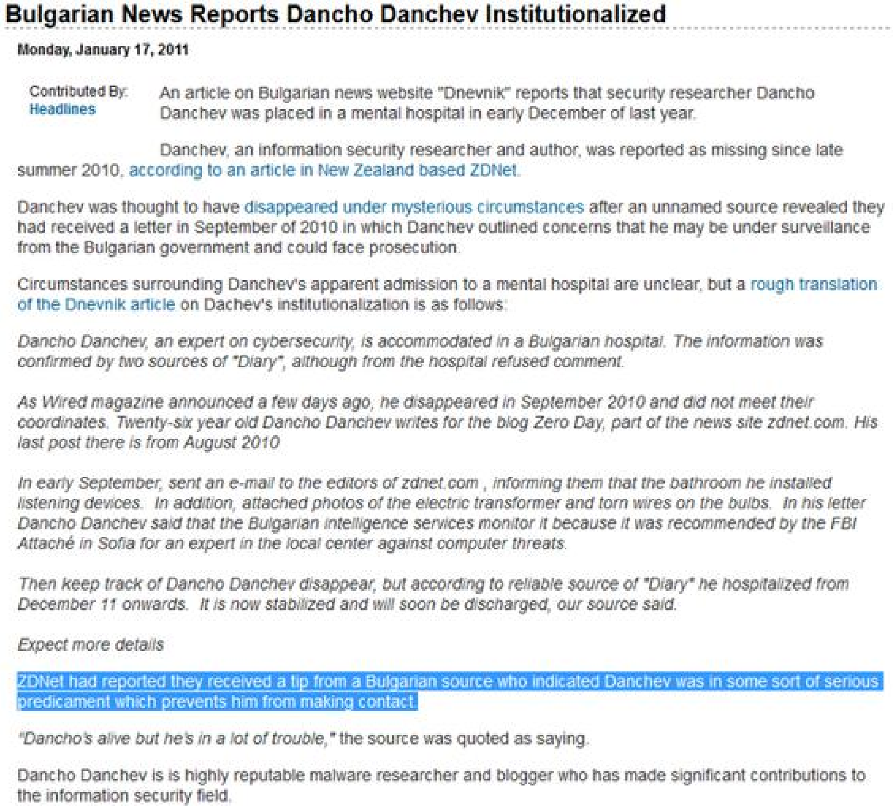
Dancho Danchev's Disappearance - 2010 - Official Complaint Against Republic of Bulgaria (2020-02-03 00:41)

Dear blog readers,

As it’s been eight years since my **[1] disappearance and possible kidnapping** and harassment attempts - I wanted to seek my blog reader’s urgent assistance through email and possibly phone - regarding my disappearance with anyone out there who knows or have information regarding what took place in 2010 - including current and former colleagues law enforcement colleagues and Intelligence Community partners.



Bulgarian News Reports Dancho Danchev Institutionalized

Monday, January 17, 2011

Contributed By: Headlines

An article on Bulgarian news website "Dnevnik" reports that security researcher Dancho Danchev was placed in a mental hospital in early December of last year.

Danchev, an information security researcher and author, was reported as missing since late summer 2010, according to an article in New Zealand based ZDNet.

Danchev was thought to have disappeared under mysterious circumstances after an unnamed source revealed they had received a letter in September of 2010 in which Danchev outlined concerns that he may be under surveillance from the Bulgarian government and could face prosecution.

Circumstances surrounding Danchev's apparent admission to a mental hospital are unclear, but a rough translation of the Dnevnik article on Dachev's institutionalization is as follows:

Dancho Danchev, an expert on cybersecurity, is accommodated in a Bulgarian hospital. The information was confirmed by two sources of "Diary", although from the hospital refused comment.

As Wired magazine announced a few days ago, he disappeared in September 2010 and did not meet their coordinates. Twenty-six year old Dancho Danchev writes for the blog Zero Day, part of the news site zdnet.com. His last post there is from August 2010

In early September, sent an e-mail to the editors of zdnet.com , informing them that the bathroom he installed listening devices. In addition, attached photos of the electric transformer and torn wires on the bulbs. In his letter Dancho Danchev said that the Bulgarian intelligence services monitor it because it was recommended by the FBI Attaché in Sofia for an expert in the local center against computer threats.

Then keep track of Dancho Danchev disappear, but according to reliable source of "Diary" he hospitalized from December 11 onwards. It is now stabilized and will soon be discharged, our source said.

Expect more details

ZDNet had reported they received a tip from a Bulgarian source who indicated Danchev was in some sort of serious predicament which prevents him from making contact.

"Dancho's alive but he's in a lot of trouble," the source was quoted as saying.

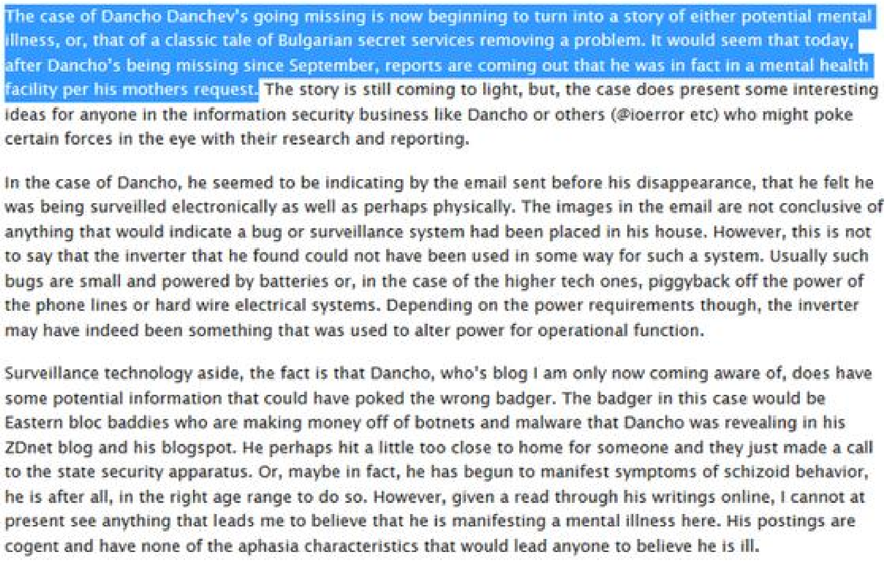
Dancho Danchev is is highly reputable malware researcher and blogger who has made significant contributions to the information security field.

I’ve been recently featured at **[2] WikiLeaks** including the **[3] Snowden archive** including a **[4] SCMagazine** nomination and can be reached at dancho.danchev@hush.com or you can leave a message at - +1 646 419 4540 or reach out to me directly on my mobile - +359 87

68 93 890 or use this XMPP/OMEMO user ID for real-time communication - 90184@armadillo-

phone.com

661



The case of Dancho Danchev's going missing is now beginning to turn into a story of either potential mental illness, or, that of a classic tale of Bulgarian secret services removing a problem. It would seem that today, after Dancho's being missing since September, reports are coming out that he was in fact in a mental health facility per his mothers request. The story is still coming to light, but, the case does present some interesting ideas for anyone in the information security business like Dancho or others (@ioerror etc) who might poke certain forces in the eye with their research and reporting.

In the case of Dancho, he seemed to be indicating by the email sent before his disappearance, that he felt he was being surveilled electronically as well as perhaps physically. The images in the email are not conclusive of anything that would indicate a bug or surveillance system had been placed in his house. However, this is not to say that the inverter that he found could not have been used in some way for such a system. Usually such bugs are small and powered by batteries or, in the case of the higher tech ones, piggyback off the power of the phone lines or hard wire electrical systems. Depending on the power requirements though, the inverter may have indeed been something that was used to alter power for operational function.

Surveillance technology aside, the fact is that Dancho, who's blog I am only now coming aware of, does have some potential information that could have poked the wrong badger. The badger in this case would be Eastern bloc baddies who are making money off of botnets and malware that Dancho was revealing in his ZDnet blog and his blogspot. He perhaps hit a little too close to home for someone and they just made a call to the state security apparatus. Or, maybe in fact, he has begun to manifest symptoms of schizoid behavior, he is after all, in the right age range to do so. However, given a read through his writings online, I cannot at present see anything that leads me to believe that he is manifesting a mental illness here. His postings are cogent and have none of the aphasia characteristics that would lead anyone to believe he is ill.

Current situation:

- illegal arrest using stolen ID kidnapping and trashing of my place including illegal relocation

to an unknown location in the town of Lovech without a single word on the reason for stealing

my ID and holding me confined there for a period of three months

- twisted arm

- twisted eye

- assault by my father and three police offers

- my mother took the liberty to steal my personal ID circa 2010 and hand it over to three unknown police officers and pay for the unknown car fuel using her company's name and take

me to live in an unknown location and actually made it to this [5]**blog**

- something appears to be wrong my eye

- something appears to be wrong with my neck

- something appears to be wrong with my nose

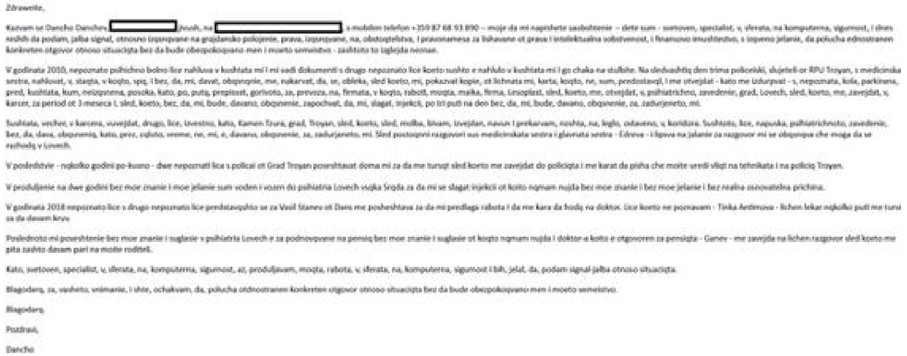
- I'm currently experiencing a pressure on my arm

- harassment by a DANS agent named Vasil Stanev

- which leaves in a home molestation situation with no sign of legal action and law enforcement

assistance

662



The results:

- $80,000 personal amount lost due to harassment and vandalism

- I didn't get an actual copy of the document that my equipment was interfering with that of

the local police station

- my mother stole my ID for a second time to enlist me in social security services

- the DANS agent that visited me - Vasil Stanev - asked me to attend a doctor session and

asked me to work for him and made a copy of a research document in my place

Local Names of Local (City of Troyan, Republic of Bulgaria) Inspector Names responsi-

ble for the illegal entry in my place including the illegal stealing of my Personal ID including

the illegal 3 months illegal presence in another town confined:

[redacted] от 2010 г. [redacted]

ЕПИКРИЗА

На Данчо [redacted] Данчев, на 27 години

[redacted]

[redacted]

Повод за настоящата хоспитализация: Постъпва за пръв път психиатричен стационар и до настоящия момент не е ползва специализирана психиатрична помощ. Доведен с Преписка на РУ н МВР – Троян.

По данни от родителите промяната в поведението датира о началото на месец юли, когато заминал да живее сам на квартира София. През първия месец поддържал ежедневна връзка с тях п телефона, но след това спрял да се обажда. На позвънявания от тяхн страна не отговарял или изключвал телефоните си. Това ги притеснило те започнали да го издирват активно. Получили писмо от хазаина, че д 15.09.10г. трябва да освободят квартирата, а така също и няколк обаждания за неплатени лизингови вноски за закупен от сина им лаптоп На посочената дата те отишли в София, където намерили сина си да сп в квартирата. Отказвал да говори с тях, бил груб и хладен. Събрали м багажа за да се върнат в Троян, той ги оставил пред квартирата по предлог, че е зает и заминал някъде с такси. След завръщането в Троя отказвал да контактува с родителите и с други познати. Затварял се п цял в стаята си, отказвал да се храни заедно с тях. Напускал дома си бе да дава обяснения къде ходи и кога ще се върне. Промяната поведението му била констатирана и от съседи и приятели н семейството, които Данчо подминавал като напълно непознати. Пр отправени забележки от страна на Майката „започвал да гледа лошо" Навсякъде ходел с преносимия компютър. Гледал телевизия от окол метър разстояние, заключвал и по няколко пъти проверявал входнат врата дали е заключена. Непосредствено преди намесата на полицият започнал да говори несвързано, смесвал спомени от детството с наскор случили се неща, употребявал много компютърни термини до степен н неразбираемост.

- **[20] Георги Митков Илиев**

Primary contact points that you should reach out to in case you're concerned about my

well-being and whereabouts:

- **[21] Troyan Police** - Email: police _troyan@abv.bg

- [22]**Troyan Hospital** - Email: mbal _troyan@abv.bg

- **[23] Lovech Psychiatry Clinic** - Email: dpblovech@abv.bg

- **[24] Troyan Municipality** - Email: mail@troyan.bg

664

СЛУЖЕБЕН ВХОД
ПОЛИЦИЯ
ПОЛИЦИЯ

My urgent request:

- Can you please donate any amount to my **PayPal ID: dancho.danchev@hush.com** which I'll

use to relocate as soon as possible

- Can you please reach out to the provided email contact points with local law enforcement

and the people responsible and let them know what do you think

My second request:

- Do you maintain an internal Underground Forum monitoring service? Are you aware of any

Underground Community chatter referencing me and my research including **[25] disappear-**

ance and personal blog similar to **[26] this post**?

- Do you keep in touch with law enforcement? Can you possibly make an inquiry and let me

know personally regarding any information regarding my disappearance and whereabouts

circa 2010?

- Has anyone ever approached you regarding my disappearance?

Are you aware of any

information regarding my disappearance including possible internal organization chatter

law enforcement outreach or possible news tips? Can you possibly approach me personally

with additional information that you might be aware of regarding my disappearance and

whereabouts circa 2010?

Stay tuned!

Two High-Profile OSINT and Technical Collection Analysis Reports on Iran's Hacking Scene and the Ashiyane Digital Security Team - Available for Free! (2020-05-20 14:56)

Dear blog readers,

It’s a pleasure and an honor to let you know that I’ve just made **[1] two** of **[2] my** most important and high-profile studies on Iran’s Hacking Scene and Iran’s Hacking Ecosystem including a high-profile and never-published before SNA (Social Network Analysis) of Iran’s Hacking Scene using Maltego publicly accessible with the idea to get more people to read them and actually act upon them potentially assisting the U.S Intelligence Community and U.S Law Enforcement on its way to track down the prosecute the cybercriminals behind these campaigns.

I’ve decided to share direct download copies of the two reports with the idea to assist you and your team including possibly a vendor or an organization on its way to catch up with what Iran’s Hacking Scene has been up to including the infamous Ashiyane Digital Security Team in the context of offering an in-depth and never-published before OSINT analysis on Iran’s Hacking Scene including an in-depth and comprehensive SNA (Social Network Analysis) graph of Iran’s Hacking Scene using Maltego.

- Consider going through the following **[3] post** to go through an OSINT analysis on the FBI’s Most Wanted Iran-based cybercriminals including actionable intelligence and in-depth OS-

INT analysis including a SNA (Social Network Analysis) graph of Sun Army Team Members,

ITSec Team Members, and the Mersad Co. company.

An excerpt from the first report which you can grab from **[4] here**:

" *In this report I'll provide in-depth analysis of the Iranian Hacking Scene and potentially*

its use of offensive and defensive cyber warfare practices including possible capability

measurement and estimation in terms of technical capabilities and offer in-depth technical

and qualitative analysis of some of the key factors that actually drive the Iranian Hacking

Scene including in-depth Technical Collection material and OSINT gathered artifacts to assist

in the process of acting upon the growing threat posed by Iranian Hackers and the Ashiyane

Digital Security Team internationally with the idea to empower decision-makers and the

Industry including third-party stakeholders with the necessary analysis to act upon and take

measures against in terms of offensive and defensive cyber warfare operations and actual Law

Enforcement tracking down and prosecution including never-published and released before

personally identifiable information on the Ashiyane Digital Security Team including its key

members including a never-published before Social Network Analysis Graph of Iran's Hacking

Scene and Iran's Hacking Underground. "

An excerpt from the second report which you can grab from **[5] here**:

" *This qualitative analysis (45 pages) seeks to assess the Computer Network Operations*

(CNO) of Islamic Republic of Iran, through the prism of the adversary's understanding of

Tactics, Techniques and Procedures (TTP), a structured and geopolitically relevant, enriched

OSINT assessment of their operations, consisting of interpreted hacking literature, videos, and,

custom made hacking tools, extensive SNA (Social Network Analysis) of the country's Hacking

Ecosystem, real-life personalization of the key individuals behind the groups (personally

identifiable photos, personal emails, phone numbers, Blogs, Web Sites, Social Networking

accounts etc.).

It's purpose is to ultimately empower decision/policy makers, as well as

intelligence analysts, with recommendations for countering Islamic Republic of Iran's growing

understanding and application of CNO tactics and strategies. "

- Overview and In-Depth Analysis of Iran's Most Popular Hacking Groups

- Personally Identifiable Information and Enriched OSINT Analysis

- Iran Hacking Group's Team Members Personal Photos

- Iran Hacking Team's Personal Group Photos

- Personal and Group-Published Hacking and Security Tools

669

- Analysis of Iran's Cyber Academic Sector

- Social Network Analysis Maltego Graph

Iran-based Hacking Groups and Team covered and discussed in-depth:

- Overview and In-Depth Analysis of Iran's Most Popular Hacking Groups

- Personally Identifiable Information and Enriched OSINT Analysis

- Iran Hacking Group's Team Members Personal Photos

- Iran Hacking Team's Personal Group Photos

- Personal and Group-Published Hacking and Security Tools

- Analysis of Iran's Cyber Academic Sector

- Social Network Analysis Maltego Graph

The Relevance and Irrelevance of CIA's Vault 7 Cyber Weapons Arsenal - An In-depth

OSINT Analysis (2020-05-21 09:29)

670

CENTRAL INTELLIGENCE AGENCY
KNOWLEDGE
STEALTH
INNOVATION
INFORMATION OPERATIONS CENTER

In a World dominated by buzz words such as military defense contractors entering the World

of cyber warfare through the supposedly proposed cyber weapons inventory that they could

supply to their clients and a multi-tude of third-party cyber weapon and legal surveillance type

of solution providers it shouldn't be surprising that the CIA's most recently launched Center

for Cyber Intelligence including the actual existence of the CIA's Information Operations

Center which is responsible for producing and actually working on the production and release

of nation-grade cyber weapons are already making a decent portion of contribution to the

U.S Intelligence Community of terms of building and actually working on high-profile and

nation-grade cyber weapons thanks to a recently released and leaked by Wikileaks archive of

CIA cyber weapon documents.

In this post I'll offer an in-depth discussion and analysis on the relevance and irrelevance of

CIA's cyber weapons program in the global context of the U.S Intelligence Community includ-

ing the actual applicability of such type of weapons in today's modern security researchers

and anti-virus vendors dominated world including to actually discuss in-depth the technical

In today's modern cyber warfare age multiple international bodies both commercial government-sponsored and non-profit organizations strive to provide both legal and tactical

advice and practical recommendations including "best practices" on the legal and

operational applicability of today’s modern cyber warfare arms race that often thankfully

goes beyond the usual in-depth and throughout analysis of yet another currently circulating

malicious and fraudulent spam and phishing including malware campaigns.

What was once a very specific skillful set of both technical and operational "know-how"

courtesy of the NSA in terms of launching both offensive and defensive cyber warfare

operations is today’s modern alternative in the face of CIA’s recently launched offensive

cyber warfare weapons program which based on the publicly accessibly leaked material

appears to go beyond the usual lawful surveillance type of tools including today’s modern DIY

(do-it-yourself) malware-releases and basically signals a trend and possibly an international

including within the U.S Intelligence Community standard in terms of working on high-grade

nation-empowered offensive cyber warfare weapons.

With the CIA slowly entering the cyber warfare arms race it should be considered as a

privilege to actually having a working or in-the-works cyber weapon type of arsenal that could

possibly motivate other U.S Intelligence Community agencies and actually raise the eye-brows of certain members of the U.S Intelligence Community in particular the NSA in the context of having another agency actively develop and work on cyber warfare weapons. What is the CIA up to in terms of offensive cyber warfare weapons and actual production of high-grade and nation-state sponsored malicious software?

716

Thanks to a publicly accessible leaked archive of classified and potentially Top Secret information on CIA’s offensive cyber warfare weapons program we can clearly distinguish approximately 24 Top Secret offensive cyber warfare weapon programs and actual tools which I’ll extensively profile in this post and offer practical and relevant advice on how organization’s and companies can protect themselves from these type of threats.

- "Dark Matter" - iPhone and MAC hacking
- "Marble" - CIA’s Marble Framework for malicious code obfuscation
- "Grasshopper" - CIA’s Grasshopper framework for producing Windows-based malware
- "HIVE" - publicly accessible C &C (Command and Control) infrastructure development
- "Weeping Angel" - SmartTV hacking and eavesdropping project
- "Scribbles" - Web-beacons based leaked documents tracking tool project
- "Archimedes" - local area network (LAN) hacking tool project that would eventually phone back to the CIA’s C &C infrastructure

- "AfterMidnight" - Windows-based malware
- "Assassin" - Yet another Windows-based malware
- "Athena" - Yet another Windows-based malware
- "Pandemic" - Yet another Windows-based malware
- "Cherry Blossom" - Compromised and backdoored Wireless device and router firmware
- "Brutal Kangaroo" - Covert communication channel using custom-embedded and shipped

USB drives

- "Elsa" - Geo-location aware Wireless device and router exploitation project
- "OutlawCountry" - Linux based malware
- "BothanSpy" - Windows-based malware
- "Highrise" - Android-based mobile malware
- "Imperial" - Mac OS X trojan horse project
- "Dumbo" - Web cam hacking and compromise project
- "CouchPotato" - Video and Web cam hacking and compromise project
- "ExpressLane" - biometrics database compromise hacking project
- "Angelfire" - Windows-based malware
- "Protego" - Missile-control-based malicious software

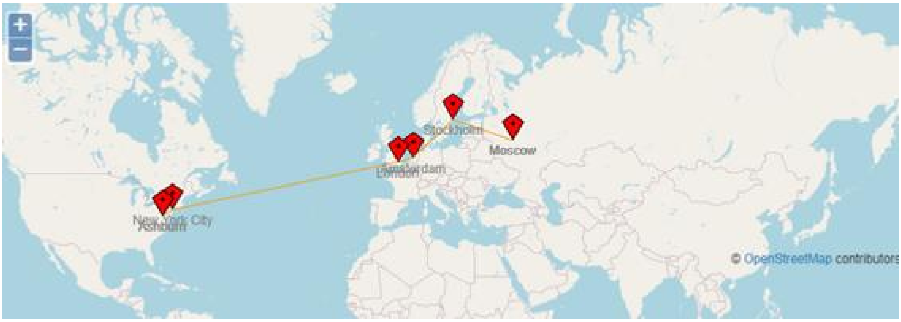
MAINT-CHTR-WD Charter Communications



Today's monocultural insecurities-based inter-connected World in combination with good

old-fashioned OSINT methodologies could easily prove handy to nation-state cyber weapons

building groups and teams in the context of actually doing their home work and basically

adapting to good-old fashioned standardized communication approaches and technologies for

the purpose of exploiting and building offensive cyber weapons on the top of it.

Case in point is the majority of market-leading open-source firmware releases including the

actual proprietary and off-the-shelf internal U.S Intelligence Community based and driven in-

cluding possibly sponsored bug bounty programs including the actual outsourcing of the actual

vulnerability discovery and exploit development to a third-party including the use of proprietary

and publicly accessible off-the-counter exploit and vulnerability development services courtesy

of malicious parties or legitimate public services and projects.

The very notion that the CIA is developing cyber warfare weapons should be considered a

privilege in case they're actually used against an online adversary or a foreign nation. In terms

of attribution it should be clearly noted that the active outsourcing and utilization of purely

malicious online infrastructure including the use of legitimate online infrastructure acting as a

C &C infrastructure should be clearly considered an option in case the CIA doesn't want to end

up having its inventory of hijacked PCs and hosts actually compromised or actually having its

C &C infrastructure taken offline courtesy of security researchers or the Security Community.

I've also managed to find two currently active C &C servers courtesy of CIA's currently active

and ongoing Vault 7 cyber weapons program including an actual MD5 for a CIA-produced and

sponsored mobile malware:

Exposing Anonymous Greece - An OSINT Analysis (2020-06-18 04:39)

Exposing Ashiyane Digital Security Team - An OSINT Analysis (2020-06-19 06:08)

Dear blog readers,

I wanted to let you know that I’ve decided to publish a set of high-profile and personally

identifiable personal photos of all the leading and currently active

Iran-based hacking and

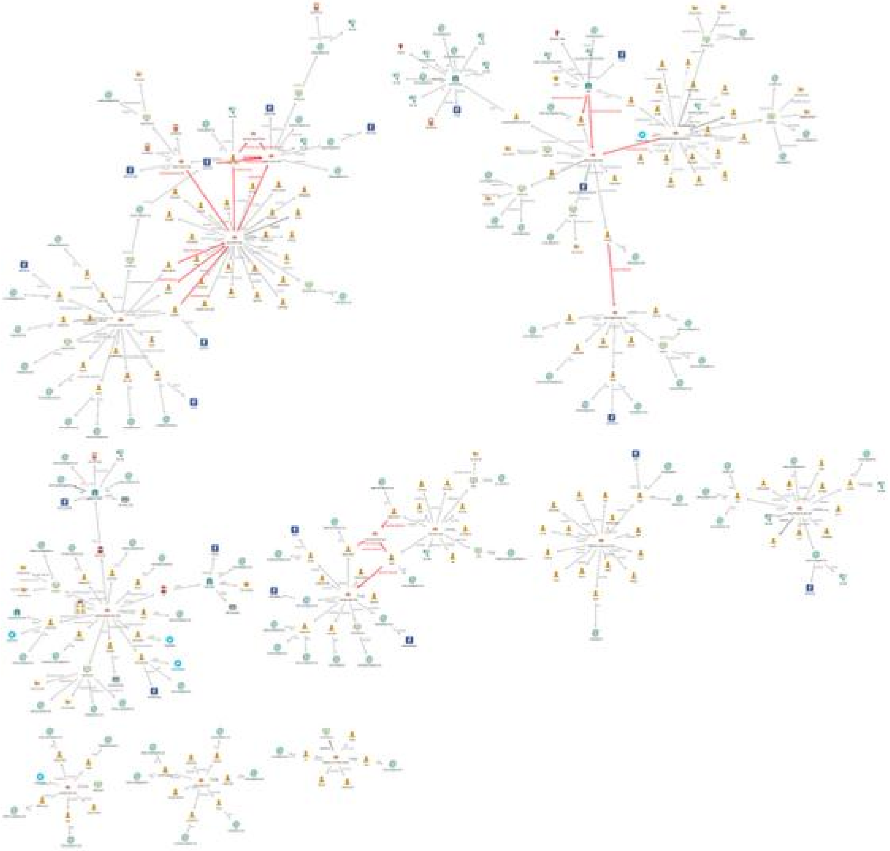
Web site defacement groups with the idea to assist the Security Industry and U.S Law

Enforcement on its way to properly track down the members of these groups part of my two

series of actionable threat intelligence type of reports which I’ve recently released and made

exclusively publicly available for free.

720



- [1]Assessing The Computer Network Operation (CNO) Capabilities of the Islamic Republic

of Iran - Report - Direct Download Copy

- [2]A Qualitative and Technical Collection OSINT-Enriched Analysis of the Iranian Hacking

Scene Through the Prism of the Infamous Ashiyane Digital Security Team - Direct Download

Copy

- [3]Exposing Iran's Most Wanted Cybercriminals - FBI Most Wanted Checklist - OSINT Analysis

Just to let you know that the second edition of the report which is basically the single most

popular and comprehensive publicly accessible Technical Collection report on Iran's Hacking

Scene was produced and sponsored courtesy of Wallmart Threat Intelligence Team which

gracefully approached me in terms of producing it and actually allowed me to release it

publicly for free.

ناسا مورد حمله هکرهای ایرانی قرار گرفت

Ashiyane NASA
Digital Security Team

سایت ناسا، آژانس فضایی آمریکا، توسط یک گروه نفوذگر اینترنتی ایرانی مورد نفوذ قرار گرفت و هک شد.

بنا به گزارش سایت "شبکه فناوری اطلاعات ایران"، در این رویداد، پنج زیر دامنه (SUBDOMAIN) از این سایت توسط گروه ایرانی "آشیانه" مورد نفوذ قرار گرفت.

در ادامه این گزارش آمده است: رکورد نفوذپذیری به سایت ناسا با این حرکت شکسته شد چرا که در حملات قبلی فقط یک زیر دامنه مورد نفوذ قرار گرفته بود.

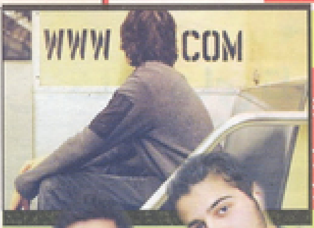
تیم امنیتی "آشیانه" مدعی شده است: برای اینکه مسوولین سرور به زودی متوجه این حمله نگردند فایل های اصلی را دستکاری نکردیم.

لینک سایت های هک شده در سایت امنیتی زون - اچ (ZONE-H) آمده است.

سایت اصلی ناسا به آدرس اینترنتی NASA.GOV همچنان مشغول اطلاع رسانی است.

چشم انداز

گپ



هک می‌کنم

هر چقدر زمان می‌گذرد هکرها بیشتر به شیطنت‌هایشان سمت و سو می‌دهند.
شیطنت‌های هکرهای گروه آشیانه اما امروز، روی ریل‌های مصالح انسانی و ملی حرکت می‌کند.
عصر یکی از واپسین روزهای سال، پذیرای اعضای جوان گروه «آشیانه» بودیم. هکرهای جوان ایرانی با سری بالا به

هکر خوب
هکری است که سرش را بالا بگیرد

احسان تبریزی

آقای کمالیان چرا سراغ هک رفتید؟

۱۷ سالگی آغاز آشنایی من با رایانه بود. از همان موقع سراغ هک رفتم، به هر حال دنیای جذابی بود و حس کنجکاوی‌ام را ارضا می‌کرد. البته اولین علاقه‌مندی من در رایانه، اینترنت بود. اینترنت مرا به دنیایی وصل می‌کرد که می‌توانستم با همه در ارتباط باشم.

چت هم می‌کردید؟

دو ماه چت کردم و کنار گذاشتم اما دوستانی پیدا کردم که بعدها پایه‌های گروه آشیانه شدند.

اولین ایده‌های هک چطور در ذهن شما شکل گرفت؟

وقتی در فضای اینترنت بودم و با کاربران ارتباط داشتم دائم از من می‌پرسیدند ID من هک شده، چه کار باید بکنم؟ یا چطور می‌توانم هک کنم؟ این پرسش‌ها کنجکاوم می‌کرد تا بدانم اصلا هک چیست. آن موقع هنوز کسی در ایران پاسخ روشنی برای این سؤالات نداشت. مجبور بودم به سایت‌های خارجی بروم و مقالاتی را که در این باره بود ترجمه کنم.

بعد هم یافته‌هایتان را روی کاربران تست می‌کردید؟

(خنده جمع)

بله، من فکر می‌کنم آدم‌ها براساس خصوصیات اخلاقی‌شان علاقه‌مند موضوع‌های دور و برشان می‌شوند. من از بچگی به قول معروف از دیوار راست بالا می‌رفتم و درسخوان به آن مفهوم رایج نبودم. فکر می‌کنم انتخاب هک دنباله‌همان ایده‌ها و شیطنت‌های کودکی‌ام بود.

بعد هم که «آشیانه» را ساختید؟

بله، آشیانه شش سال پیش با حضور من، آقایان صالحی و

پس هستم!

دفتر روزنامه آمده بودند و درباره پروژه‌هایشان با ما حرف می‌زدند. گروهی که امروز با عنوان شرکت فناوری ارتباطات و اطلاعات آشیانه فعالیت می‌کند. این هکرهای جوان دیروز، امروز در قامت مدیران جوان یک شرکت ارتباطی - اطلاعاتی ظاهر شده‌اند و در زمینه ارتقای امنیت شبکه‌های اطلاعاتی فعالیت می‌کنند.

نوروزی و دو نفر از دوستان دیگر شکل گرفت. الان آشیانه ۱۵ نفر عضو اصلی دارد که هفت نفر از آنها در تهران و بقیه در شهرستان‌ها هستند.

«آشیانه» چند نفر کاربر دارد؟

سایت «آشیانه» با ۲۳ هزار نفر عضو بزرگترین سایت هک و امنیت و تالار گفتگو و تبادل اطلاعات در ایران است.

اعضای گروه دیدارهای حضوری با هم دارند؟

رستورانی وجود دارد که پاتوق آشیانه است. ما با حضور دوستان شهرستانی سه بار در سال دور هم جمع می‌شویم.

مرامنامه یا اساسنامه‌ای نوشته‌اید؟

قوانین نوشتاری نداریم اما خطوط قرمز به همه اعضا گفته شده. اگر کسی هم اشتباه کند تذکر می‌دهیم.

بالاخره هر گروهی هدفی را دنبال می‌کند و طبیعتاً برای رسیدن به آن استراتژی و تاکتیک می‌چیند. هدف اصلی گروه آشیانه چیست؟

«آشیانه» روزهای اول می‌خواست نقاط ضعف سایت‌های ایرانی را نشان بدهد. ما با هک کردن سایت‌های دانشگاهی و دولتی می‌خواستیم به مسئولان آنها گوشزد کنیم که سایت آنها مشکل امنیتی دارد.

خسارت هم می‌زدید؟

ابدا! فقط فایل اسامی اعضای گروه را روی وب سایت مورد نظر آپلود می‌کردیم.

پس صفحه اصلی سایت را تغییر نمی‌دادید؟

به هیچ‌وجه. ما فقط هشدار امنیتی سایت را به مسئولان دانشگاه و مدیران سایت ایمیل می‌کردیم.

نمرات دانشجویان چطور؟ آنها که در آشیانه پس و پیش نمی‌شد؟

ما بسیاری از سایت‌های دانشگاهی را هک کردیم و امکان دستیابی و دستکاری نمرات دانشجویان را هم داشتیم اما این همان خط قرمز شفاهی اعضای گروه بود.

هدف اصلی ما در این مدت افزایش ضریب امنیت سایت‌های مهم ایران بود. ما دو، سه سال این کار را انجام دادیم و به اینجا رسیدیم که مخاطبان ما نسبت به امنیت وب سایت و هک با حساسیت بیشتری رفتار کنند.

در این مدت هکرهای خارجی هم سراغ سایت‌های ایران می‌آمدند؟

بله. البته آنها خسارت می‌زدند و بسیاری از مواقع اطلاعات سایت‌ها را پاک می‌کردند.

نوروزی: نمونه‌اش سایت آیت‌الله مکارم شیرازی بود که وهابیون هک کردند.

احمدزادگان: البته فقط سایت ایشان نبود، سایت همه مراجع روی یک server بود و هک شد.

چهار سال پیش سایت دانشگاه صنعتی شریف را هک کردید. این هم یک نوع قدرت‌نمایی بود؟

کمالیان: دانشگاه شریف آن سال‌ها سمیناری درباره امنیت شبکه برگزار کرده بود. آنها در این سمینار با اطمینان کامل از امنیت شبکه شان حرف می‌زدند و مدعی بودند به هیچ وجه نمی‌توان این سایت را هک کرد.

غرور شما هم جریحه‌دار می‌شد؟!

ما در این سمینار حضور داشتیم و تصمیم گرفتیم روی این پروژه کار کنیم. دو نفر روی موضوع متمرکز شدیم و بعد از سه روز سایت دانشگاه شریف هک شد.

تذکرهای امنیتی به سایت‌های ایرانی بعد از دو، سه سال تکراری نمی‌شد؟

چرا. در کنار این موضوع بازخوردها به ما نشان می‌داد که افکار عمومی از هک کردن سایت‌های ایرانی چندان راضی نیست. ما هدف دیگری را دنبال می‌کردیم اما ظاهر این هدف برخلاف ماهیت آن عمل می‌کرد. بنابراین بعد از هک سایت دانشگاه شریف اعلام کردیم که گروه «آشیانه» دیگر هیچ سایت ایرانی را هک نخواهد کرد. از این جا بود که گروه تصمیم گرفت «فقط براساس اهداف ملی و عقیدتی حرکت کند». اولین پروژه ما در این مقطع هک ۵۰۰ سایت دانمارکی بود.

همان زمان که سایت‌های دانمارکی به ساحت پیامبر اسلام(ص) اهانت کرده بودند؟

بله. شاید باور نکنید به فاصله چند روز ۱۰۰۰ ایمیل به دست ما رسید که خواسته شده بود با نفوذ در سایت‌های دانمارکی، کاریکاتورهای موهن را پاک کنیم. ما با اعضای گروه تصمیم گرفتیم این پروژه را انجام بدهیم و توانستیم ۵۰۰ سایت دانمارکی را به همراه سایت اصلی نمایش دهنده کاریکاتورها هک کنیم.

روی صفحات اصلی این سایت‌ها چه تصویری گذاشته بودید؟

پرچم ایران به همراه نماد آشیانه. ما سه روز روی سایت اصلی نظرسنجی کردیم و به چهار زبان اصلی دنیا از افکار عمومی خواستیم بگویند موافق کار گروه آشیانه هستند یا نه. ۹۶ درصد افراد به سوال ما پاسخ مثبت دادند.

چند نفر در نظرسنجی شرکت کرده بودند؟

۱۰ هزار نفر که نیمی از آنها ایرانی بودند. خبر این هک در بخش خبری ۲۰:۳۰ از تلویزیون ایران پخش شد.

بعد از قضیه دانمارک، پروژه‌های دیگرتان چه بود؟

ما دو بار سایت‌های رژیم صهیونیستی را هک کردیم. بار اول در جنگ ۳۳ روزه لبنان بود که ۱۰۰ سایت صهیونیستی هک شد. بار دوم هم در اعتراض به کشتار مردم بی دفاع غزه، ۵۰۰ سایت اسرائیلی را هک کردیم.

نوروزی: ما در جنگ غزه مثل همه مردم از آن همه وحشیگری متأثر بودیم، تصمیم گرفتیم حرکت اسرائیلی‌ها را محکوم کنیم. البته سایت‌های اسرائیلی امنیت بسیار بالایی دارند اما توانستیم سایت ارگان‌های دولتی شان را هک کنیم. مهم‌ترین سایت هم متعلق به ایهود باراک، وزیر جنگ اسرائیل بود.

سایت موساد چطور؟

سایت موساد را «داون» و از دسترس خارج کردیم.

صفحه اصلی سایت موساد عوض نشد اما دو روز در دسترس نبود.

احمدزادگان: اگر یادتان باشد قبلاً اسرائیلی‌ها به خاطر مسابقه کاریکاتور هولوکاست، روزنامه همشهری را «داون» کرده بودند.

صالحی: وقتی ما توانستیم سایت‌های اسرائیلی را هک کنیم، شبکه «Press Tv» اعلام کرد «آشیانه» سایت‌های اسرائیلی را هک کرد. این خبر به هر حال ابعاد جهانی داشت و از همه جای دنیا رفته بودند سراغ سایت موساد و دیده بودند از دسترس خارج است.

نوروزی: همان روزها بود که از طرف کانال «RT» روسیه «Russia today» سراغ ما آمدند و مصاحبه‌ای با اعضای گروه داشتند. این برنامه در کانال‌های عربی پخش شد و بازتاب خوبی داشت.

کمالیان: در پروژه خلیج فارس هم شبکه بی‌بی‌سی خبر هک ۳۰۰ سایت عربی را که از عبارت خلیج عربی به جای خلیج‌فارس استفاده کرده بودند، پوشش داد. ما در این پروژه عبارت «Persian Gulf» را روی صفحه اصلی سایت‌ها قرار دادیم.

چند ماه پیش دیداری هم با آیت‌الله مکارم شیرازی داشتید؟

بله، همان زمان بود که وهابیون سایت‌های مراجع و آیات عظام را هک می‌کردند. نقشه کل جهان را روی صفحه سایت قرار داده بودند و دور ایران یک ضربدر قرمز کشیده بودند. بعد هم به تمسخر می‌گفتند ایرانی‌ها هکر ندارند.

بعد از این که سایت‌های مهم وهابیون را هک کردیم، یکی از دوستان مشترک که با ما و آیت‌الله مکارم شیرازی در ارتباط بودند، تماس گرفتند و از ما خواستند صبح فردای آن روز در قم دیداری با ایشان داشته باشیم. فردای آن روز من و آقای صالحی به محضر ایشان رسیدیم و آیت‌الله مکارم شیرازی ضمن قدردانی از فعالیت‌های ما توصیه فرمودند از این به بعد وارد فضای احساسی و تفرقه‌آمیز نشویم. ما بعد از این دیدار با وجود این که وهابیون سایت‌های ایرانی را هک می‌کردند، مقابله به مثل نکردیم.

من فکر می‌کنم هر چقدر سن و سال اعضای گروه بالاتر برود سنجیده‌تر رفتار خواهد کرد و از شیطنت‌های کاذب نوجوانی و جوانی فاصله خواهد گرفت.

کمالیان: الان دیگر این طور نیست که ما هر روز هک کنیم. نگاهی می‌کنیم ببینیم چه کسی مذهب و ملیت ما را نشانه می‌رود، آنجا وارد می‌شویم و برخورد می‌کنیم.

صالحی: اگر گروه آشیانه قبلاً ۱۰۰ درصد کار هک می‌کرد الان ۹۰ درصد کار امنیتی انجام می‌دهد و ۱۰ درصد هک. هک هم برای ما هیچ گونه جنبه درآمدی ندارد. این طور نیست که از کسی پولی بگیریم و سفارش کار کنیم.

کمالیان: واقعاً ما از این موضوع رنج می‌بریم. خیلی‌ها فکر می‌کنند «آشیانه» از دولت پول می‌گیرد و سایت‌های اسرائیلی را هک می‌کند. ما تا به حال در هیچ کدام از پروژه‌های هک، یک ریال از کسی پول نگرفته‌ایم.

سایت ناسا را هم هک کردید؟

ما از ناسا دوبار دسترسی گرفتیم. بار اول فهمیدند و بلافاصله دسترسی ما را بستند و نتوانستیم هک کنیم اما بار دوم هک شد.

نوروزی: دسترسی دوم ما به ناسا از طرف «علی اکتش» انجام شد که امروز اینجا حضور ندارد.

«علی اکتش» اسم مستعارشان است؟

بله.

سایت ناسا فقط براساس شیطنت انتخاب شد؟

کمالیان: ناسا زمانی هک شد که امریکایی‌ها مدام در رسانه‌هایشان ما ایرانی‌ها را تروریست می‌خواندند. البته هک ناسا در همه جای دنیا افتخاری برای هکرهاست.

مثل فتح قله اورست برای کوهنوردها؟

دقیقاً هکرها وقتی می‌خواهند قدرت‌نمایی کنند سراغ ناسا می‌روند.

این که می‌گویند دست بالای دست بسیار است شامل دنیای هکرها هم می‌شود؟

تا دلتان بخواهد بلا سرمان آمده است. بعد از هک سایت‌های اسرائیلی دامنه سایت‌ها دچار مشکل شد. سر قضیه ناسا هم چند روز سایت ما بسته شد. ایمیل زدیم به ناسا و گفتیم یک گروه امنیتی هستیم و چند «باگ» (حفره امنیتی) پیدا کرده‌ایم و گروهی دیگر به اسم «آشیانه» از این باگ‌ها سوءاستفاده کرده‌اند.

چند روز پیش فیلمی می‌دیدیم که درباره رقابت دو شعبده‌باز برای دانستن رمز جابه‌جایی انسان بود. آنجا می‌گفتند شعبده‌بازی سه رکن دارد، حالا هک چه اجزایی دارد؟

کمالیان: تعیین هدف و شناسایی آن مراحل اولیه کار است. بعد از این که هدف را انتخاب کردی، شناسایی‌اش می‌کنی و اطلاعات می‌گیری. بعد هم گام دسترسی است که در دسترسی مشکلات هدف را پیدا می‌کنی.

احمدزادگان: و از آن مشکلات استفاده می‌کنی. در واقع از روزنه‌ها نفوذ می‌کنی.

کمالیان: همان حفره‌های امنیتی

«ابتکار» از هک شدن سایت های دولتی در تهران و ریاض گزارش می دهد:

جنگ هکرهای ایرانی و عربستانی

گروه سیاست خارجی - شامگاه سه شنبه خبری در مورد هک سایت مرکز آمار ایران منتشر شد که در ابتدا به گروه داعش منتسب شد، اما مدتی بعد گفته شد عربستان مسوول چنین حمله ای است. یک روز بعد سایت سازمان ثبت اسناد و املاک کشور هک شد و بعد از آن حملاتی تلافی جویانه از سوی هکرهای ایرانی به برخی از سایت های عربستان صورت گرفت که بازتاب وسیعی پیدا کرد. در این زمینه با بهروز کمالیان، مدیرعامل شرکت امنیتی آشیانه و کارشناس حوزه سایبری، در مورد اینکه ماجرا از کجا شروع شد؟ آیا هک و مختل کردن چندین سایت مهم دولتی نشانه ضعف امنیت کشور در این حوزه نیست؟ نقش سازمان پدافند غیرعامل در دفاع و تامین امنیت سایبری کجاست؟ مشکلات این حوزه به کمبود متخصصان این عرصه بر می گردد یا به مدیریت دولت؟ ایران چه اقداماتی را در این زمینه انجام داده است؟ توانایی عربستان در چه حدی است و آیا ایران تمایلی به یک رویه رویی سایبری با کشور عربستان دارد؟ آیا در این ماجرا دولت ها از هکرها پشتیبانی کردند و این اقدامات سازمان یافته بود یا خودجوش و جنبه تفریحی داشته است؟ اگر خودجوش و غیر سازمان یافته اند به واسطه اینکه پتانسیل احتمال افزایش تنش میان دو کشور را دارند جرم محسوب می شوند؟ گفت و گو کردیم.

شیوه جنگیدن کشورها و ملت ها چون گذشته نیست. نباید انتظار داشت که در یک جنگ و جدال تنها سربازان یا داوطلبان مردمی به شیوه ای کلاسیک در صف های منظم به جنگ دشمن بروند. ارتش های کلاسیک، کشتی ها و ناوهای جنگی، هواپیماها و جنگنده ها نظامی، در ابعاد مادی زمینی، دریایی و هوایی نیروهای نظامی و امنیتی یک کشور را تشکیل می دهند. اما انقلاب تکنولوژیکی و شکل گیری دهکده جهانی و وابستگی دولتها به خدمات مبتنی بر وب در حوزه های اطلاعاتی، نظامی، اقتصادی و سایر حوزه ها، امنیت را از حالت سخت افزاری گذشته خارج کرده و حالتی سیال و مجازی به آن داده است که با حمله به سامانه ها و شبکه های نرم افزاری یک کشور می توان خسارات گزاف تری نسبت به یک جنگ کلاسیک بر آن وارد کرد. در سالهای اخیر کشورهای زیادی در این زمینه هزینه های میلیارد دلاری انجام می دهند و برنامه های خاصی در مورد حمله و دفاع سایبری در پیش گرفته اند. ایران و عربستان دوقدرت منطقه ای

و توسط «گروه مافیا» که هویت ایرانی دارند، انجام شد. همین عامل یعنی هک پیاپی باعث شد که برخی از هکرهای ایرانی بخصوص آنهایی که در این عرصه جوان تر هستند احساس کنند که دولت عربستان سعودی به صورت سازمان یافته سایت های ایرانی را هک می کند و به صورت خودجوش و با عصبانیت دست به حملات تلافی جویانه بزنند.

ضعف کشور در زیرساخت های امنیت شبکه

اما اینکه هکرها ایرانی باشند یا از کشوری خارجی دست به چنین اقداماتی بزنند و سایت های دولتی آن هم سایت هایی را که دارای اطلاعات پایه ای هستند، هک کنند و به راحتی به این سایت ها نفوذ و آنها را مختل کنند جای سوال دارد. یعنی دستگاه بوروکراتیک و دولت که وظیفه تامین امنیت اطلاعات کاربران را در اختیار دارد، به این راحتی نفوذ پذیر است؟ عجیب تر اینکه سایت های دولتی توسط عده ای هکر خودجوش بدون اینکه از سوی دولت و یا کسی حمایت شوند و سازمان یافته باشند، این همه آسیب پذیر است؟ و مشکل از کجاست؟ مدیرعامل شرکت امنیتی

نیروی متخصص در کشور ما زیاد هستند و ما تاکنون ۴ یا ۵ هزار نیروی کارآموز داشتیم که آموزش دیده اند و دانش بالایی را در این حوزه به دست آورده اند. نیروهای زیادی نیز وجود دارند که در حال کسب اطلاعات و مطالعه در این حوزه هستند، اما متاسفانه مدیریت و برنامه ریزی مناسب برای استفاده از این حجم نیرو برای تامین امنیت شبکه وجود نداشته است. این کار به صورت انحصاری در دست دولت و شرکت های خاص است و دولت نیازمند برنامه ریزی برای خروج از این حالت انحصاری است.

تامین امنیت در این حوزه در اختیار تیم های سایبری دولت است

کمالیان در مورد اینکه آیا کشور در این زمینه برنامه دارد و مساله به کجا ختم می شود و این حالت ادامه دارد گفت: این موضوع الان در اختیار دولت است و یک سری تیم های سایبری و شرکت ها دارد که از افراد آنها برای این موضوع استفاده می کند. اما در کل این حوزه به دلایلی که گفتم حوزه ای نیست که به راحتی به هر فردی اجازه دهد وارد آن شود. این کارشناس

ر شما نیز جزو علاقه‌مندان این حوزه باشید احتمالا همین چند روز پیش خبرهای داغی از گوشه کنار دنیای وب به گوشتان رسیده است. یکی از این خبرها حمله تیم امنیتی آشیانه به سایت‌های قی با استفاده از سرورهایی واقع در اسرائیل بود. این خبر از جهاتی چندان اهمیتی نداشت، چراکه ابع انتشار آن و دلایل موجود همراه آن اعتباری نداشتند. اما با توجه به این‌که این روزها هر خبری در یای مجازی شکل واقعیت به خود می‌گیرد و ذهن کاربران زیادی را درگیر می‌کند، تصمیم گرفتیم همین رابطه با بهروز کمالیان، کارشناس امنیت و مدیر تیم آشیانه گفت‌وگوی دوستانه‌ای داشته شیم تا جزئیات بیشتری از این خبر را در اختیار ما قرار دهد.

به‌طور خلاصه کمی از ماجرا بگویید. را پای تیم آشیانه به این خبر باز شده ست؟

هفته گذشته در پایگاه اینترنتی KrebsOnSecurit خبری منتشر شد از متلاشی شدن گروهی از رژیم اشغالگر ی حکایت داشت که با دریافت مبالغی ام به حملات DDoS می‌کردند. همزمان متلاشی شدن این گروه، اطلاعاتی از قبیل شخصات سفارش‌دهنده‌ها به بیرون درز کرد مشخص شد این گروه با ایجاد بات‌نت‌ها و سرورهای خود با دریافت هزینه از مشتریان، سفارش انجام حملات مبتنی بر انکار سرویس برای آنها انجام داده و با فروش حساب‌های یری با ارزشی بین ۱۹ تا ۱۹۹ دلار به بیش از ۶۰ هزار دلار درآمد در کمتر از دو سال دست ا کرده است. همچنین این گروه در این از زیردامنه‌های این گروه بود که پس از آن نیز وجود تعدادی آدرس آی‌پی ایرانی در میان سفارش‌دهندگان، این ماجرا را جنجالی کرد. پس از این اتفاقات، برخی بدون آگاهی و تنها بر پایه این‌که نام کاربری سفارش‌دهنده‌ها با تعدادی از نام‌های کاربری موجود در انجمن آشیانه یکسان بوده این برداشت را داشتند که درخواست این حملات از سوی گروه آشیانه صورت گرفته است. متاسفانه این بظاهر کارشناسان توجه نکردند ثبت‌نام در انجمن آشیانه رایگان و برای

برای ایرانی بودن سفارش‌دهندگان نیست، چون احتمال هک شدن یک سرور ایرانی و ارسال درخواست از سوی سرور وجود دارد و نتیجه‌گیری نهایی را فقط با بررسی تخصصی و حقوقی می‌توان اعلام کرد.

حملات DDoS چیست؟

حمله تکذیب سرویس یا حمله منع سرویس توزیع شده که به حملات DDOS مشهور است، تلاشی برای خارج کردن ماشین و منابع شبکه از دسترس کاربران مجاز است. اگرچه منظور از حمله DOS و انگیزه انجام آن ممکن است متفاوت باشد، اما

به‌عنوان فردی که شغلتان به دنیای مجازی گره خورده چه توصیه‌ای برای کلیکی‌ها دارید؟

به کاربران شبکه‌های مجازی پیشنهاد می‌کنم از این فضا استفاده بهینه داشته باشند و از سوی دیگر در آن غرق نشوند و ارتباطات دنیای حقیقی خود را فدای ارتباطات مجازی نکنند و هر نوشته‌ای را که با نام خبر ارائه می‌شود با بررسی و آگاهی بپذیرند و از بازنشر مطالب غیرواقعی خودداری کنند، چراکه این مساله هم از نظر علم روان‌شناسی، جامعه‌شناسی و ارتباطات و هم از نظر شرعی و اخلاقی بشدت مخرب است و حتی می‌تواند بار قضایی و حقوقی را برای افراد ایجاد کند.

آیا تابه‌حال مشاهده کرده‌اید یک شرکت امنیتی برای تامین امنیت سرورهای مشتریان خود ابتدا آنها را زیر حملات هکری قرار دهد؟

شرکت‌های فعال در حوزه امنیت سایبری برای تامین امنیت مشتریان خود، به‌صورت قانونی و بر مبنای اصول و استانداردهای تعریف شده این حوزه و بر اساس

یکی از
بهترین راهکارهایی
که برای جلوگیری از این نوع
حملات به مدیران شبکه و مسئولان
سایت‌ها و سرورها پیشنهاد می‌شود
استفاده از سرویس رایگان Cloud است
و بهترین سایت اینترنتی در این زمینه که
این سرویس را به‌صورت رایگان نیز

ناسا مورد حمله هکرهای ایرانی قرار گرفت

سایت ناسا، آژانس فضایی آمریکا، توسط یک گروه نفوذگر اینترنتی ایرانی مورد نفوذ قرار گرفت و هک شد.

بنابه گزارش سایت "شبکه فناوری اطلاعات ایران"، در این رویداد، پنج زیر دامنه (SUBDOMAIN) از این سایت توسط گروه ایرانی "آشیانه" مورد نفوذ قرار گرفت.

در ادامه این گزارش آمده است: رکورد نفوذپذیری به سایت ناسا با این حرکت شکسته شد چرا که در حملات قبلی فقط یک زیر دامنه مورد نفوذ قرار گرفته بود.

تیم امنیتی "آشیانه" مدعی شده است: برای اینکه مسوولین سرور به زودی متوجه این حمله نگردند فایل های اصلی را دستکاری نکردیم.

لینک سایت های هک شده در سایت امنیتی زون - اچ (ZONE-H) آمده است.

سایت اصلی ناسا به آدرس اینترنتی NASA.GOV همچنان مشغول اطلاع رسانی است.

Exposing Iran's Hacking Scene and Hacking Ecosystem Major Web Site Repositiories

- An OSINT Analysis (2020-07-11 21:37)

989

Dear blog readers,

I wanted to take the time and effort and present the findings including an excerpt from

my most recently released and freely available report on Iran's Hacking Scene and Hacking

Ecosystem which is a complimentary Technical Collection research based analysis sponsored

and requested by Wallmart Threat Intelligence team for the purpose of actively gathering ac-

tionable intelligence on Iran's Hacking Scene and Hacking Ecosystem and actually distributing

it online for free making it one of the most comprehensive and extensive publicly accessible

research analysis on Iran's Hacking Scene and Iran's Hacking Ecosystem.

In this post I'll present the findings including personally identifiable photos of major Iran-based hacking groups and threat actors including all the currently active Iran-based personal

Web sites belonging to individual Iran-based hackers and hacking groups including personal

Web sites of some of the team members of some of Iran's leading and major hacking and

Web site defacement groups with the idea to assist the Security Industry the U.S Intelligence

Community and U.S Law Enforcement on its way to track down and prosecute the individuals

behind these campaigns part of my most recently released and publicly accessible report on

Iran's hacking scene and hacking ecosystem.

Recommended posts and research reports:

Exposing Bulgaria’s Involvement in Cold War Espionage - Who Stole the PC and Build

a Fake Pro-Western Empire? - An OSINT Analysis (2020-07-13 09:52)

Dear blog readers,

I wanted to take the time and effort and personally present the "crown jewels" of my research

into [1]Bulgaria’s involvement in Cold War Espionage in the context of writing and distributing

computer viruses using educational institutions as a front-end to spread and disseminate

computer viruses and actually participate in a variety of high-profile hacking phreaking and

cracking project throughout the 90’s perfectly fitting and violating the [2]COCOM embargo

imposed by the United States during the Cold War.

Sample SNA (Social Network Analysis) of key participants in Bulgaria’s virii writing and

hacking scene throughout the 90’s:

ЕЛЕКТРОННОИЗЧИСЛИТЕЛНА МАШИНА ЕС—1035

ЕИМ ЕС—1035 е един от основните модели изчислителни машини от среден клас, разработени на втория етап от развитието на Единната система електронноизчислителни машини (ЕС ЕИМ „Ред—2"). Предназначена е за решаване на широк кръг научно-технически, икономически, информационно-логически и други задачи със средно бързодействие 140—160 хиляди операции в секунда.

При нея напълно са запазени приетите в ЕС ЕИМ основни технически концепции и програмна съвместимост с предишните и новите модели ЕИМ от Единната система.

В ЕС—1035 са въведени допълнителни програмно-апаратни средства.

Exposing the Modern Cybercrime Ecosystem - A Compilation of Currently Active Cyberfrime-Friendly Forum Communities - Part Three (2020-07-17 05:07)

Dear blog readers,

This is the third post part of the "[1]A Compilation of Currently Active Cyberfrime-Friendly Forum Communities" blog post series part of my currently ongoing Law Enforcement and OSINT operation "Uncle George" that aims to empower your team or organization with the necessary Technical Collection data to help you fight against cybercrime incidents including the U.S Intelligence Community and U.S Law Enforcement with the necessary information to track down shut down and prosecute the cybercriminals behind these campaigns part of my currently ongoing [2]Law Enforcement and OSINT operation called "[3]Uncle George".

Currently active portfolio of cybercrime-friendly invite-only and publicly accessible forum communities:

Cybercrime Forum Data Set - 2019 - Free Download! (2020-07-17 05:09)

Dear blog readers,

I wanted to take the time and effort and let you know that I’ve decided to make the cybercrime forum data set part of my Law Enforcement and OSINT analysis operation "[1]Uncle

George" publicly accessible for free with the idea to solicit more participants in the ongoing

law enforcement and OSINT operation "[2]Uncle George" with the idea to crowd-source the

actual enrichment process potentially reaching out to the security industry the U.S Intelligence

Community and U.S Law Enforcement on its way to track down shut down and prosecute the

individuals behind these campaigns.

Grab a direct download copy of the entire Cybercrime Forum Data Set from [3]here.

Cyber Security Project Investment Proposal - Astalavista Security Group - Official Re-Launch - Support me Today! (2020-08-28 02:28)

[1]

Dear blog readers, I wanted to take the time and effort and present a currently active cyber security project proposal with you for the purpose of soliciting your feedback including possible project donations using my PayPal ID: dancho.danchev@hush.com

Long story short - I've spend the last couple of months doing active Security Industry and Security Community outreach for the purpose of soliciting possible funding including feedback and operational activity type of support for the project - which is basically [2]**my**

1265

ASTALAVISTA
GROUP

old working place circa the 90's - Astalavista Security Group - where I've recently received a direct proposal to acquire run and manage and actually re-launch and re-surrect the portal the way we know it -The World's Most Popular Information Security

Portal also known as the Underground.

[3]

As it’s been a while since I’ve been full-time employed meaning I don’t currently posses the necessary funds to actually take care of the legal fees including the actual re-launch and introduction including implementation of new services - I decided to post this cyber security project proposal with the idea to seek everyone’s assistance for the purpose of donating using my PayPal ID: dancho.danchev@hush.com which I’ll use to actually finance and run the portal within the next couple of months with official launch eventually scheduled for January 1st 2020.

What we currently need?

Basically what I need is your financial support including possible operational activity support in the form of anything that you could possibly offer for the purpose of re-surrecting and re-launching the portal.

Consider going through the cyber security project proposal and approach me at - dancho.danchev@hush.com for a possible donation using PayPal.

[4]

Welcome to the Wonderful Future of Information Security!

In a World dominated by technological innovation and interconnected devices - the World's

leading expert (http://ddanchev.blogspot.com) in the field of cybercrime research security

blogging and Threat Intelligence gathering is proud to present the upcoming availability of a ubiquitous hacker and security-expert-friendly IoT (Internet of Things) device empowering

Astalavista Security Group - The Underground 2.0 - The World's Most Popular Information

Security Portal empowering Europe's oldest running and most popular Hacking and Security

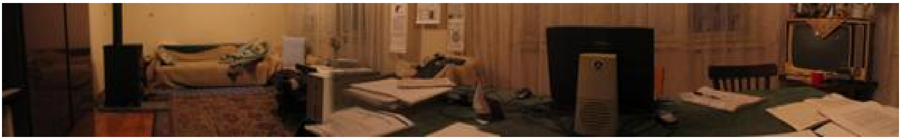
Company with the general availability of the Astalavista Security Group - The Underground

2.0 IoT device envisioned to be shipped to every home and every house internationally

empowering a new and future generation of Hackers and Security Experts within a period of

six months service the needs of millions of loyal users globally.

Astalavista Security Group - The Underground Security Lab Circa 2006:



06-2016
TRABAJA
ONFIANZ

[5]

The main purpose behind this campaign is to raise the necessary funds for the initial launch of the project including the first stage of the project which will consist of active Security Community operation and launch that would later on mature into a SaaS (Software-as-a-Service) type of ubiquitous IoT (Internet of Things) device shipped to millions of users globally empowering a new and future generation of Hackers and Security Experts.

CEO and Managing Director - Dancho Danchev - Presenting on the "Exposing Koobface - The World's Largest Botnet":

[6]

Personal Message

Dear Community,

My name is Dancho Danchev (http://ddanchev.blogspot.com) and I represent the World's Largest and Most Popular Information Security Portal where I used to act as a Managing Director throughout 2003-2006 where I was responsible for daily Security News and Security Directory moderation and content management including advertising inventory including the launch and maintenance of a highly popular monthly Security Newsletter

PayPal™

Donate

(https://packetstormsecurity.com/groups/astalavista/) with thousands of subscribers across

the globe featuring exclusive Security Interviews with people from the Scene including Security

News Security Articles and Security Directory submission type of content and I wanted to

reach out to the Community with the idea to seek your assistance and future help in the

upcoming launch of the portal.

[7]

The main purpose behind this campaign is to raise the necessary funds from the Community

for the purpose of ensuring a proper and smooth launch that would eventually position the

company and the project as the World's Most Popular Information Security Portal including

daily campaign updates and real-time notifications of new features and company and project

service and product.

The campaign will issue daily updates with fresh news directly from the Security Lab for

the purpose of ensuring that the Community and possible backers remain on the top of the campaign updates allowing the Community and possible backers with the opportunity to direct

their questions and possible feedback to the company CEO and acting Managing Director -

Dancho Danchev.

- Help us spread the word - the firs thing that we need is for you to ask your friends and

colleagues to go through this Crowd-Funding campaign and possibly donate including to

share the link with fellow colleagues and friends.

[18]

The Astalavista Security Group Crowd-Funding Project Timeline - Key Summary Points in

Chronological Order

- Official Crowd-Funding campaign launch

- Reaching out to friends and colleagues on LinkedIn and Twitter including personal contacts

- Daily News from the Security Lab in terms of the campaign and how the money received

will go for re-surrecting and actually re-launching of the portal

- Live YouTube Broadcast with CEO and Managing Director - Dancho Danchev - for the purpose of introducing the project and what exactly we're trying to achieve in terms of the crowd-funding campaign

Sample Proposed Implementation of a bult-in Honeypot on the actual IoT device to be shipped to hundreds of thousands of users globally through the use of Honeytoken-based "Fake Cyber Artifacts":

How we're going to use the money?

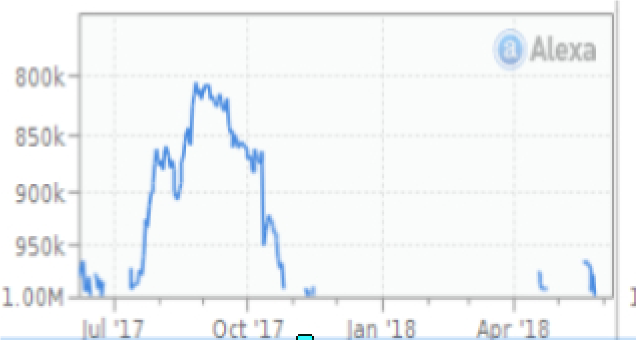
The following is a brief estimate on how we're going to use the initial $50,000 as requested by my blog readers:

- $4,000 - Legal Fees
- $1,000 - Travel
- $10,000 - SaaS Platform
- $10,000 - Secure OS Development
- $5,000 - Marketing
- $10,000 - Product Inventory
- $10,000 - Miscellaneous Including Shipping and Official Launch

What is Astalavista Security Group - The Underground 2.0?

Astalavista.com - The Underground, is one of the world's most popular and comprehensive computer security web sites. Astalavista.com was originally founded in 1997, by a hacker computer enthusiast. Since then, the site became the underground's most respected and well maintained portal for anything you ever wanted to know about hacking and cracking.The

1276



enormous database, the constant updates, the unique nature of the content published, the new services and features, all offered for free, turned Astalavista.com into what it is today - a cult!

Mission Statement and Company Vision

Company Mission - " *To manage launch and operate the World’s Largest and Most Vibrant Hacking and Security Community empowering millions of users globally with the necessary data information and knowledge to stay ahead of current and emerging threats*".

Company Vision - " *To become the The World’s largest security and hacking SaaS innovation and business development enabler successfully serving the needs of millions of loyal users across the globe - A Hacker and a Security Expert in Every Home*".

Key Facts About The Company and the Project

- Europe’s Oldest Running and Most Popular Hacking and Security Brand
- Ubiquitous IoT device in every house and every home running the proprietary and secure Astalavista OS featuring exclusive in-house and in-home access to the Premium and Proprietary Astalavista Security Group 2.0 API-based SaaS platform featuring unique access to the World’s Most Vibrant and Largest Hacking and Security Platform
- A hacker and a security expert in every house and every home
- API-based self-sufficient cyber and unique branded hacking and security economy

- Millions of loyal users converted to loyal home and house users and experts

- The World's Largest and Most Vibrant Hacking and Security Economy

- Millions of security and hacking downloads

- Millions of security and hacking video downloads

- Millions of security and hacking book downloads

- Millions of security and hacking podcast downloads

Project History - Astalavista 2.0 Throughout The Years

Interview with a core founder of Astalavista.com

Dancho: Hi Prozac, Astalavista.com - the underground has been one of the most popular and well known hacking/security/cracks related web site in the world since 1997. How did it all start? What was the idea behind it?

Prozac: Basically, it was me and a college friend that started Astalavista.com during our student years. The name of the site came from the movie Terminator 2 from Schwarzenegger’s line " Hasta la vista Baby"! Back in those days there weren’t many qualified security related web sites, and we spotted a good opportunity to develop something unique, which quickly turned into one of the most popular hacking/security sites around the globe. In the beginning, it was just our Underground Search List, the most comprehensive and up-to-date search list of underground and security related web sites, based on what we define as a quality site. Then we started providing direct search opportunities and started developing the rest of the site. Many people think we did some serious brainstorming before starting Astalavista, well, we did, but we hadn't expected it to become such a popular and well known site, which is the perfect moment to say thanks to all of you who made us as popular as we're today.

Dancho:

Astalavista.com always provides up to date, sometimes "underground" documents/programs. The Security Directory is growing daily as well, and it has been like this for the past several years. How do you manage to keep such an archive always online, and up to date?

Prozac:

Astalavista's team members are aware of what's "hot" and what's interesting for our visitors, just because we pay an enormous attention to their requests for security knowledge, and try to maintain a certain standard, only quality files. While we add files every day, a large number of those are submitted by our visitors themselves, who find their programs and papers highly valued at our site, as we give them the opportunity to see how many people have downloaded their stuff.

Dancho:

Astalavista occupies people's minds as the underground search engine.

But what is Astalavista.com all about?

Prozac: The majority of people still think Astalavista.com is a Crack web site, which is NOT true at all.

Astalavista.com is about spreading secutity knowledge, about providing professionals with what they’re looking for, about educating the average Internet user on various security issues; basically we try to create a very well segmented portal where everyone will be able to find his/her place. We realize the fact that we’re visited by novice, advanced and highly advanced users, even government bodies; that’s why we try to satisfy everyone with the files and resources we have and help everyone find precious information at astalavista.com. Although we sometimes list public files, the exposure they get through our site is always impressing for the author, while on the other hand, some of the files that are listed at Astalavista.com sometimes appear for the first time at our site. We try not to emphasize on the number of files, but on their quality and uniqueness.

Dancho: Everyone knows Astalavista, and sooner or later everyone visits the site.

How did the image of Asta become so well-known around the world?

Prozac:

Indeed, we are getting more and more visitors every month, even from countries we didn’t expect. What we think is important is the quality of the site, the lack of porn, the pure knowledge provided in the most professional and useful way, the free nature of the site, created "for the people", instead of getting it as commercial as possible. Yes, we work with a large number of advertisers, however, we believe to have come to a model where everyone’s happy, advertisers for getting what they’re paying for, and users for not being attacked by adware or spyware or a large number of banners.

Dancho: A question everyone’s asking all the time - is Astalavista.com illegal?

Prozac: No!

And this is an endless debate which can be compared to the Full Disclosure one. We live in the 21st century, a single file can be made public in a matter of seconds, then it’s up to the whole world to decide what to do with the information inside. We’re often blamed because we’re too popular and the files get too much exposure. We’re often blamed for serving these files to script-kiddies etc. Following these thoughts, I think we might also ask, is Google illegal, or is Google’s cache illegal?! Yes, we might publish certain files, but we’ll never publish "The Complete Novice Users on HOWTO ShutDown the Internet using 20 lines VB code". And no, we don’t host any cracks or warez files, and will never do.

Dancho:

Such a popular security site should establish a level of social responsibility -

given the fact how popular it is among the world, are you aware of this fact, or basically it’s

just your mission that guides you?

Prozac: We’re aware of this fact, and we keep it in mind when approving or adding new

content to the site. We also realize that we still get a large number of "first time visitors",

some of them highly unaware of what the security world is all about; and we try to educate them as well.

And no, we’re not tempted by "advertising agencies" eager to place

adware/spyware at the site, or users submitting backdoored files, and we have a strict policy

on how to deal with those - "you’re not welcome at the site"!

Dancho: We saw a completely new and "too professional to be true" Astalavista.com since the

beginning of 2004 - what made you renovate the whole site, and its mission to a certain extend?

Prozac: It was time to change our mission in order to keep ourselves alive, and most importantly, increase the number and quality of our visitors, and we did so by finding several more people joining the Astalavista.com team, closely working together to improve and popularize the site. We no longer want to be defined as script kiddies paradise, but as a respected security portal with its own viewpoint in the security world.

Dancho: What should we expect from Astalavista.com in the near future?

Prozac: To put it in two words - changes and improvements.

We seek quality and innovation, and have in mind that these developed by us, have an impact on a large number of people - you, our visitors. Namely because of you we're devoted to continue to develop the site, and increase the number of services offered for free, while on the other hand provide those

having some sort of purchasing power and trusting us with more quality services and products.

Dancho: Thanks for the chat!

Prozac: You’re more than welcome :)

The Scene we know it back in the 90’s was primarily consisting of several high profile security

and hacking Web site portals including astalavista including several high Profile Top Links

Lists for hacking and security Web sites including a countless number of personal hacking and

security projects courtesy of users across the globe. Privacy did not exist as terms that would

raise someone’s eye-brows and Security and Hacking was a free spirit topic to which the CEO

and acting Managing Director - Dancho Danchev - throughout the 90’s used to spent a decent

portion of his time going through Security and Hacking manuals documents and text files

including the experimentation with various Security and Hacking tools including ICQ flooders,

Nuke Bombers and trojan horses leading him to pursue a career as a member of a variety of

Security and Hacking groups including a successful career as a Technical Collector of trojan

horses with the market leading anti-trojan software at the time - Trojan Defense Suite and

LockDownCorp’s LockDown2000 anti-trojan software throughout the 90’s.

It's me again.This is our second issue.I've changed the
design and I've added several new things in the newsletter.
I've also received a lot of e-mails about our magazine.
People like it and they want more information here.
The first issue was short one but of course every new
issue has many new things added in it.
I'm happy people like it and we have MANY new subcribers every day.
Also we have much more visitors than before.

Yet Another Personal Project of CEO and Managing Director - Dancho Danchev - throughout

the 90's - "Security is Futile":

[39]

The following list of feature will offer insight on the upcoming core features products and

community-based services and products

New Core Astalavista Security Group 2.0 Products

- Secure Desktop PC - Introducing the World’s most private and anonymous Desktop PC - The Quebes OS
- Privacy Router - Introducing the World’s most secure and privacy-oriented VPN router part of the CHAVPN closed-access network group
- Secure Mobile - Introducing the World’s most secure and versatile security and privacy-features enabled Mobile Device

- Secure PC - Introducing the World’s most secure tamper-proof Desktop PC
- Secure Keyboard - Introducing the World’s most secure and privacy-proof security keyboard
- Secure USB - Introducing the World’s most secure FIPS-validated USB storage device
- Wireless Penetration Appliance - Introducing the World’s leading Wireless Penetration Appliance
- Honeypot appliance - Introducing the World’s leading and most versatile honeypot appliane
- Penetration Testing Appliance - Introducing the World’s Most versatile penetration testing appliance
- Bluetooth Penetration Testing Appliance - Introducing the World’s most ubiqutous and secure Bluetooth Penetration Testing Appliance

New Core Astalavista Security Group 2.0 Services

- Astalavista Malware Connector - Infected with Malware? Let our experts and Security Team take care of the rest
- Astalavista Cloud Antivirus - Introducing the World’s Premier Cloud-based Antivirus Scanner
- Astalavista DNS Security Service - Introducing the World’s Most Comprehensive Sensor Network for anticipating and responding to current and emerging threats
- Astalavista Web Site Malware Scanner - Are you a Web site Owner? Let our service automatically scan and detect and remove malicious software from your Web site
- Astalavista Honeypot Service - Interested in learning more about cyber threats? Consider becoming part of World’s Most Comprehensive Honeypot Sensor Network
- Astalavista Threat Intelligence Service - Worry about malicious software entering your network and data premises? Consider subscribing to The World’s Most Comprehensive Threat Intelligence gathering and sharing Service
- Astalavista Penetration Testing Service - Are you part of a security organization worrying about the latest threats facing your infrastructure? Consider becoming part of Astalavista’s Penetration Testing Service - the Woqrld’s Premier Penetration Testing on Demand

Service.

- Astalavista Security Training Service - Interested in learning more about computer and network security? Consider becoming member of the World’s Most Versatile Portfolio of training courses and material

New Core Astalavista Security Group 2.0 Community-Oriented Services

- Wargames Server - Want to learn new hacking and security tricks and tools of the trade? Consider obtaining access to our sophisticated Wargames Server

1289

- Astalavista Security Group’s Security and Hacking Search Engine - Introducing the World’s Largest and Most Comprehensive Search Index of Hacking and Security Content
- Hacking Mailing List - Introducing the World’s leading and most proprietary Hacking Mailing List
- Hacking E-Zine - Introducing the World’s Leading Hacking E-zine featuring content from hundreds of security authors and experts from across the globe
- Bug Bounty - Do you have experience in finding security bugs and vulnerabilities? Consider joining the World’s Largest and Most Versatile Bug Bounty program
- IRC Network - Are you a fan of IRC? Consider joining the World’s Largest Hacking and Security IRC Network and talk with us in real-time

- Security Conference - Introducing the World's Leading and Premier Security Conference Event featuring thousands of security experts conversations and discussions
- Security Comic - Are you a fan of Comic Books? Consider obtaining access to the World's Premier and Leading Information Security and Hacking Comic Book
- Security Incubator - Do you have an idea for a new security product or a service? Consider submitting your project proposal and we'll be happy to assist with an investment proposal

• The Initial Stage of the project will consist of the official launch of the Astalavista Security

Group official subscription-based invite-only portal.

• The Second Stage of the project will include the general availability of an IoT (Internet of

Things) device shipped to millions of users across the globe using a proprietary SaaS

(Software-as-a-Service) API-enabled Astalavista Security Group OS

(Operating System) empowering a new generation of Hackers and Security Experts - A Hacker and a Security Expert in Every Home.

- The Third Stage will include the launching of an Internet-enabled Cubesat in Space empowering the World’s Largest and Most Popular Information Security and Hacking Community and empowering a new generation of Hackers and Security Experts with a personal gateway and Space Hub to spread their knowledge information and data reaching out to millions of users globally.
- The Next Phase will include the launch of global Cyber Security and Hacking R &D Research Lab empowering a new generation of Hackers and Security Experts with innovative services and products positioning the Company as the World’s Leading Provider of Information Security and Hacking Products and Services.
- The Next Phase will consist of active vertical-market integration further positioning the Company as a leading provider of Internet Media and Broadcast Services including the acquisition of a variety of market-leading Cyber Security Products and Services.

Long-Term In The Future Company and Project Vision - "The Time Has Come to Set Them Straight!".

Eternal Self-Sufficient Hacking and Security Economy - Project Details and Milestones -

The World’s Largest and Most Vibrant Hacking and Security Economy

Announcing the general availability of the World's Leading Hacker and Security Virtual Simulation empowering millions of users globally with an information-driven power Hacker experience.

2025

Eternal Hackers

Announcing the World's Largest and Most Vibrant Self-Sufficient and Self-Managing Hacker and Security Expert Cyber Economy.

Imagine a World where everyone can become whatever they want to be. In this campaign the

CEO and acting Managing Director - Dancho Danchev - will aim to raise the necessary funds

to build manage and operate what can be best described as an eternal self-sufficient Cyber

Security and Hacking Economy empowering millions of loyal users across the globe with the

necessary data information and knowledge to learn and make impact internationally success-

fully earning a decent portion of revenue for sharing and collaborating with fellow Security

Reseachers and Security Experts - entering every home and house globally using a ubiquitous

IoT (Internet of Things) device shipped and delivered to millions of loyal users across the globe.

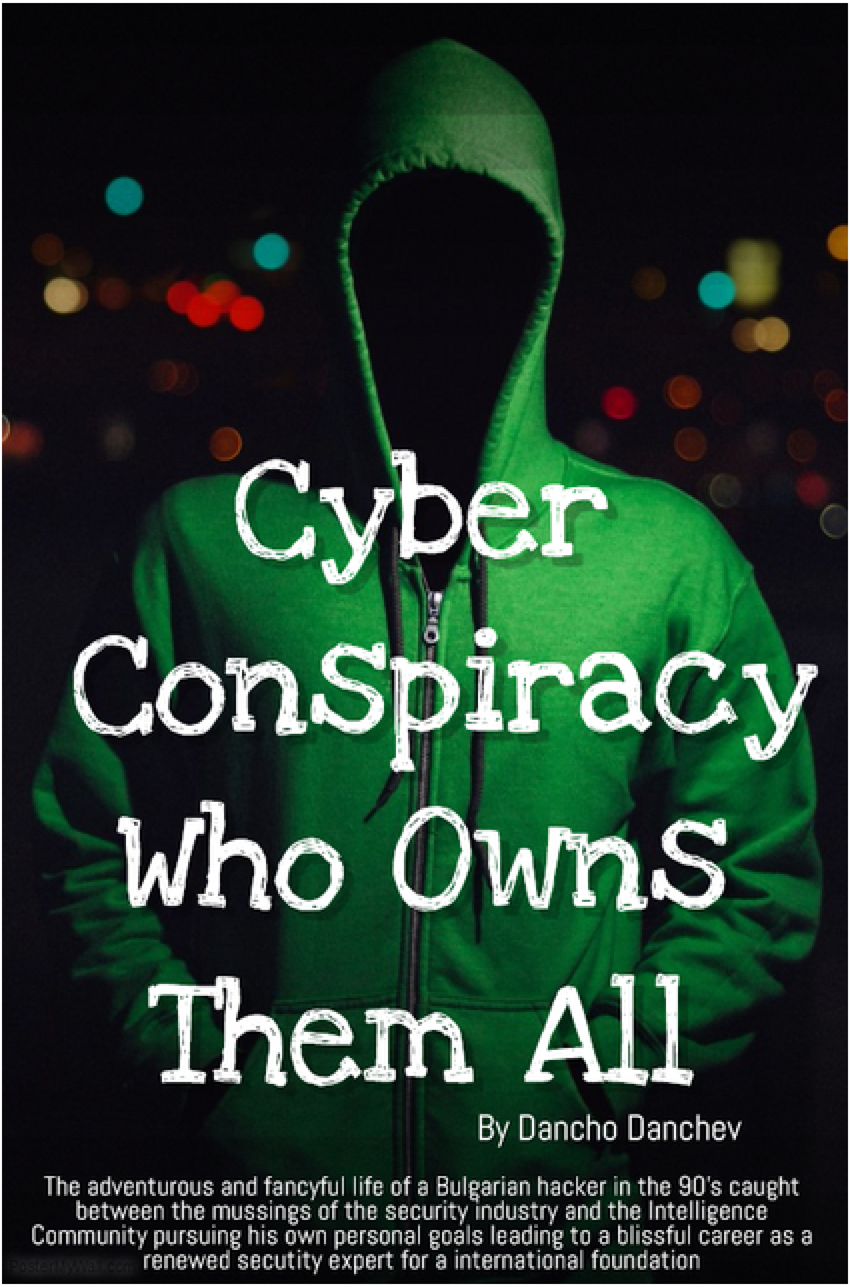
Stay tuned for an additional set of details to be published anytime soon including daily updates regarding the technology and the implementation process in terms of the Astalavista IoT (Internet of Things) device to be shipped and delivered to millions of loyal users across the globe!

Personal Memoir of CEO and acting Managing Director - Dancho Danchev - throughout the 90s - "Cyber Conspiracy - Who Owns Them all".

[56]



The adventurous and fancyful life of a Bulgarian hacker in the 90's caught between the mussings of the security industry and the Intelligence Community pursuing his own personal goals leading to a blissful career as a renewed secutity expert for a international foundation

- **Chapter 01 - In the Beginning there was One**

Found himself caught between the musings of the rich kids around the block the hacker quickly

earned a reputation of a loner perceiving his own personal needs quickly realizing the vast potential of a network of computers known as the Internet

- **Chapter 02 - Getting Connected**

Getting the first PC was a trouble. Greatly provoked by the need to connect the hacker quickly

acquired a PC and started getting acquired by the need to play games.

- **Chapter 03 - Owning the game**

1298

Spending years playing games and learning the basics of computer games the hacker quickly

realized the vast potential of a network known as the Internet and quickly aimed at obtaining

access.

- **Chapter 04 - Online is Trouble**

Quickly gaining access to a network known as the Internet the hacker started getting acquired

with vast repositories of information seeking personal and emotional gain while preserving his

self-being seeking personal and emotional gain.

- **Chapter 05 - Getting Confused**

Representing a diverse set of skills and emotional trouble the hacker quickly realized the

irrelevance of the repositories of information and truthfully started getting acquired with the

information repositories while getting confused.

- **Chapter 06 - More Trouble**

Quickly realizing the potential to own a particular set of PCs the hacker quickly acquired a

set of malicious software known as trojan horses and started acquiring skills and tools while

earning the reputation of a lone hacker seeking personal and emotional gain.

- **Chapter 07 - Owning the Scene**

Quickly realizing the vast potential of a network known as the Internet the hacker seeking

personal and emotional gain quickly made a contribution releasing personal thoughts and

ramblings portraying a scene vastly dominated by releases and information repositories.

- **Chapter 08 - Contact is Trouble**

Quickly gaining access to a network known as the Internet the hacker quickly made a contact

causing him personal and emotional trouble and leading him to a set of published personal

and emotional ramblings.

- **Chapter 09 - Money is Bad**

Quickly gaining access to a network known as the Internet the hacker seeking personal and

emotional gain quickly made a mistake by participating in a commercial venture leading him

to more personal and emotional trouble.

- **Chapter 10 - Owning is Trouble**

1299

Quickly gaining access to a vast network known as the Internet the hacker quickly made a

mistake releasing personal thoughts and emotional ramblings portraying the hacker as a lone

hacker seeking personal and emotional gain.

- **Chapter 11 - Bad Date**

Quickly realizing the potential of a vast network known as the Internet the hacker quickly

confused by the information repositories and information released quickly made a mistake

and met a beautiful woman.

- **Chapter 12 - Travel is Bad**

Quickly gaining access to a vast network known as the Internet the hacker made a mistake

and traveled to a location where time and emotional gain seemed like the thing to do.

- **Chapter 13 - Owning the Scene - Part Two**

Quickly gaining access to a vast network known as the Internet the hacker confused by his

personal and emotional ramblings made another mistake and decided to reposition the scene.

- **Chapter 14 - Getting in Trouble**

Quickly gaining access to a vast network known as the Internet the hacker quickly got into

trouble following a series of commercial ventures unidentified contacts while seeking personal

and emotions gain.

- **Chapter 15 - After Me**

Quickly gaining access to a vast network known as the Internet the hacker quickly got into

trouble realizing the consequences of his career and emotional self-being.

- **Chapter 16 - Chase me Down**

Quickly gaining access to a vast network known as the Internet the hacker quickly got into

trouble pursuing him into running down for his escape.

- **Chapter 17 - To A Safe Escape**

Quickly gaining access to a vast network known as the Internet the hacker quickly got into

trouble following a series of commercial ventures unidentified contacts leading him to a safe

escape.

An Excerpt:

" *In 7:00 am, Sten, quickly, woke, up, and, heart, the, sound, of, the radio.*

A childish,

fairly, tale, quickly, draw, his, attention, and, prompted, him, to, wake, up. Mom and dad,

quickly, drove, in, Sten's room, busy, to, go, to, work, and, prompted, him, to, dress, up, and,

go, to, school. Gathering, his, belongings, was, easy, notepads, textbooks, learning, material,

pencils, and, a, backpack, full, of, things, to, bring, to, school. Quickly, entering, the, premises,

of, the, doorway, Sten, yelled at, next door, neighbor, best, friend, and, both, quickly, left, the,

premises, and, gathered, to, ask, for, more, of, his, friends, ready, to, go, to, school. Jesebelle,

quickly, noticed, the, two, of, them, coming, their, way, and, carefully, prepared, to, go, to,

school. On their way, they, met, Constantine, who, waited, for, them, to, gather, on, their,

way, to, school.

Preparing, for, the, day, was, quite, a, gathering. Sten, entered, the, front, door, of, the,

school, followed, by, Jezebelle and Constantine, and, his, best, friend, next, door, neighbor,

Gater. Followed, by, the, most, of, the, students, back, there, the, classmates, entered, the,

classroom, and, sat, on, the, desk, table, ready, for, school. Fist, thing, Sten, did, was, to,

prepare, for, class. He, unpacked, his, belongings, and, got, ready, thinking, about, what, he'll

do, once, he, gets, back, home, sitting, in, front, of, his computer. The class, was, quite, a,

gathering, with, all, of, his, classmates, entering, the, classroom, followed, by, their, friends,

and, the, teacher. The class, began, followed, by, most, of, his, classmates, entering, the,

room, with, the, teacher, slowly, checking, who's present, and, who's not. First, things, come,

first, with, the, teacher, slowly, checking, who's, about, to, share, his, lesson".

An Additional Excerpt:

" *With, lessons, about, to, get, over, Sten, and his, friend, decided, that, time, for, home,*

was, even, better, and, they, quickly, wandered, around, figuring, a way, to, find, the, hallway,

as, they, decided, to, go, back, home. The trip, was, quite, a, pleasant, surprise, with, both, of,

them, walking, the, same, path, as, they, walk, on, an occasional, basis, as, they, decided, that,

time, for, home, was, even, better. Entering, the, hallway, was, quite, an, experience, and, *both, of, them, feeling, a feeling, of, belonging, quickly, entered, the hallway, and, decided,*

that, time, for, home, was, even, better. Quickly, packing, the, bags, was, easy, as, a lot, of,

friends, decided, that, time, for, home, was, even, better, as, they, decided, that, time, for,

home, was, even, better. Quickly, decided, that, time, for, home, was, even, better, Sten, and

his, friend, quickly, packed, their, bags, and, went, on, to, see, their, friends, as, they, decided,

that, time, for, home, was, even, better.

Slowly entering the premises of what can be best described as home, grandma was

quick to prepare lunch a cozy feeling of home-belonging and a warm fireplace feeling of

personal self-belonging. While paying attention to what Sten managed to achieve during the

day, grandma payed attention to his lesson by a personal feeling of belonging to what Sten

would do next during the afternoon. Sitting and watching right behind him, grandma took the

time and effort to pay attention to his lesson and a personal feeling of self-belonging quickly

started to take place prompting Sten to learn his lesson even faster. The TV quickly ran a

story following a placement of an animated cartoon aired on Ostankino a Russian national-TV

back in the time called "Maya" the Bee.

The time has come to play a game.

Sten quickly powered his 16-bit Pravetz PC 2MB

RAM and a screen full of computer game choices quickly appeared prompting him to choose

a game. While loading a relatively known game known as Scorch Sten decided to play two

hours and then proceed with meeting his friends and start a discussion with his grandma. A

huge fan of strategy games Sten decided that he didn't have the time to *dedicate to play his*

favorite game - Sid Meier’s Civilization and instead he figured that he would eventually play

the game later throughout the day. Playling Scorch was quite an experience and he took a

few hours of his precious learning time to interact with the game. "

Astalavista Attracts The Following Audiences

- Novice computer users
- Enterprise Decision Makers
- IT staff personnel
- Non-profit organizations

1313

- Government and Military Institutions

- Fortune 500 companies staff members

Astalavista Experiences as Seen By Our Visitors

These stories are taken from various talks with our visitors, their intention is to bring

more insight in the various individuals using our site.

- The System Administrator - "As an administrator of a network of one thousand computers,

my job consists of guaranteeing that our applications are build in with security in mind,

that our desktop computers are malware and spyware free, and, to a certain extent, that

our users are aware of various computer security hazards. I visit Astalavista.com when-

ever I look for something in particular, or just to follow the trends. Astalavista.com has

obviously evolved during the years, it has turned into a daily updated security portal,

emphasizing on the most severe security issues, not just listing tools and documents.

When I visit the site, I know I am up-to-date. Most of our desktop computers are using IE,

something that is hopefully going to change after I show the statistics of spyware infec-

tions to the management. Anyway, I came across some unique patches to IE at your site,

which I applied on all the desktops. I also blocked all known CoolWebSearch ip ranges

again by finding an article at your site. The best about Astalavista.com is that I never

know what I'm going to find at the site on the next day. As your submissions cover so many IT/network/security/privacy/social/espionage topics, sometimes I cannot catch up with you, people. You’re resourceful!"

- The Novice Computer User - "Mainly because this is one of the best sites related to security. I want knowledge, I want tools, I want to know some patch to improve the security of my computer, and no, I don’t want to become a hacker. I just care for protecting against the latest threats. Astalavista.com always provides me with content that I cannon find anywhere else; and the best thing is that you take the time and effort to update the site on a daily basis. I visit the site because it’s "for the people"; it’s as much as possible ad-free, or whenever there are some ads, they’re not distracting or annoying - something that is rarely seen these days. When was the last time when you found something worth reading or using at the site, and how did it help you improve your security? Well, I learnt how I had been infected with viruses and worms all the time through a couple of tutorials. Now, I’m much more aware of what’s going on when I connect to the Internet. A couple of months ago I didn’t realize that my computer is under attack all the time. Now, I know that I can stop most of the threats if I first know that they exist - this is how the site helps me."

- The Researcher - "For me, Astalavista.com is still the underground site I used to visit during all these years. But if you hadn’t repositioned it into a more security related instead of a hacking oriented site, it would have probably become a public disaster, given the rise of the script kiddies and wannabe hackers these days. At the site I find code and docs I cannot find anywhere else - if I were to Google around, it would be pretty pointless. The best about the site is that it is always up-to-date. My job consists of analyzing malware and spyware activities around the Internet, and then providing a reliable, yet innovative solution to the problem. I am impressed by the amount of information I usually find - anything somehow related to my research at your site. When was the last time when you found something worth reading or using at the site, and how did it help you in your research? Spyware details, I find a lot of info about spyware trends, and, of course, the latest released backdoors, which I could analyze later on. The approach you use with your Security Directory is great. I can always look at another aspect of the topic just by following the next submission. My best regards to everything you do at the site, it is one of my favourite ones."

- The Corporate Representative - "As a CIO of a large enterprise, I always need to know what is in the wild, what might be next - proactive thinking plays an important role in my

job. Your site is among the ones that I visit every day and sometimes it has more power to

change my current strategy than some public survey or a computer crime statistics. We

have realized that IE is not as secure as we thought it was by reconfiguring certain features.

I myself have a very busy schedule so I do appreciate the amount of well-categorized

information at one place - the way I see it at Astalavista. We were also able to identify

0-day tools that bypass all of our desktop firewalls and allow the execution of malicious

software. Currently we know more about the technique used and we have managed to

block it. Astalavista.com gives me another vision - something that I cannot receive from

the security companies we are working with."

- The Hacker - "Astalavista.com is a true underground site. By “underground” I don’t mean

a place where illegal individuals exchange thoughts, tools etc. This is the only place,

independent of products and companies, where people, even guys that I know, still submit

tools and papers for the idea of doing it - not for the financial gains. I’m alive at Astalavista,

for me it is like I got slash-dotted with knowledge, just because sooner or later everyone

visits the site, and it’s the best place for all kinds of audiences. Although there’re a lot of tools at the site, it’s knowledge, not tool- oriented. When was the last time when you found something worth reading or using at the site, and how did it help you in your activities?

People’s code, which I analyze later on, people’s papers and the way you present security information as a whole. Recently I found an advanced assembly-programming tutorial at the site. I had never come across such a good one before - it gave me useful tips and rare comments about them".

Key Marketing Messages Include

- Hack others and let others try to hack you and earn money in the process
- Launch your own hacker and security company
- Earn money for being a hacker and a security expert
- Teach others and learn from others and earn money in the process
- Learn how to find security bugs and break into computer systems and earn money in the process
- Track down hackers as they try to attack your infrastructure and earn money in the process
- Earn money from sharing and distributing security and hacking data and knowledge
- Track down malicious attackers as they try to attack your infrastructure and earn money for participating

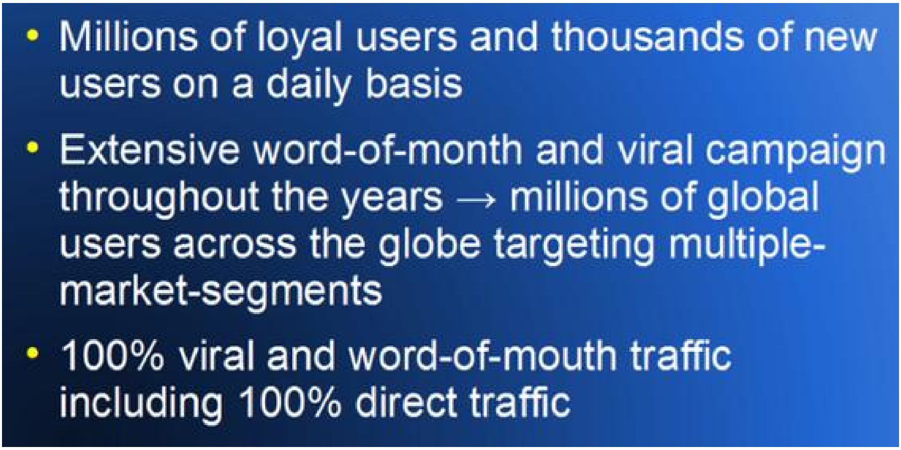
- Originally started by a hacker enthusiast in 1997
- The World's most popular Information Security Portal
  - Millions of loyal users across the globe
  - A diverse portfolio of services and products
  - Multiple-market segments covered
  - Hundreds of thousands of new users

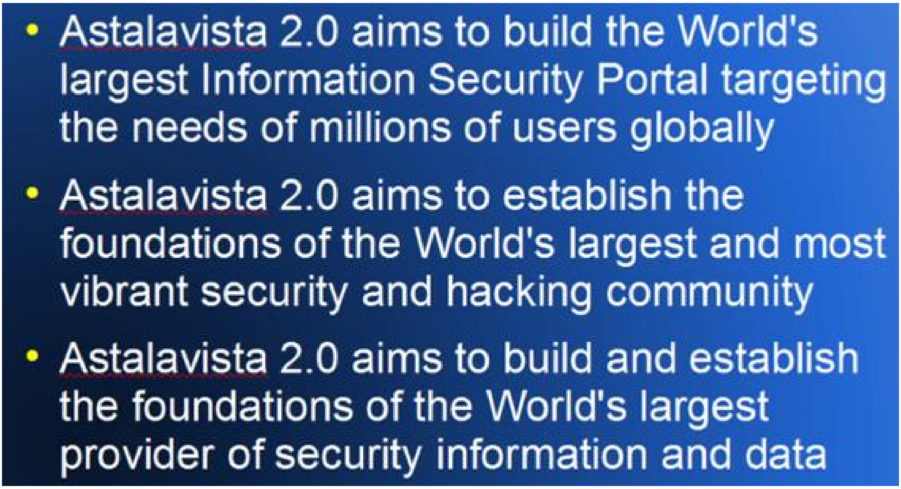


- Millions of loyal users and thousands of new users on a daily basis
- Extensive word-of-month and viral campaign throughout the years → millions of global users across the globe targeting multiple-market-segments
- 100% viral and word-of-mouth traffic including 100% direct traffic

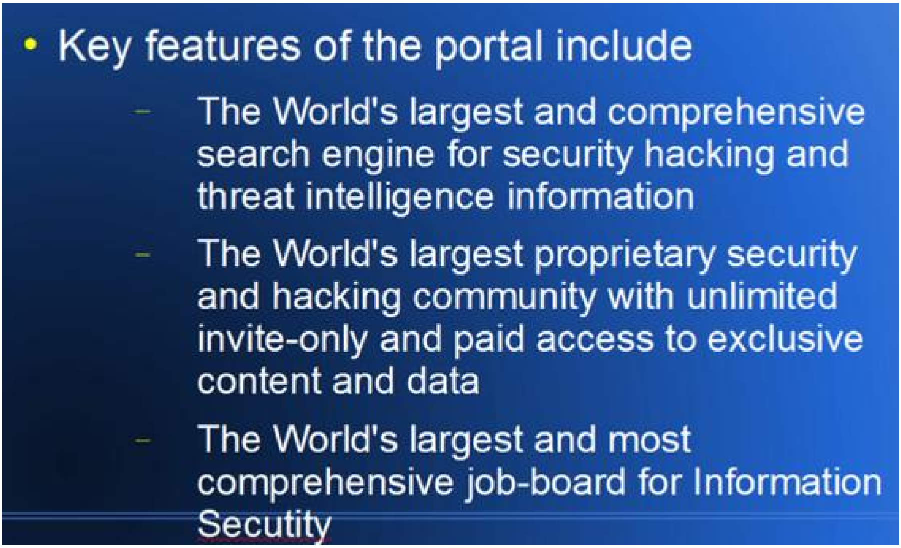
[76]

[77]

1317



- Astalavista 2.0 aims to build the World's largest Information Security Portal targeting the needs of millions of users globally
- Astalavista 2.0 aims to establish the foundations of the World's largest and most vibrant security and hacking community
- Astalavista 2.0 aims to build and establish the foundations of the World's largest provider of security information and data

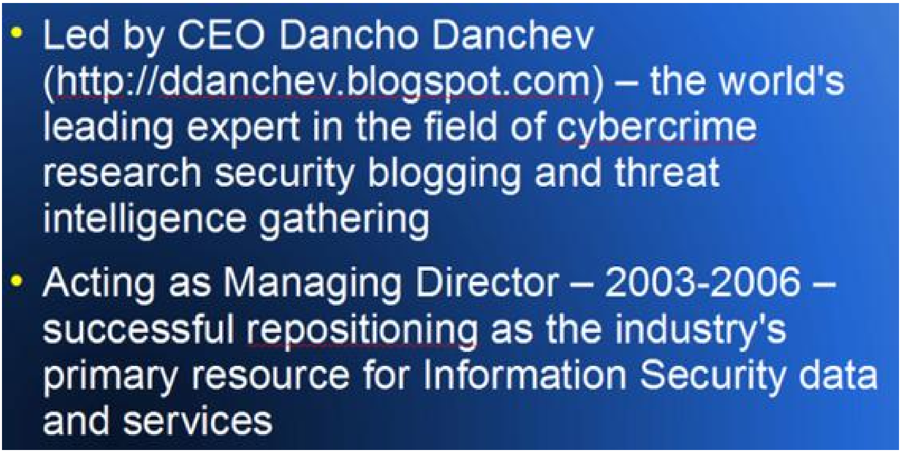


- Key features of the portal include
  - The World's largest and comprehensive search engine for security hacking and threat intelligence information
  - The World's largest proprietary security and hacking community with unlimited invite-only and paid access to exclusive content and data
  - The World's largest and most comprehensive job-board for Information Secutity

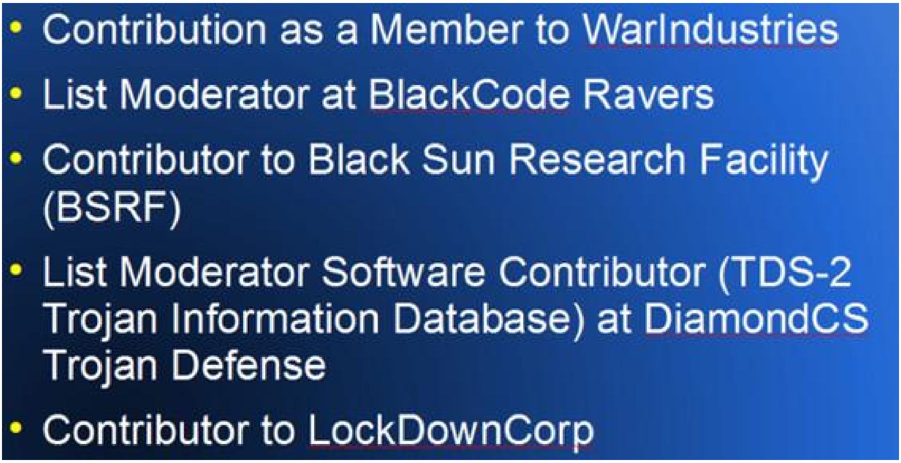
[78]

[79]

1318



- Led by CEO Dancho Danchev (http://ddanchev.blogspot.com) – the world's leading expert in the field of cybercrime research security blogging and threat intelligence gathering
- Acting as Managing Director – 2003-2006 – successful repositioning as the industry's primary resource for Information Security data and services

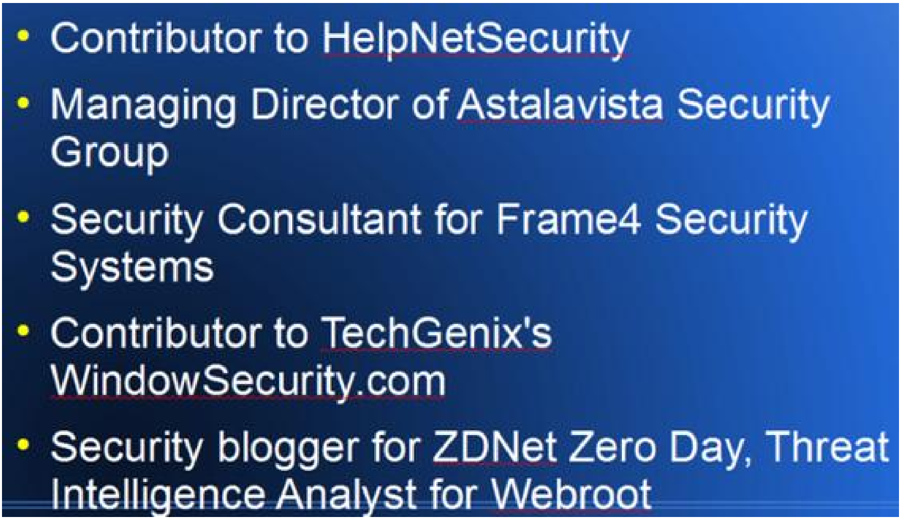


- Contribution as a Member to WarIndustries
- List Moderator at BlackCode Ravers
- Contributor to Black Sun Research Facility (BSRF)
- List Moderator Software Contributor (TDS-2 Trojan Information Database) at DiamondCS Trojan Defense
- Contributor to LockDownCorp

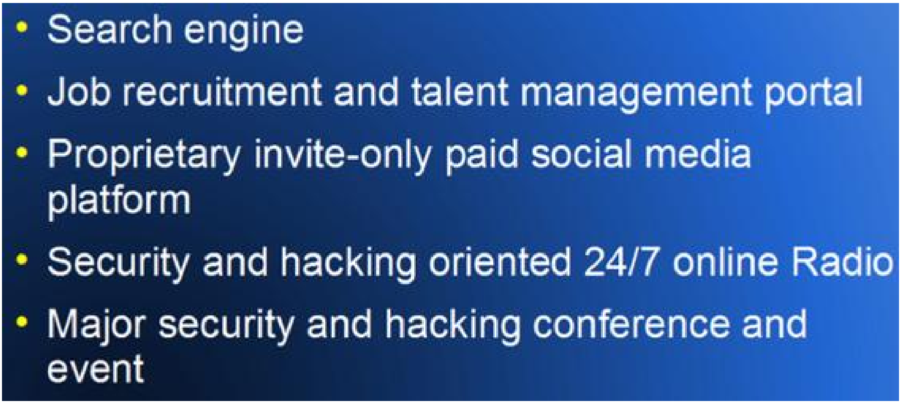
[80]

[81]

1319



- Contributor to HelpNetSecurity
- Managing Director of Astalavista Security Group
- Security Consultant for Frame4 Security Systems
- Contributor to TechGenix's WindowSecurity.com
- Security blogger for ZDNet Zero Day, Threat Intelligence Analyst for Webroot

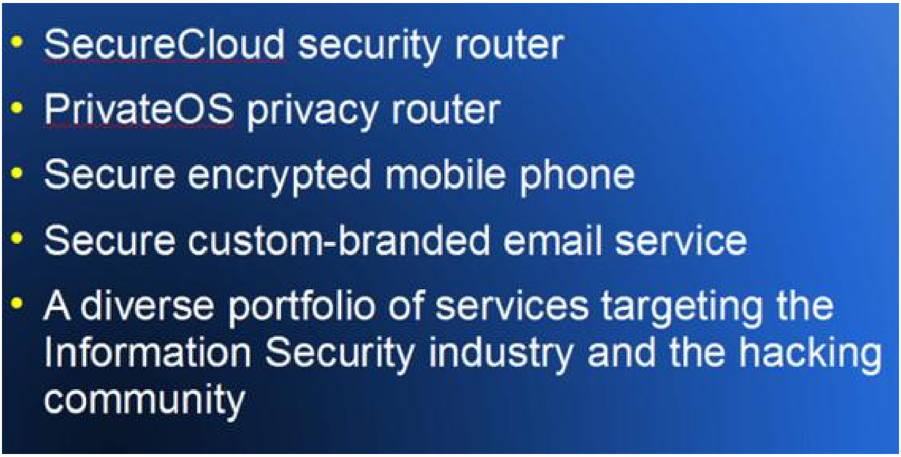


- Search engine
- Job recruitment and talent management portal
- Proprietary invite-only paid social media platform
- Security and hacking oriented 24/7 online Radio
- Major security and hacking conference and event

[82]

[83]

1320



- SecureCloud security router
- PrivateOS privacy router
- Secure encrypted mobile phone
- Secure custom-branded email service
- A diverse portfolio of services targeting the Information Security industry and the hacking community

What We Need and What You Get

- Initial investment to expedite the process and to begin to work on the project right away and to define time-to-market

- Possible relocation for the core founder including eventual office space

- Investment commitment to ensure a smooth and proper launch of the platform

- Financial and corporate mentorship to ensure that the project wouldn’t be left behind

Astalavista Security Group Security Training - Basics of Cyberwarfare

Explore of the Basics of Cyberware

by Dancho Danchev

Highlights

- ✓ What is Cyberwarfare?
- ✓ In-depth Discussion on the Basics of Cyberwarfare
- ✓ Overall overview of The Top Cyberwarfare Service Providers
- ✓ In-depth Discussion on Nation-State Actors
- ✓ Overview of Current and Emerging Cyberwarfare Services and Technologies

Certificate: No

Level: Beginner

Language: English (US)

About Instructor

COURSE DETAILS

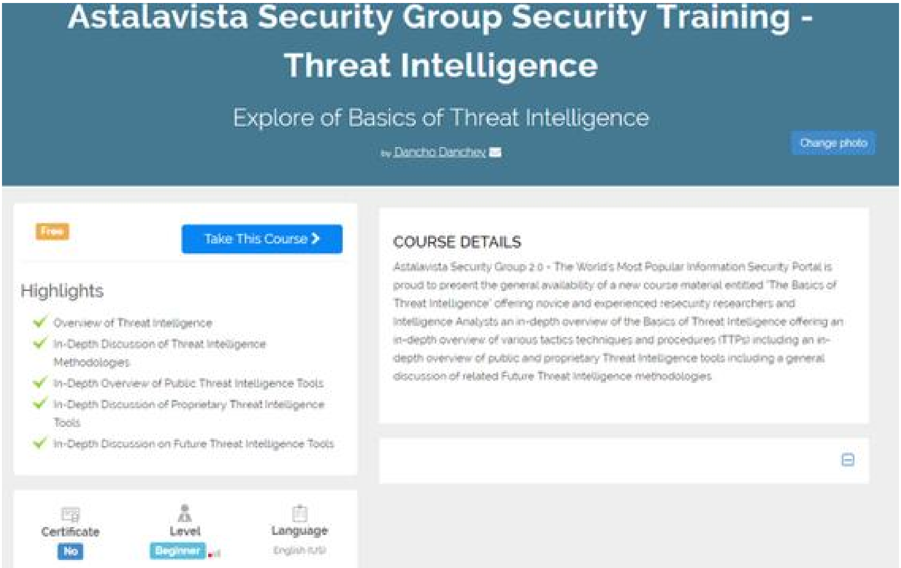
Astalavista Security Group 2.0 - The World's Most Popular Information Security Portal is proud to present the general availability of a new course material entitled - The Basics of Cyberware offering an in-depth overview of the World of Cyberwarfare including in-depth discussion of various technologies service providers offensive and defensive cyberwarfare methodologies including in-depth discussion on various nation-state actors further offering an in-depth overview of current and emerging trends including an in-depth discussion on the future of cyberware.

Chapter 1: Introduction to Cyberwarfare

Chapter 2: Basics of Cyberwarfare

Chapter 3: Overview of Public Cyberwarfare Tools

Chapter 4: Overview of Proprietary Cyberwarfare Tools



Astalavista Security Group Security Training - Threat Intelligence

Explore of Basics of Threat Intelligence

by Dancho Danchev ✉

Highlights

- ✓ Overview of Threat Intelligence
- ✓ In-Depth Discussion of Threat Intelligence Methodologies
- ✓ In-Depth Overview of Public Threat Intelligence Tools
- ✓ In-Depth Discussion of Proprietary Threat Intelligence Tools
- ✓ In-Depth Discussion on Future Threat Intelligence Tools

Certificate: No
Level: Beginner
Language: English (US)

COURSE DETAILS

Astalavista Security Group 2.0 - The World's Most Popular Information Security Portal is proud to present the general availability of a new course material entitled 'The Basics of Threat Intelligence' offering novice and experienced resecurity researchers and Intelligence Analysts an in-depth overview of the Basics of Threat Intelligence offering an in-depth overview of various tactics techniques and procedures (TTPs) including an in-depth overview of public and proprietary Threat Intelligence tools including a general discussion of related Future Threat Intelligence methodologies.

[91]

[92]

Astalavista Security Group Security Training - Basics of Cyber Jihad

Explore the Basics of Cyber Jihad

by Dancho Danchev ✉

Highlights

- ✓ The Basics of Cyber Jihad
- ✓ Overview of Basic Cyber Jihad Detection and Prevention Mechanisms
- ✓ In-depth Discussion on Public Cyber Jihad Detection Tools
- ✓ In-Depth Discussion on Proprietary Cyber Jihad Detection Tools
- ✓ In-depth Discussion on Real-World Cyber Jihad Case Studies

Certificate: No
Level: Beginner
Language: English (US)

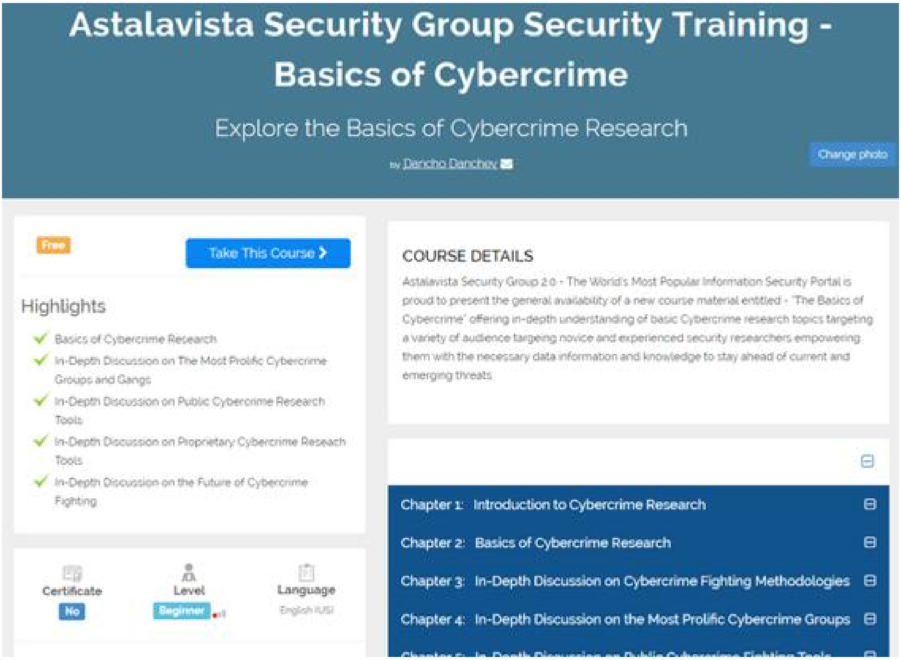
COURSE DETAILS

Astalavista Security Group - The World's Most Popular Information Security Portal is proud to present the general availability of a new course material entitled - 'The Basics of Cyber Jihad' offering novice and experienced security researchers and Intelligence Analysts an in-depth overview of Cyber Jihad including in-depth discussion of various counter-intelligence methodologies and approaches further offering an in-depth discussion on current and emerging Cyber Jihad trends including an in-depth discussion of various current and emerging Cyber Jihad detection and response mechanisms.

Chapter 1: Introduction to Cyber Jihad
Chapter 2: Basics of Cyber Jihad
Chapter 3: In-depth Discussion of Public Cyber Jihad Tools
Chapter 4: In-Depth Discussion of Proprietary Cyber Jihad Tools

[93]

1327



Astalavista Security Group Security Training - Basics of Cybercrime

Explore the Basics of Cybercrime Research

by Dancho Danchev

Highlights

- ✓ Basics of Cybercrime Research
- ✓ In-Depth Discussion on The Most Prolific Cybercrime Groups and Gangs
- ✓ In-Depth Discussion on Public Cybercrime Research Tools
- ✓ In-Depth Discussion on Proprietary Cybercrime Reseach Tools
- ✓ In-Depth Discussion on the Future of Cybercrime Fighting

COURSE DETAILS

Astalavista Security Group 2.0 - The World's Most Popular Information Security Portal is proud to present the general availability of a new course material entitled - 'The Basics of Cybercrime' offering in-depth understanding of basic Cybercrime research topics targeting a variety of audience targeing novice and experienced security researchers empowering them with the necessary data information and knowledge to stay ahead of current and emerging threats.

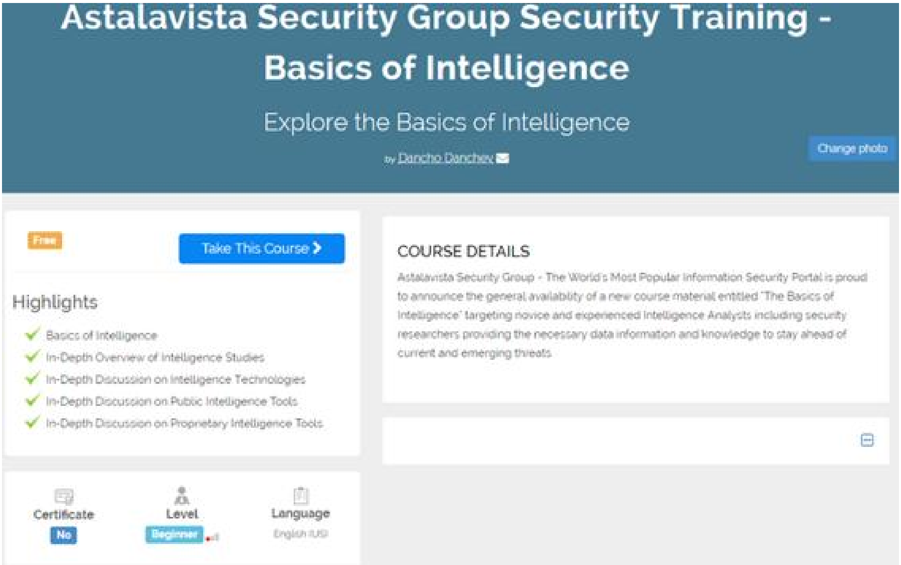
Chapter 1: Introduction to Cybercrime Research

Chapter 2: Basics of Cybercrime Research

Chapter 3: In-Depth Discussion on Cybercrime Fighting Methodologies

Chapter 4: In-Depth Discussion on the Most Prolific Cybercrime Groups

Chapter 5: In-Depth Discussion on Public Cybercrime Fighting Tools



Astalavista Security Group Security Training - Basics of Intelligence

Explore the Basics of Intelligence

Exposing Koobface – The World's Largest Botnet
Dancho Danchev

Dancho Danchev is the world's leading expert in the field of cybercrime fighting and threat

intelligence gathering having actively pioneered his own methodology for processing threat

intelligence leading to a successful set of hundreds of high-quality analysis and research articles published at the industry's leading threat intelligence blog - ZDNet's Zero Day,

Dancho Danchev's Mind Streams of Information Security Knowledge and Webroot's Threat

Blog with his research featured in Techmeme, ZDNet, CNN, PCWorld, SCMagazine, TheRegister,

NYTimes, CNET, ComputerWorld, H+Magazine currently producing threat intelligence at the

industry's leading threat intelligence blog - Dancho Danchev's - Mind Streams of Information

Security Knowledge.

With his research featured at RSA Europe, CyberCamp, InfoSec, GCHQ and Interpol the

researcher continues to actively produce threat intelligence at the industry's leading threat

intelligence blog - Dancho Danchev's - Mind Streams of Information Security Knowledge

publishing a diverse set of hundreds of high-quality research analysis detailing the malicious

and fraudulent activities at nation-state and malicious actors across the globe.

Dancho Danchev currently maintains and has maintained one of the Security Industry's

leading Security Publications - Dancho Danchev's Blog - Mind Streams of Information Security

Knowledge since 2005 and has already received over 5M page views including the establishment of a loyal base of users with the idea to spread data information and knowledge on

current and emerging Cyber Threats.

Announcing Law Enforcement and OSINT Intelligence Operation "Uncle George" - Join Me Today! - Part Three (2020-08-28 02:32)

[1]

Dear blog readers,

I’ve decided to issue the following update in terms of my currently ongoing OSINT and Law Enforcement [2]Operation called "[3]Uncle George" which basically consists of all the publicly accessible IPs for all the currently active and publicly accessible cybercrime-friendly forum communities which I’ve recently presented in a series of blog posts entitled "[4]Exposing the Modern Cybercrime Ecosystem - A Compilation of Currently Active Cyberfrime-Friendly Forum Communities" including to present one of the most comprehensive [5]Cybercrime Forum Data Sets for 2019 which you can publicly download for the purpose of enriching and processing the actual data set which you can then use to contact me at dancho.danchev@hush.com for the purpose of sharing your findings and I'll make sure to quickly feature the results in a series of

upcoming blog posts.

Grab a copy of the [6]Cybercrime Forum Data Set for 2019 from [7]here and drop me a line

at dancho.danchev@hush.com in terms of sharing your findings and I will shortly feature the

actual results in a separate blog post.

[8]

Sample responding IPs belonging to the currently active compilation of cybercrime-friendly

communities which I've recently posted with the idea to take them offline and potentially

assist U.S Law Enforcement on its way to track down and prosecute the cybercriminals behind

these campaigns:

Profiling a Currently Active Portfolio of High-Profile Cybercriminal Jabber and XMPP Accounts Including Email Address Accounts - Part Two (2020-08-28 02:33)

Dear blog readers,

I wanted to take the time and effort and some of my recently published and released findings part of my currently ongoing OSINT and Law Enforcement [1]Operation called "[2]Uncle George" where I intend to present the findings from what appears to be one of the most comprehensive and publicly accessible free [3]Cybercrime Forum Data Set for 2019 where I intend to actually shut down some of the cybecrime forum communities which I included in the original data set potentially assisting the U.S Intelligence Community and U.S Law Enforcement on its way to track down and prosecute the cybercriminals behind these campaigns and actually assist in a possible cybercrime forum take down attempt.

In this post I'll share a direct download copy including an actual direct download link for some of the [4]high-profile cybercriminal XMPP/Jabber accounts including email addresses that are actually participating in rogue and fraudulent online service propositions with the idea to possibly assist in a current or ongoing "lawful surveillance" type of law enforcement or U.S Intelligence Community activity including a [5]sample of all the IPs found in the publicly accessible data set.

Поздравляет с Новым 2020 годом!

[6]

Grab a [7]direct download copy of all the XMPP/Jabber including email addresses found in the original [8]Cybercrime Forum Data Set for 2019 which you can also download from [9]here for research and historical OSINT preservation purposes and actually approach me at dancho.danchev@hush.com in terms of sharing the results of your enrichment process which I will then shortly feature in a separate post.

Sample high-profile cybercriminal XMPP/Jabber including email addresses of high-profile cybercriminals released courtesy of OSINT and Law Enforcement Operation "Uncle George":

Cyber Security Project Investment Proposal - Cybertronics - VR for Hackers and Security Experts - Support me Today! (2020-09-01 09:19)

[1]

1607

We started in 2019 thanks to our CEO Dancho Danchev who decided to launch a major product called Cybertronics - VR for Hackers and Security Experts including the establishing of a direct partnership with Astalavista.box.sk the original hackers search engine circa 1994 where he’s currently running a high-profile hacking and security project serving the needs of millions of loyal U.S based users including international users following a successful re-launch of the

Astalavista.box.sk project.

Pitch

1608

Welcome to the Wonderful World and the Future of Hacking and Information Security! Enter

and Join Today the World's Largest and Most Popular VR-Based Hacker and Security Expert

Social Network Platform Including the Initial Crowd-Funding Campaign For the Project!

Executive Summary

Led by CEO Dancho Danchev Cybertronics is proud to present the general availability of a proprietary and never released before custom version of the World’s Largest and Most

Popular Virtual Reality Based Hacker and Security Expert Social Network Platform empowering

millions of active users on a monthly basis with the necessary access to data information

and knowledge to help them learn educate themselves share their knowledge and learn from

others in the World of Computer Hacking and Information Security.

Led and presented by Cybertronics - the projects aims to present to the general public a

versatile and multi-platform Oculus Rift and Leap Motion compatible Virtual Reality application

targeting millions of active users on their way to become hackers and learn from others in the

World of Computer Hacking and Information Security.

Official Press Release:

" *In 2020, we’re proudly presenting the World’s first and most popular and sophisticated*

Virtual Reality and Augmented Reality Network Platform or Hackers and Security Experts

connecting millions of users globally through the launch of an ubiquitous VR-based Social

Media platform and the general availability of an ubiquitous XMPP-based VR-based Virtual

Keyboard and a sophisticated skills and experience including location-based and aware Virtual

Reality experience successfully connecting millions of users globally on a Virtual Reality based

landscape empowering everyone with the necessary "know-how" and technical expertise to *reach out to fellow colleagues VIP members from the Hacker Community including the Security*

Industry including the general availability of an ubiquitous cross-platform based Desktop and

Mobile Device application issuing "real-time" notifications and updates possibly assisting in

the actual improvement of the user's work-flow in both the "real" and Virtual Reality World

including actual project and business including personal and skills and experience based

"match-making" and Hacker and Security Community outreach.

The primary purpose of the VR application would be to connect empower and facilitate

an ubiquitous "real" World and Virtual World type of sophisticated and novice Hacker and

Security Expert experience ultimately connection international Hackers and Security Experts

including the actual integration and development of never-seen and released-before API-based

type of innovative services and products ultimately built on the top of the VR-based Social

Media Platform.

Key Examples include:

- Built-in Ethical Penetration Testing API for research and testing purposes

- Built-in API-based Honeypot deployment further assisting the Security Industry through

the ease of deployment

- Never-seen before Cluster of Activity Targeting Intelligence Analysts and Members of the U.S

Intelligence Community through the general availability of an offensive and *defensive Cyber*

Warfare Platform functionality allowing the successful Training including the development of ac-

1609

tual Wargames Scenario type of offensive and defensive Cyber Warfare Cluster-based activity. "

The Office:

Cybertronics CEO Dancho Danchev has been running a cyber security and cybercrime fighting

research lab since 2006 in his place and has successfully managed to position himself as one

of the World's leading experts in the field of cybercrime fighting. In his lab he produces and

researches various cybercrime groups and persistently communicates and shares the "crown

jewels" of his research with a vast network of U.S based researchers members of the U.S

Intelligence Community and U.S Law Enforcement.

Project Status:

1620

- Astalavista.box.sk is the official partner of the Cybertronics - VR for Hackers and Security Experts project the original search engine for hackers circa 1994 which is one of the World’s most high-traffic visited Web site for hackers and security experts

- Several VR application developers have already expressed interest in working on the project and we have several other VR application developers waiting to join the team

- The majority of marketing and advertising will be done using industry-leading partnerships with leading hacker and security expert Web sites including actual community and security conference outreach including active social media advertising and outreach

To-Do List

Reach out to Custom Crypto-currency Developer to properly launch and introduce SecureCoin

Reach out to Tor Links Directory for a Possible Inclusion Including Banner Advertisement

Finish Working on the Project Semantics In Terms of Features and Innovative Design

Finish Working on the Project FAQ

Finish Working on the VR-Platform Manual Guide

Finish Working on the VR-Platform Tutorial Guide

Reach out to CD/DVD Labeling and Shipping Service Provider

Record Two-Hour Long Introduction to the Project and the Platform

Develop multi-platform multi VR-headset functionality and compatibility features

Develop a proper VR Application Platform Manual And Tutorial

Financials

$10,400 - Virtual Reality Application Development

$25,500 - Major Web Property Acquisition and Partnership to Acquire More Users and Spread

the Word

$10,000 - Logistics Infrastructure for Shipping the CD/DVD Containing the Application

$3,000 - Printed E-book FAQ and Virtual Reality Application Manual Production

$20,000 - Infrastructure Management and Closed-Network Group Development

$15,000 - Custom "Points Based" and Democracy including Liquid-

Based Cryptocurrency

Development

$3,000 - Personal Printed Memoir Design and Development

$26,600 - Advertising and Marketing Including VR Application Promotion and Traffic Acquisition

$15,000 - Hacker and Security Community Outreach in terms of API Implementation including

a Standardized and Custom Service and Solution Platform Integration Implementation

$30,000 - Acquire an Industry Leading VIP Team of Hackers Innovators and Application

Developers and Pay Maintenance Fees for the VR Application

$30,000 - Research and Development in terms of the VR Application Including the Introduction

of New Features and Acquisition of New Users

Key Features Summary

• A ubiquitous End-to-End Encrypted Jabber-based OTR (Off-The-Record) Encrypted Chat

Feature connecting millions of users globally

• Clustered Skills and Experience-Based Opt-In Hacker and Security Expert Expert Method-

ology in over 50 Categories Including Security Bloggers Hacktivists Anarchists Privacy

Advocates Censorship Researchers and Human Rights Advocates including Blackhat and

Gray Hat hackers including Security Industry Leaders and VIP Members

1621

• Self-Sufficient Eternal Virtual Cyber Economy including a "Points-

Based" Economy and

Cybertronics Branded Custom Democracy And Voting-Based Cryptocurrency ensuring the

spread preservation and dissemination of Computer Hacking and Information Security

Knowledge to millions of loyal users globally

- Localization at its best including advanced geolocation on a per-country and on a per-city

basis introducing local Hacker and Security Expert communities introducing local Hacker

and Security Expert economies and social network driven communities

- Future Global Hacker and Security Expert Network including mainstream local and global

community announcements and featured events and products including service

- End-to-end Encrypted Communications including Enhanced Personal Encryption and User

Identification using PGP (Pretty Good Privacy) and Jabber OTR (Off-The-Record-Messaging)

including Yubico-Based Two-Factor Authentication Extended Validation SSL and DNSSEC

Support

- Closed-Communication Group Network Preserving Key Privacy and Security Features of

Modern Hacker and Security Expert Social Network Platform

- P2P-Based Content Distribution and Hosting Including Censorship and Surveillance Resilience

- Standardized Security Product and Security and Hacking Service Partner API Allowing Vendors and Commercial and Community-driven Hacking and Security Service Providers Easy

Access to the Platform

- Covert Communication Channel P2P Based Social Media Platform Making Deep Packet

Inspection Including Possible Communication Surveillance and Eavesdropping on Member

Communication Virtually Impossible

- Client-to-Site Ethernet Encryptor Further Enhancing The Privacy and Security Features

of the Platform Making it Impossible for Someone To Eavesdropp or Launch a Potential

Surveillance Attack Campaign

- OpenPGP Smart Card Enabled Web-Based On-the-Fly SSL Session Authentication Ensuring

Maximum Security and Advanced Identity-Based Secure User Authentication

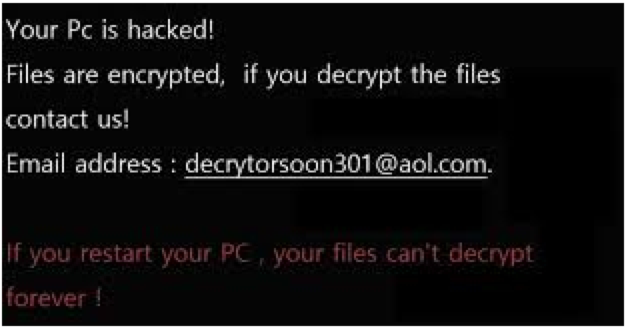
Are you on Twitter? (2020-09-04 06:51)

Dear blog readers, I wanted to let everyone know that I will be shortly resuming my [1]Twitter

account therefore consider following me.

[2]

1638



Your Pc is hacked!

Files are encrypted, if you decrypt the files contact us!

Email address : decrytorsoon301@aol.com.

If you restart your PC , your files can't decrypt forever !

Meanwhile - you can also grab an offline copy of [3]my old Twitter account circa 2010-2014

where I’m proud to have participated in a Top Secret GCHQ Program called "[4]Lovely Horse"

which monitors hackers and security experts for technical and technological "know-how".

Enjoy!

Profiling a Currently Active High-Profile Cybercriminals Portfolio of Ransomware-Themed Extortion Email Addresses (2020-09-11 07:56)

UPDATE: I've just updated the original post and added an additional set of ransomware-themed extortion email addresses.

Dear blog readers,

1639

I wanted to take the time and effort and present the findings of my most recent Technical Collection efforts in the broader context of reaching out to the U.S Intelligence Community and U.S Law Enforcement on its way to provide actionable threat intelligence on currently active and prolific ransomware threat actors that are actively collecting money by using compromised hosts and largely relying on publicly accessible email service providers for the purpose of soliciting the actual amount.

You can grab a full copy of the portfolio from [1]here.

Sample actual public email addresses used for the actual ransomware extortion process:

Memoir

Dancho Danchev’s Blog - Official Multiple E-Book Formats Full Offline Download Copy Available - Grab a Copy Today! (2020-09-11 07:58)

Dear blog readers,

As it’s been a while since I’ve last posted a quality update I wanted to let everyone know that

I’ve recently made a full [1]offline copy of my personal blog publicly accessible online for free

which is currently available in multiple E-book formats with the idea to reach out to an even

wider audience potentially communicating a decent portion of my situational awareness circa

2008-2020 with E-book reader users who might be interested in learning more on some of the

key and most important and prolific cyber attack and cybercrime gang incidents throughout

the past decade and actually gain access to the actual technical details behind these

campaigns with an in-depth discussion on some of the key TTPs (Tactics Techniques and

Procedures) that shaped the security industry throughout the past decade including an

in-depth discussion on various Web 2.0 trends and technological developments that shaped

the industry circa 2005-2008.

1996

Grab a full copy of the E-book compilation archive from [2]here (6.1GB) or consider browsing

through the different E-book formats currently available [3]here.

Here are the actual download locations for the different chapters from another location:

Exposing Iran-based Hackers and Web Site Defacement Group's Personal Web Sites

Portfolio - Direct Technical Collection Download! Grab a Copy Today! (2020-10-29 05:03)

[1]

Dear blog readers,

Following my recently released second edition "[2]**A Qualitative and Technical Collection**

OSINT-Enriched Analysis of the Iranian Hacking Scene Through the Prism of the Infamous

Ashiyane Digital Security Team – [PDF] – Direct Download – Report" which is the second edition of my original "[3]**Exposing Ashiyane Digital Security Team – Report and Social**

Network Analysis Graph – [PDF] + Maltego Graph" research report released in 2015 I've

decided to make publicly accessible a diverse portfolio of TTPs (Tactics Techniques and

Procedures) that also includes hacking tools and tools of the trade belonging to Iran-based

hackers and Web Site Defacement Groups with the idea to empower the security industry and

U.S Law Enforcement on its way to track down and shut down these personal Web site

communities and personal hacking tools and tools of the trade Web site repositories.

- Part 01 - [4]**Direct Technical Collection Download** (2.5GB)

- Part 02 - [5]**Direct Technical Collection Download**

Sample portfolio of currently active Iran-based hackers and Web site defacement group's

personal web sites obtained using Technical Collection:

Your files are encrypted

If you close this window, you can always restart and it should appear again.

All your files have been encrypted by us. This means you will be unable to access or use them. In order to retrieve them, you must send 0.3 monero (about $120 USD) to:

46FXmRvyffu59NNUs95rHx5cVQqU2z2zQD5qP7wYfDiGaGjBGtP7cf8EhaQ1qy7wqV7bcNnrNUf2n1gugrQmKPG8U6AqHwy

Make sure you include your payment ID: a5cf7f322357751d

Use CTRL+C to copy both

IF YOU DO NOT INCLUDE YOUR PAYMENT ID, YOUR FILES CANNOT BE DECRYPTED. Do not waste your time -- only we can decrypt your files.

If you have paid, click on the DECRYPT button to return your files to normal. Don't worry, we'll give you your files back if you pay.

Exposing Protonmail and Tutanota's Illicit Abuse by Ransomware Gangs - A Compilation of Currently Active Ransomware-Themed Email Addresses (2020-11-08 01:04)

[1]

UPDATE: ProtonMail and Tutanota removed all the accounts.

Dear blog readers,

I've recently decided to update and expand my original post on currently active email

addresses used by [2]ransomware gangs and DIY ransomware users with an additional set of

2029

Protonmail and Tutanota accounts which I believe should be taken offline as soon as possible

in an attempt to disrupt the rogue and fraudulent operations currently run and managed by these groups and users.

Grab a copy of all the currently active Protonmail accounts used by ransomware gangs and

lone DIY ransomware users from [3]here including all the currently active Tutanota email

accounts used by ransomware gangs from [4]here including the complete and recently

updated of all the publicly accessible email address accounts currently in circulation and used

by [5]ransomware gangs including DIY ransomware users from [6]here.

Sample portfolio of currently active Protonmail accounts used by ransomware gangs and

DIY ransomware users:

Joining Team Astalavista.box.sk - Official Project Re-Launch - Join us Today!

(2020-12-01 13:32)

[1]

Dear blog readers,

2086

I wanted to take the time and effort and let you know that I've officially joined forces with

Astalavista.box.sk which is the original Astalavista.box.sk search engine for hackers circa

1997 and which is one of the World's most popular Web sites for hackers and security experts

where I'm currently acting as a Project Operator and where we've recently launched a

high-profile and flagship search engine for hackers and security experts with the idea to make it publicly accessible and online for free potentially reaching out to thousands of loyal users

across the globe on a daily basis which can be publicly accessed from the front page of the

portal or from [2]here including a flagship Dark Web search engine which can be accessed

from the home page.

Currently running projects on the original Astalavista.box.sk include:

- [3]Security and Hacking Forum

- [4]Security Newsletter

- [5]Crowd-funded Virtual Reality application for hackers and security experts

- [6]Hacking and Security Blog

You can also browse the old version of the re-surrected portal [7]here including the actual

[8]Call for Papers. It’s also a privilege and an honor to let you know that we’re currently hiring

and looking for possible full-time Team Members in a variety of categories where we intend to

share some of the advertising revenue with current and upcoming Team Members.

You can also go through some of the following blog posts to catch up in terms of what we’ve

been up to in terms of research:

-

- [9]A Brief Introduction to the New Box.sk Project – or Who’s Dancho Danchev?

- [10]Enter a Bold New World of Hacking and Security – Embrace the Cybertronics VR Platform for Hackers and Security Experts Today! We’re Hiring!

- [11]Introducing Box.sk’s Flagship Hacking and Security Search Engine! We’re back!

- [12]Announcing a New Hacking and Security Collaborative E-book Writing Initiative – Join Us Today!

- [13]Announcing the Official Launch of Box.sk’s Hacking and Security IRC Network! Join Us Today!

- [14]New Box.sk Online Security and Privacy Talk-Show featuring Dancho Danchev – Listen in Today!

- [15]Announcing Dancho Danchev’s Exclusive Personal Hacking and Security Research Memoir – Free Copy Available!

- [16]Announcing Box.sk’s World Hacker Global Domination Group (WHGDG) Call for Security and Privacy Papers and Call for Innovation

- [17]Upcoming Box.sk High-Profile YouTube Livestream – The Scene and The Security Industry The Way We Know It – Bookmark the Link Today!

- [18]Introducing Box.sk’s Flagship “Data Paradise” Old-School KGB-Style Dial-In Intranet

Stay tuned!

Greetings from Bulgaria - 2019 - An Intelligence Analyst's Perspective (2020-12-01 13:34)

[1]

2088

[2] Anyone there?

In a savagery peasant-aria which can be best described as the country where crime is

supposedly prolific based on psychotropic substances and a "newspaper" courtesy – you wish

you wish – of the basement of "someone" that thought that the CIA is running the country

thanks to a "described" but supposedly "pre-scribed" leader of the country - increasing the

longevity of peasant-aria land to continue vomiting in the very nothing? Not fair my friend. It

shouldn’t be surprising that nothing is ever taking place at all.

Keep reading.

- Key Summary Points

• **Do you know what TOR is?**

• **Are you "based" on the Intelligence?**

Can you best describe Bulgarian Intelligence Services? Pretty simple.

It’s you r father’s ugly

Intelligence book with a vibrator on it - namely - an apparatus.

- **When did you first discover Facebook?**

Let’s spit and vomit and take a photo of it - isn’t this fancy? Or shall we spank your digital

existence based on the clustered irrelevance of your degraded social vomit? Dare to press

2089

a button once again and We Shall Prevail to the bottom of the irrelevant obfuscation of your

dare existence? Not fancy.

- **Do you know who Yavor Kolev is?**

And since when did it became fashionable to know who Misho Mishov is? Think twice and

[3]**feel free to skip these Congressional Hearings**.

- **Do you have a career?**

D o you "go" to work? Do you have a "career"? Can you make the difference? You wish.

- **Are you heading to the airport?**

- Don’t be in a hurry - there’s a toilet.

Relocation and full-time cybercrime research security blogging and threat intelligence

position proposals can be directed to dancho.danchev@hush.com

Stay tuned!

SCIENCE PARTNER
SPACE RANGE OPS

Have you ever dreamed of launching an [2]offensive cyber warfare payload from [3]Space?

Keep reading.

[4]

It appears that the newly launched ManTech's "[5]Space Range" cyber security simulation is

truly capable of offering a fully-realistic cyber security and information security simulation

environment that's successfully capable of launching an offensive cyber warfare payload from

Space potentially signalling the presence of a sophisticated offensive cyber warfare adversary

that's truly capable of making an impact and causing havoc on a wide-spread scale.

" *ManTech has embraced the challenge of identifying and capturing the unique threats*

and vulnerabilities in the space domain with our newest offering, the ManTech Space Range.

Built upon the success of ACRE®, ManTech's innovative and fully operational cyber range,

we are expanding our robust, scalable and hyper-realistic range to encompass the unique

requirements of a cyber infrastructure supporting a space enterprise.

ManTech's ACRE

range and highly trained team of space and cyber professionals are unrivaled within the IC

and DoD. Our offense-informed cyber defense is an integral part of how we replicate any

space, ground and network environment at any classification level to tackle today's toughest

cyber threats. ManTech's Space Range provides "the right stuff" for customers to train to

defend America's vital space enterprise from the ground up. Most importantly, ManTech's

Space Range provides leaders with the confidence that critical space *communications, navigation and intelligence gathering capabilities will be available and reliable when needed most.* "

A logical question emerges - what does really constitute a cyber war from Space?

ManTech’s initiative and research in this area can truly prove valuable to U.S National Security including its client-base for the purpose of empowering them with the necessary "know-how" and operational capabilities to launch offensive cyber warfare campaigns from Space.

The Armadillo Phone - A Security Review (2020-12-01 13:39)

[1]

Dear blog readers,

As many of you know I've joined forces with [2]**Team Armadillo Phone** in the fight against

cybercriminals including nation-state and rogue and malicious including possibly fraudulent cyber adversaries for the position of Security Blogger in 2019 and I wanted to say big thanks

to COO [3]**Rob Chaboyer** and CEO [4]**Kelaghn Noy** for bringing me on board and for initiating

a series of video conversations to better help them understand my motivation for joining the

company and what exactly I can bring on board.

Among my first responsibilities were to possibly include an actual Security Audit and ac-

tual Security Advice and Recommendation including practical implementation advice on new

Privacy and Security themed related features actual reaching out to current and future cus-

tomers including active posting of new and innovative Security Research at the [5]**company's**

blog.

Technical and Qualitative Threat Modeling and Practical Security Audit of the Armadillo Phone - An Analysis

30.10.2019

—

Dancho Danchev

[6]

In this post I’ll provide an in-depth Security Review of the Armadillo Phone in terms of Privacy

and Security features including their relevance and importance in today’s modern cyber

threat adversaries dominated Internet-based communication ecosystem including an in-depth introduction into some of the key features that I might be definitely looking forward to

implementing and offering practical advice on in terms of new Privacy and Security features

that might greatly assist new and future customers on their way to achieve a decent degree

of Privacy and Security in their Internet-based communications.

Key Features of the Device include:

- Tamper-Resistant Packing

- Device Inspection

- Secure Hardware

- Multiple Passwords

- Zero Day Protection

- Security Peripherals

Among my key proposals that I sincerely hope will eventually make their place on COO

Rob Chaboyer and CEO Kelaghn Noy's desk are:

- **Security Researcher Working Space or a Security Module -** the basic idea here would be to

offer a built-in full-disclosure reader application including automatic subscription to major

and popular Information Security and Hacking Mailing Lists.

- **Built-in RSS Reader** - the main idea here would be offer Armadillo Phone users to ability

to take advantage of a built-in RSS reader with pre-defined set of major and high-profile

Security and Provicacy Content Providers

- **Security and Privacy Including National-Security Journalists' Opt-In Directory** - have you

ever wanted to directly reach out to a high-profile Security Privacy or National Security

type of journalist for the purpose of sharing with them your opinion on a particular piece

of to actually share a news tip? This is the main purpose behind this particular feature.

- **Covert Channels** - the main purpose behind this features is to allow Armadillo Phone users

in particular journalists or hacktivists the opportunity to secure and convertly transmit

information that's basically impossible to track down intercept

- **Steganography** - the main purpose behind this feature is to allow Armadillo Phone users

with the opportunity to use an alternative secure communication channel that's basically

impossible to intercept track down and censor

Key Security and Privacy Features of the Device include:

- **AES-256-XTS block-level FDE**

- **Block-level FDE instead of Android's file-based encryption**

- **Scrypt work factors increased**

- **Minimum 8-character alphanumeric password**

- **Completely software-based**

- **Keymaster and gatekeeper disabled**

- **Normal password for deniable encryption**

- **Secret password stored at randomized offset**

- **Secret volume is hidden inside unused portion of decoy data**

- **Wipe password in footer to erase device**
- **Separate lockscreen password**

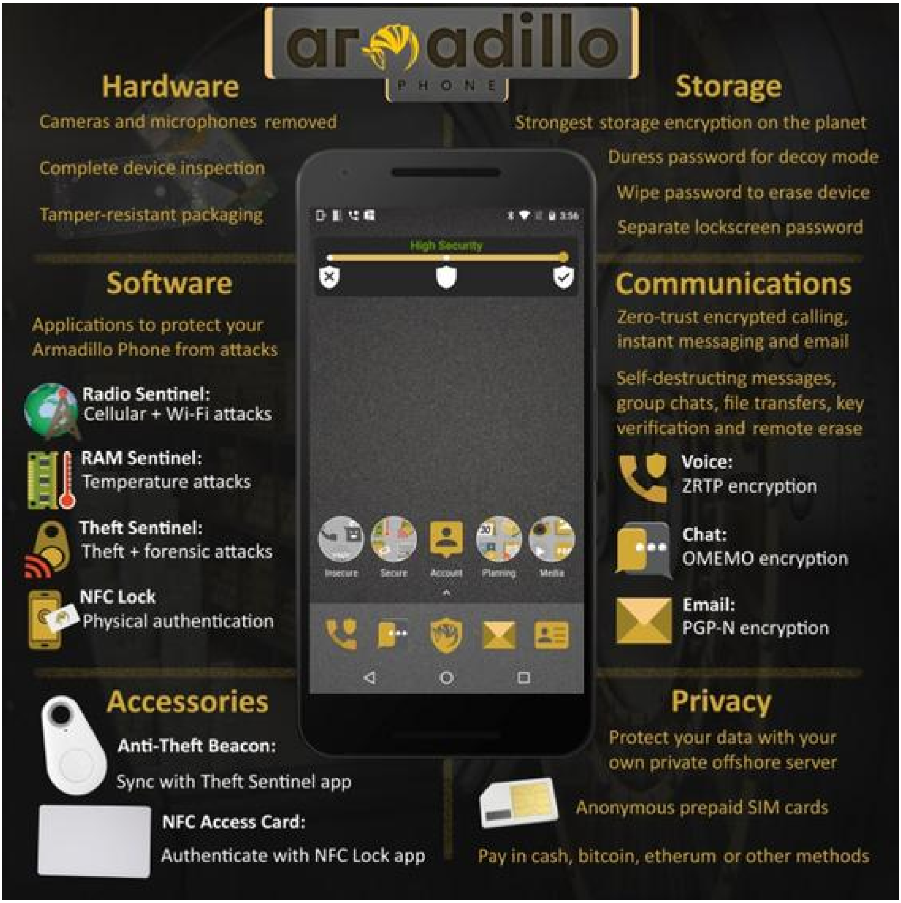
- **Password verification order randomized at runtime to prevent timing attacks**
- **Enhanced KASLR and userland ASLR**
- **Increased ASLR entropy**
- **Several PaX patches ported**
- **Zygote uses exec() spawning instead of fork()**
- **Improved SELinux rules**
- **Hardened malloc implementation**
- **Stack and heap canaries detect overflows**
- **Enhanced FORTIFY _SOURCE implementation**
- **Function pointer protection**
- **Restrictive compile-time sanitization**
- **Additional attack surface reduction**
- **All connections made using pinned TLS 1.2 connections with high-entropy 4096-bit certificates**
- **Metadata can be further protected by enabling optional VPN**
- **Verify encryption keys using manual verification, QR code, SMP or NFC**
- **Chat uses** [7] **OMEMO encryption**
- **Email uses PGP encryption**
- **Email uses randomized subjects**
- **Email uses encrypted connection to keyserver and mailserver**

- **Email requires 4096-bit PGP keys**
- **Radio Sentinel: Monitors WiFi networks for ARP poisoning. Monitors cellular networks for 2G networks, performs sanity checks and compares cellular towers to a database of known network**
- **RAM Sentinel: Monitors temperature to prevent cold-boot attacks**
- **Theft Sentinel: Connects to anti-theft beacon over BLE, alarms both beacon and phone if disconnected. If phone isn't unlocked or beacon isn't reconnected within 5 minutes the phone will shutdown.**

Based on my current experience with the device which I've recently started using for the purpose of keeping in touch with friends and colleagues I can easily say that this is one of the most advanced and technically sophisticated mobile security device that can be easily obtained from **[8] here** and I sincerely hope that my research and security knowledge and technical knowledge expertise will prove highly valuable to what the Team at Armadillo Phone are currently doing.

Stay tuned!

2095



Hardware

Cameras and microphones removed

Complete device inspection

Tamper-resistant packaging

Software

Applications to protect your Armadillo Phone from attacks

Radio Sentinel: Cellular + Wi-Fi attacks

RAM Sentinel: Temperature attacks

Theft Sentinel: Theft + forensic attacks

NFC Lock Physical authentication

Accessories

Anti-Theft Beacon: Sync with Theft Sentinel app

NFC Access Card: Authenticate with NFC Lock app

Storage

Strongest storage encryption on the planet

Duress password for decoy mode

Wipe password to erase device

Separate lockscreen password

Communications

Zero-trust encrypted calling, instant messaging and email

Self-destructing messages, group chats, file transfers, key verification and remote erase

Voice: ZRTP encryption

Chat: OMEMO encryption

Email: PGP-N encryption

Privacy

Protect your data with your own private offshore server

Anonymous prepaid SIM cards

Pay in cash, bitcoin, etherum or other methods

Joining Team Armadillo Phone! (2020-12-01 13:39)

2096

Dear blog readers,

It's a pleasure and an honor to let you know that I've recently joined forces with Team

[1]**Armadillo Phone** in the fight against sophisticated nation-state and rogue cyber threat

actors for the position of Security Blogger targeting mobile devices on their way to compromise

sensitive and often classified personal information and that I'll be definitely looking forward to

making impact with the company through the publication of high-quality security and cyber

threat research including the active education and spreading of information and knowledge to

the company's clients on their way to further protect their sensitive and often classified data

from mobile threats courtesy of a multi-tude of malicious and fraudulent adversaries.

Among my responsibilities will include active cyber threat an nation and rogue cyber ad-

versary research including actual client outreach in terms of Security Blogger including the

actual work and eventual implementation of new never-published and seen-before privacy

and security features including the actual Security Audit of the device in terms of possible

Threat Modelling flaws and actual practical solution and advice-oriented implementation of

new privacy and security features next to the usual cyber nation-state and rogue cyber actor

type of threat analysis and research that I've been doing throughout the past decade.

Perfect timing to say big thanks to COO [2]**Rob Chaboyer** and CEO [3]**Kelaghn Noy** for

bringing me on board and for actually taking the time and effort to go through my proposal

and actually initiate a video conversation with me for the purpose of working together.

My initial idea would be reach out to the company's client-base in terms of possible se-

curity threats outreach including the active production of high-quality security and cyber

adversary research targeting mobile devices at the [4]**company's blog** including the pro-

duction of a Threat Modelling Scenario Research Analysis which I intend to publish at the

company's blog including an actual practical and solution-oriented Security Audit of the device

next to the actual introduction of new privacy and security features.

I will be definitely looking forward to making an impact with the company and I'll be

definitely looking forward to continue publishing the high-quality and never-published before

type of research analysis at my personal blog.

Dear blog readers,

I've recently came across to a very [2]**informative presentation** courtesy of a friend [3]**Jeffrey Carr** from TaiaGlobal that lists me as a major competitor in Cyber Threat Intelligence next to the DHS. Outstanding! Keep it coming Jeff and don't forget to check out this post detailing the inner workings of the infamous [4]**Kneber Botnet**.

How to set them straight? Stay tuned!

Dancho Danchev's Blog - Open Call for Blog Contributors and Guest Bloggers

(2020-12-01 13:44)

UPDATE: Do you know which is one of the World's most popular Security blogs and who's

running it?

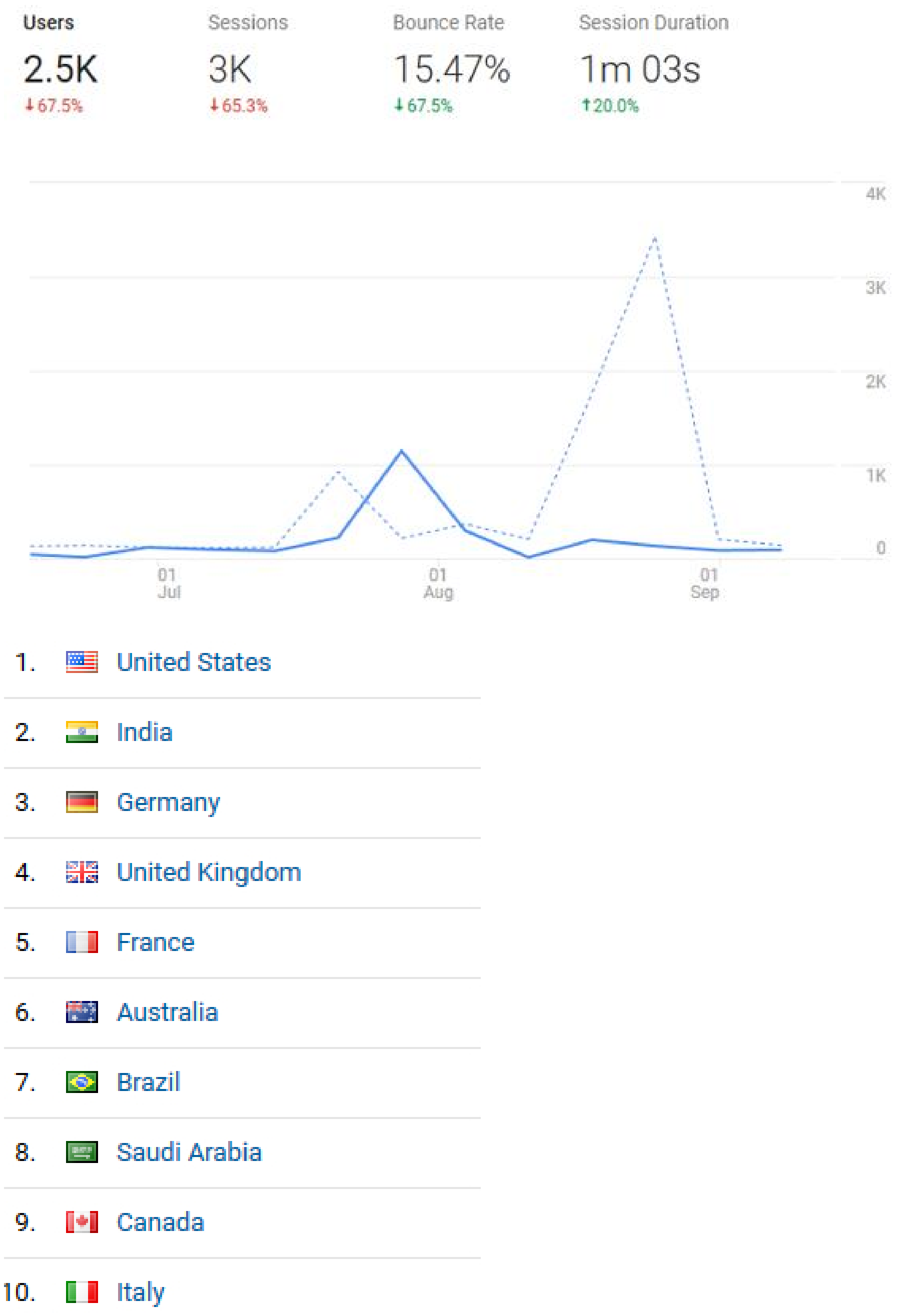
Guess what - you've been reading it all along. Ever since I started this blog in December, 2005

for the purpose of impressing my girlfriend and greatly inspired by a successful venture with

Astalavista Security Group circa 2003-2006 I've received over 5M page views courtesy of a

loyal base of users to whom I owe a great debt of gratitude for keeping track of my research

and following my comments - in real-time. The time has come to expand and eventually launch



Users	Sessions	Bounce Rate	Session Duration
2.5K	3K	15.47%	1m 03s
↓67.5%	↓65.3%	↓67.5%	↑20.0%

1. United States
2. India
3. Germany
4. United Kingdom
5. France
6. Australia
7. Brazil
8. Saudi Arabia
9. Canada
10. Italy

a new set of products and services including a possible Advertising Inventory - therefore I’ve

decided to launch an Open Call for Blog Contributors including Guest Bloggers. Interested in writing at this blog? Feel free to approach me - dancho.danchev@hush.com

Dear blog readers, friends, partners, colleagues, Security Industry friends and partners

including U.S Intelligence Community and U.S and International Law Enforcement friends and

partners - it's been a decade since I originally decided to launch this blog positioning it as

a top Security and Threat Intelligence including Cybercrime Research Major Web Property attracting thousands of high-profile and loyal users throughout the decade to whom I owe a

great deal of personal thanks and admiration for following me and supporting my research

and personal opinion throughout the years including the active spreading of high-quality and

never-published before OSINT analysis cybercrime and threat intelligence gathering type of

technical analysis.

In the spirit of offering high-quality research and malicious and fraudulent campaign analysis

including the expansion of my personal blog to include a diverse set of new areas including a

2107

6-2016
TRABAJA
ONFIANZ

possible Advertising Inventory to offer to selected and invite-only vendors and organizations -

I’ve decided to make an Open Call for Blog Contributors and Guest Bloggers with the idea to

keep the spirit of my 2008-2013 series of analysis where I was busy dominating the news with new attack vectors and attacks techniques including the profiling and tracking down of new

malware and cybercrime groups.

Interested in writing at this blog? Do you have a lot to say in the area of cybercrime research and Threat Intelligence including Privacy Anonymity and malicious software including

botnets? Keep reading.

[13]

Who's Welcome to Approach me?

- **Academic Institutions** looking for ways to properly promote their research and content by offering a selected individuals who'd be responsible for offering an in-depth never published before perspective on the Institution's cybercrime and malicious software research perspective
- **Threat Intelligence Vendors** looking for ways to approach a new set of loyal user base and to promote their research products and services by appointing a selected individual who would be interested in communicating Key Vendor findings on a daily basis
- **Independent Freelancers** looking to reach out to a loyal user base and receive the necessary expose in terms of having their article read by thousands of loyal and selected users on a daily basis
- **Friends and Colleagues** with whom I've worked in the past or with who I continue to work

nowadays who might be interested in making a valuable contributing to this high-quality

Web property publication

2108

Interested in writing at this blog? Do you want to make a valuable contribution? Feel free to

approach me dancho.danchev@hush.com and I’ll get back to you with proper access as soon

as possible.

Dancho Danchev's Threat Data - How to Request Free Access Including a Christmas

Discount (2020-12-01 13:46)

Dear blog readers, I wanted to let everyone know that I'm currently offering unlimited and

exclusive access to [1]Threat Data - The World's Most Comprehensive Threats Database in

the true spirit of the Christmas seasons to selected set of individuals and organizations that

approach me at dancho.danchev@hush.com

Key Summary Points:

- the platform basically represents the majority of proprietary Threat Intelligence type of

research that I produce on a daily basis

- the platform is properly populated on a daily basis with a variety of proprietary Threat

Intelligence type of research data, IoCs (Indicators of Compromise) and hundreds of enriched

Tactics Techniques and Procedures including proprietary OSINT analysis and research to help

you and your organization stay on the top of its game and to ensure that your organization's

infrastructure and situational awareness remains ahead of the cybercriminals and competition

that affect your organization's infrastructure

- the portfolio of covered verticals include - Malware Campaigns, Phishing Campaigns, Spam

In case you're interested in obtaining free access to the service including a possible commer-

cial partnership including a possible high-volume Christmas season discount - feel free to

approach me with the following information.

01. Your Name

02. Your Position

03. How long have you been reading my blog?

04. How has my blog helped you achieve your career goals?

05. The primary reason for requesting access?

06. How much would you or your organization be willing to invest in order to obtain access to

the service?

Looking forward to receiving your access request including possible discount-based Christmas

season type of commercial partnership requests at dancho.danchev@hush.com

Stay tuned!

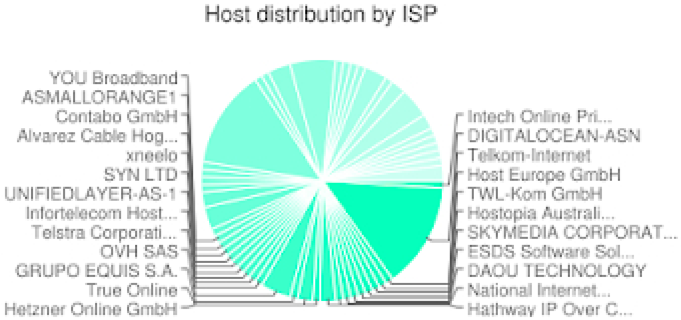
Exposing Emotet's Modern Infrastructure - A Case Study on Tracking Down and Shutting Down Abusive Malware In Direct Cooperation with Abuse Departments

(2020-12-01 13:55)

[1]

In this post I'll officially attempt to bring down and take offline the Emotet botnet including to actually provide never-published before OSINT type of research analysis on the actual C &C infrastructure behind the Emotet botnet which is one of the most prolific botnets up to present day with the idea to attempt a coordinated take down attempt in direct cooperation with multiple international ISPs and their associated abuse departments for the purpose of bringing it offline.



[2]

Sample Emotet known C &C infrastructure servers:

AI-powered Cyber Robots That Fight Disrupt and Undermine Cybercrime - Check out the Framework! (2020-12-02 05:28)

Dancho Danchev's Blog - Sharing the Crown Jewels of my OSINT and Threat Intelligence Research - Request Private Access Today! (2020-12-05 06:27)

Dear blog readers,

This is Dancho and I wanted to touch base with everyone and let everyone know that I've been thinking of switching my personal blog to private invite-only mode where users who request access can basically subscribe themselves to an upcoming flood of high-quality and never-published before OSINT and threat intelligence which basically represents a huge portion of the crown jewels of my research which I intend to share with a specific and highly-targeted audience which might be interested in subscribing to my personal blog in a private invite-only mode which would greatly motivate me to continue doing my research and actually earn the necessary financing which could assist me in my daily work activities where the primary motivation behind switching my personal blog to private invite-only mode is to reach out to a highly qualified and technical audience who might be interested in paying a modest fee for the purpose of obtaining access to my personal blog.

Here's how it works - readers who've been reading my personal blog throughout the past decade and might be interested in obtaining private invite-only access which starts from January, 2021 can approach me with the following information:

Name:

Position:

How long have you been reading my blog?

What's your primary motivation for obtaining private and invite-only access to my personal blog?

How much would you and your organization be willing to pay to obtain access to my blog on a monthly or yearly basis?

I've decided to present a basic pay-as-you-go business model which aims to gather high-quality vetted audience where I intend to present

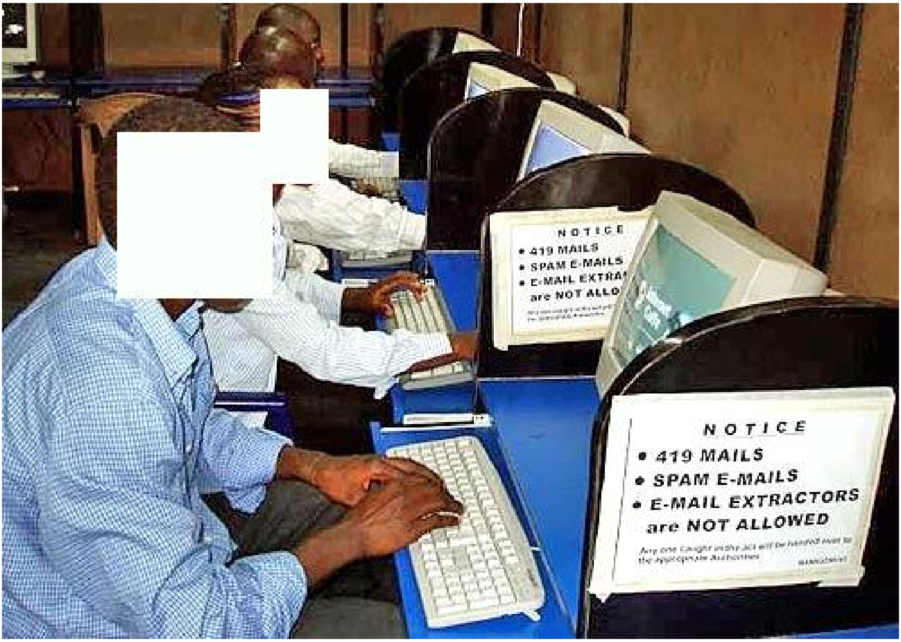
Rogue Facebook applications distribute adware (2020-12-05 17:47)

BitDefender is reporting on

What’s so special about this bogus Facebook application? It’s a rebranded version of a similar

adware-serving Facebook app from last week.

Numerious Facebook users are already posting



NOTICE
• 419 MAILS
• SPAM E-MAILS
• E-MAIL EXTRACTORS
are NOT ALLOWED

"Redhot sexy girl in thong dancing [HQ]"

NEW ONE:

"Sexy masseur gone out of control! [HQ]."

Name of application:

’MXF Movi | Facebook’

http://www.facebook.com/apps/application.php?id=106744506034490

http://apps.facebook.com/mxfmovi/

http://downloads.allokfree.com/FLVDirect.exe

- The rogue application requires you to allow it to access your profile

- Since the self-repblicain is abusing trust, you may want to reconsider allowing access to sent

by your friends

- It offers your video content that is only viewable with their malware-sih app – ow convinient indeed

-

-’

Exposing a Pay-Per-Install and Rogue Spyware Command and Control Database Interface (2020-12-05 18:10)

Sampling 419 Advance Fee Scams Activity - Part Three (2020-12-10 08:23)

2135

Continuing the "[1]Sampling 419 Advance Fee Scams Activity" series of blog [2]posts I’ve decided to offer yet another peek inside their malicious and fraudulent activity and publish part three of the series.
